Prosperity Paul Betts,Greg Eghigian,2003 The turn of the millennium has stimulated much scholarly reflection on the historical significance of the twentieth century as a whole Explaining the century s dual legacy of progress and prosperity on one hand and of world war genocide and mass destruction on the other has become a key task for academics and policymakers alike Not surprisingly Germany holds a prominent position in the discussion What does it mean for a society to be so closely identified with both inflicting and withstanding enormous suffering as well as with promoting and enjoying unprecedented affluence What did Germany s experiences of misery and abundance fear and security destruction and reconstruction trauma and rehabilitation have to do with one another How has Germany been imagined and experienced as a country uniquely stamped by pain and prosperity The contributors to this book engage these questions by reconsidering Germany s recent past according to the themes of pain and prosperity focusing on such topics as welfare policy urban history childbirth medicine racism political ideology consumerism and nostalgia Who's Who in Contemporary Women's Writing

Calvert,2023 Reveals how socialist discourses and psychoanalytic ideas shaped the modern models of motherhood envisioned by women writers working in the Weimar press and literary spheres *Women's Narratives of Ageing and Care* Emily Jeremiah,Shirley Jordan,2025-02-17 Care is fundamental to human survival yet it is often overlooked undermined undervalued and thought of as women's work Care of the old is particularly low in status and is too readily occluded This volume asks why and how cultures of care for older people are negatively configured It examines some of the powerful responses to relationships of intergenerational care in recent creative works by women It thereby contributes to the contemporary imperative to transform care by investigating some of the ways in which care might be redefined and reconceptualized Taking as its focus the representation or narrativization of care in theory literature visual culture and performance it engages with contemporary female authored works from diverse cultural contexts encouraging the development of comparative cross cultural perspectives Narrative is key here for it is in stories about ageing and care that the complexities and ambiguities of care relationships are made available and that simplified ideas about them are challenged This volume will be of interest to scholars in literary and cultural studies gender studies critical age studies the medical and health humanities and all who are interested in care *Early Modern Women's Work* Patricia Anne Simpson,2025-04-16 Early Modern Women's Work examines the contributions of female writers artists scientists religious leaders and patrons who engaged in entrepreneurial intellectual and emotional labor in German speaking Europe Through

individual and collective authorship the women analyzed in this study assert a claim to kinship and community often beyond the hegemonic heteronormative relationships to family religion and monarch The contributions of early modern women to the construction of productive work spaces and the establishment of intellectual and actual communities are often overlooked or underestimated in scholarship on this period This book serves as a cultural corrective to suppositions of gender coded work because alongside the dominant history of the private sphere as a feminine domain a counter narrative emerges with collective authorship Despite the disparities in their biographies the women whose work Simpson foregrounds highlight a range of early modern concerns primarily but not exclusively in German speaking Europe These include debates about women s education and erudition migration and displacement in search of religious or professional freedom a persistent but varied discourse about female authorship and creative agency and the assertion of subjectivity against the violent fractious history of the Thirty Years War and beyond This book will be an ideal resource for students scholars and all those interested in German and European studies women and gender studies and the history of early modern work
