Contending Voices:

Mahler's Voices Julian Johnson, 2009-04-17 Mahler's Voices brings together a close reading of the renowned composer's music with wide ranging cultural and historical interpretation unique in being a study not of Mahler's works as such but of Mahler's musical style

The Sinophone Cinema of Hou Hsiao-hsien: Culture, Style, Voice, and Motion Christopher Lupke, 2016-03-25 Featuring rare interviews and sophisticated analysis this book sheds light on Hou's narrative innovations and aesthetic triumphs while along the way unlocking some of the mysteries lurking behind one of the greatest bodies of cinematic work ever produced

MICHAEL BERRY University of California Santa Barbara Lupke's book provides comprehensive coverage detailed contextualization and insightful analysis from Hou's earliest works to his most recent accomplishment The narrative is particularly compelling because it weaves cultural and social contexts and filmic texts together and it brings various formal elements image editing language music to bear upon one another The book also includes careful comparison with another East Asian auteur Ozu Yasujiro

The Sinophone Cinema of Hou Hsiao-hsien is a significant addition

GUO JUIN HONG Duke University Lupke's comprehensive and original study excavates the literary inspirations of Hou's filmmaking showing how Wu Nianzhen Shen Congwen and especially Zhu Tianwen shape his philosophy and aesthetic In Lupke's convincing account the anti filial behaviors of their characters which have attracted little critical attention are the key to understanding their shared concern for the visible dissolution of the family in the modern world In addition to its lucid analysis this book contextualizes the filmmaking history of Hou in ways that illustrate the cultural and political significance of studying Taiwan Cinema in a global context

HSIU CHUANG DEPPMAN Oberlin College Serving both as an excellent comprehensive introduction to the filmmaker and as a series of in depth readings this informative engaging and insightful book covers the full range of Hou's work Writing clearly and elegantly Lupke perceptively relates Hou's films to both literary and cinematic antecedents

Aside from Hou's well known connection to Taiwan's native soil literature Lupke highlights as well the filmmaker's debt to earlier mainland Chinese authors such as Shen Congwen Zhang Ailing and Hu Lancheng Hou's singular contribution to film aesthetics summarized as stasis within motion comes through vividly and convincingly

Silence and Democracy John Zumbrennen, 2010-11 The role of elites vis vis the mass public in the construction and successful functioning of democracy has long been of central interest to political theorists In *Silence and Democracy* John Zumbrennen explores this theme in Thucydides famous history of the Peloponnesian War as a way of focusing our thoughts about this relationship in our own modern democracy In Periclean Athens according to Thucydides what was in name a democracy became in actuality rule by the first man This political transformation of Athenian political life raises the question of how to interpret the silence of the demos Zumbrennen distinguishes the silence of contending voices from the collective silence of

the demos and finds the latter the more difficult and intriguing problem It is in the complex interplay of silence speech and action that Zumbrunnen teases out the meaning of democracy for Thucydides in both its domestic and international dimensions and shows how we may benefit from the Thucydidean text in thinking about the ways in which the silence of ordinary citizens can enable the domineering machinations of political elites in America and elsewhere today New Literary Voices of the Moroccan Diaspora Ieme van der Poel,2022-09-15 The highly charged debate over Morocco s diasporic minorities in Europe has led to a growing interest in the literary production of these new Europeans This comparative study is the first to discuss together a body of texts including contemporary Judeo Moroccan literature written in French Spanish Catalan and Dutch which have never been studied as a group Faced with such a variegated field of literary production the aim of this book is not to tie individual works of literature to their national place of origin but to re conceptualize the idea of a Moroccan literature with regard to the transnational and multilingual experiences from which it arises Drawing on a wide range of theoretical insights from Fatima Mernissi s concept of female subalternity to Abdelmalek Sayad s principle of the immigrants absent history this book allows for the re evaluation of the relationship between migration and postcolonial literary studies A careful analysis of the literary techniques used in the texts under scrutiny here highlights their poetic qualities without bypassing their political relevance with regard to the intercultural relations between Morocco and Europe as they are presently unfolding across the Mediterranean and beyond **Shakespearean Narrative** R. Rawdon

Wilson,1995 The book also relates Shakespeare s understanding of the narrative in the plays to the brilliant narrative poems that he wrote in the early 1590s It also examines the narrative conventions that are used in the embedded or inset narratives in the plays Particular attention is paid to the way Shakespeare creates fictional entities such as worlds and characters in the plays A great deal of emphasis is placed on Shakespeare s innovative transformations of traditional narrative conventions

Contending Voices, Volume I: To 1877 John Hollitz,2010-08-11 Each chapter in *CONTENDING VOICES* examines the lives of two individuals some of them familiar historical figures and some of them lesser known who took opposing positions on important issues in American history The paired biographies in the text are followed by a set of four to six related primary sources many in the individuals own voices a Questions to Consider section and an annotated bibliography This unique format promotes critical thinking and engages students in historical debates Important Notice Media content referenced within the product description or the product text may not be available in the ebook version *Harper Lee's To Kill a*

Mockingbird Mei Chin,2009 Harper Lee s Pulitzer Prize winning story of a black man on trial for rape in the 1930s Alabama is one of the most poignant works on the destructive effects of racism **Walker Percy's Voices** Michael Kobre,2000

Walker Percy s novels are fraught with characters struggling toward a destiny and purpose in life who must sort through conflicting inner voices and the voices of family friends therapists and mentors until they finally find their own paths Through trial error and retrial Percy s characters continuously reinvent themselves struggling until they reach solutions satisfaction

and maturity In this multifaceted work Michael Kobre analyzes Walker Percy's major fiction works *The Moviegoer* *The Last Gentleman* *Love in the Ruins* *Lancelot* *The Second Coming* and *The Thanatos Syndrome* in terms of the Russian philosopher and literary scholar Mikhail Bakhtin's critical theory Kobre begins with an introduction to Percy's view of language and consciousness and a clear accessible explanation of Bakhtin's ideas His subsequent discussion of the novels connects each work in turn with Percy's advancing career and explores the deepening conflict in Percy's fiction between his desire to express his own religious and moral beliefs and his commitment to the essential freedom of his art the play of many voices in his narratives

Faith and Force David L. Clough, Brian Stiltner, 2007-06-04 This book began in an argument between friends surprised to find themselves on opposite sides of the debate about whether the United States and the United Kingdom should invade Iraq in 2003 Situated on opposite sides of the Atlantic in different churches and on different sides of the just war pacifist fence we exchanged long emails that rehearsed on a small scale the great national and international debates that were taking place around us We discovered the common ground we shared as well as some predictable and some surprising points of difference When the initial hostilities ended our conversation continued and we felt the urgency of contributing to a wider Christian debate about whether and when war could be justified From the Preface So began a dynamic collaboration that developed into a civil but provocative debate over matters of war and peace that is *Faith and Force* From the ancient battles between Greek city states to the Crusades to the World Wars of the twentieth century to the present day wars in Afghanistan and Iraq and the Middle East aggressors and defenders alike have claimed the mantle of righteousness and termed their actions just But can the carnage of war ever be morally grounded And if so how These are the questions that David L. Clough a Methodist proponent of pacifism and Brian Stiltner a Catholic theologian and just war adherent have vowed to answer together With one voice Clough and Stiltner outline and clarify issues of humanitarian intervention weapons proliferation and preventative war against rogue states Their writing is grounded in Christian tradition and provides a fresh and illuminating account of the complexities and nuances of the pacifist and just war positions In each chapter Clough and Stiltner engage in debate on the issues demonstrating a respectful exchange of ideas absent in much contemporary political discourse whether on television or in the classroom The result is a well reasoned challenging repartee that searches for common ground within the Christian tradition and on behalf of the faithful promotion of justice yet one that also recognizes genuine differences that cannot be bridged easily Intended for a broad audience *Faith and Force* is the perfect foil to the shrill screeching that surrounds partisan perspectives on military power and its use To help with using the book in a classroom context the authors have provided Questions for Reflection and Discussion for each chapter You can download these questions in PDF format at press.georgetown.edu

No News is Bad News Michael Bromley, Hugh Stephenson, 2014-09-11 This volume of collected essays provides a wide ranging survey of the state of radio and television especially the idea of public service broadcasting and of news current affairs and documentary programming in America

Australia the UK and the rest of western Europe Among the key issues it addresses are the dumbing down of TV news the infotainment factor in current affairs shows and the disappearance of the documentary Using contemporary cases and examples from the row over the scheduling of News at Ten in the UK to the creation of ABC News Online in Australia the essays link the performance of radio and television at the turn of the millennium with the processes of deregulation liberalisation and digitalisation which have been evident since the 1980s Working from a much needed and original comparative approach which encompasses complex and well established public broadcasting in the USA as well as emerging and vulnerable participatory radio stations in El Salvador the book sets a variety of experiences of factual radio and television programming within wider political and cultural contexts It offers analyses of not only the problems associated with news current affairs and documentary broadcasting in an era of a declining public service ethos and the apparent triumph of the market however The essays also explore the potential of alternative radio and television new forms of communication such as the internet and changing practices among journalists and programme makers as well as the resilience of public broadcasting and the powers of the public to ensure that the media remain relevant and accountable A companion text to the bestselling *Sex Lies and Democracy The Press and the Public* this volume presents a multi faceted approach to the tumultuous present and the uncertain future of news current affairs and documentary in radio and television

Disturbing History Robert Nicole, 2010-10-15 *Disturbing History* focuses on Fiji s people and their agency in responding to and engaging the multifarious forms of authority and power that were manifest in the colony from 1874 to 1914 By concentrating on the lives of ordinary Fijians the book presents alternate ways of reconstructing the island s past Couched in the traditions of social subaltern and people s histories the study is an excavation of a large mass of material that tells the often moving stories of lives that have largely been overlooked by historians These challenge conventional historical accounts that tend to celebrate the nation represent Fiji s colonial experience as ordered and peaceful or British tutelage as benevolent In its contribution to postcolonial theory *Disturbing History* reveals resistance as a constant but partial and untidy mix of other constituents such as collaboration consent appropriation and opportunism which together form the colonial landscape In turn colonialism in Fiji is shown as a force shaped in struggle fractured and often fragile with a presence and application in the daily lives of people that was often chaotic imperfect and susceptible to subversion The book divides the period of study into two broad categories organized resistance and everyday forms of resistance The first examines the Colo War 1876 the Tuka Movement 1878 1891 the Seaqaqa War 1894 the Movement for Federation with New Zealand 1901 1903 the Viti Kabani Movement 1913 1917 and the various organized labor protests The second half of the book addresses resistance manifested in the villages and plantations including tax and land boycotts violence and retributive justice avoidance protest petitioning and women s resistance In their entirety these forms reveal a complex web of relationships between powerful and subordinate groups and among subordinate groups themselves The author concludes that resistance cannot be framed as a

totality but as a multilayered and multidimensional reality In the wake of Fiji's present volatile climate this book will aid readers in understanding the continuities and disjunctures in Fiji's interethnic and intraethnic relations **The Time of the City** Michael Shapiro, 2010-06-17 *The Time of the City* is a trans disciplinary work with a focus on genre city relationships as they articulate the micropolitics of urban life in diverse cities Shifting the territorial emphasis of political studies from the mosaic of states to the global network of cities the book draws on urban theory rather than traditional forms of official city politics Deriving their methodological approaches from aspects of urban theory and philosophies of aesthetics the chapters deploy concepts from philosophy political theory literary studies cinema studies poetics and aesthetic theory on diverse cities among which are Berlin Hong Kong London Los Angeles New York Philadelphia and Washington DC Investigating a wide variety of urban formations and developing a geophilosophy appropriate to urban space this multi genre approach to urban life provides stunning insights into the micropolitics of ethnicity identity security subjectivity and sovereignty

Royal Institute of Technology Sweden Anyone interested in understanding how we might develop universities and higher education for the modern world should read this important book *Language, Knowledge and Pedagogy* Frances Christie, J. Elementary Forms of Social Relations Theodore D. Kemper, 2016-10-04 *Elementary Forms of Social Relations* introduces the reader to social life as a perpetual quest by individuals to gain attention respect and regard status accompanied by an effort to marshal defensive and offensive means power to overcome the reluctance of others to grant status This work is based on empirical evidence from many research settings showing that status and power are the main relational modes and that to understand our own and others social behaviour we need to understand how status and power operate in relational conduct The status power and reference group approach is applied to enumerate the relatively few ways in which social interaction can occur Chapters compare the analytic value of the concept of the self with the value of reference groups that create the self Threads of investigation include considering the fallacy of abandoning reference groups as sources of cultural information in favour of approaches derived from cognitive neuroscience examining a multi person conversation from a status power and reference group stance as against a view of the same conversation based on principles of Conversation Analysis and asserting the universality of personal status power interests even among national leaders to name a few By applying the author's main theory to a range of specific cases the author reaffirms the importance of the social to our understanding of a variety of phenomena including the self cultural transmission the conduct of leaders and economic activity This book provides readers with transparent instances of the theory in action and thus will appeal to scholars across the social sciences with interests in theory and social interaction *Mark Twain's Ethical Realism* Joe B. Fulton, 1997 Mark Twain's *Ethical Realism* is the only work that looks

specifically at how Twain blends ethical and aesthetic concerns in the act of composing his novels Fulton conducts a spirited discussion regarding these concepts and his explanation of how they relate to Twain's writing helps to clarify the complexities of his creative genius
