

CONTENTIOUS REPUBLICANS

Popular Politics, Race, and Class in Nineteenth-Century Colombia

JAMES E. SANDERS

Contentious Republicans

G Thomas

Contentious Republicans:

Contentious Republicans James E. Sanders, 2004-02-03 Shows how Afro Colombians Indians and white peasants helped construct a democratic political culture in 19th century Colombia and ways in which the loss of some aspects of this mass based democracy fed into the pervasive violence of the The Truth Teller Jack Buckby, 2023-10-24 Could RFK Jr overturn 230 years of American political history and become the first independent to mount a truly credible campaign for the presidency Does the increasingly partisan and unpredictable nature of American politics provide an opportunity for the ultimate outsider to outrun the two party system In The Truth Teller Jack Buckby explores the impact that Kennedy s candidacy could have on the Democratic party s slide toward authoritarianism his ability to connect with America s youth the common ground between Trump voters and Democrats the potential to make landslide victories common again and the healing power of a candidate who refuses to alienate half of the country In telling uncomfortable truths Kennedy offers a radically moderate vision for America and a blueprint for bringing the country back from the brink of permanent decline The Truth Teller offers a unique look at Kennedy s campaign describing how Kennedy s radically moderate vision for America his ability to bring together the left and the right and his unique campaign style present an opportunity for America to normalize its politics and bring this divided country back together The Roots of Conservatism in Mexico Benjamin T.

Smith, 2012-11-15 The Roots of Conservatism is the first attempt to ask why over the past two centuries so many Mexican peasants have opted to ally with conservative groups rather than their radical counterparts Blending socioeconomic history cultural analysis and political narrative Smith s study begins with the late Bourbon period and moves through the early republic the mid nineteenth century Reforma the Porfiriato and the Revolution when the Mixtecs rejected Zapatista offers of land distribution ending with the armed religious uprising known as the last Cristiada a desperate Cold War bid to rid the region of impious communist governance In recounting this long tradition of regional conservatism Smith emphasizes the influence of religious belief church ritual and lay clerical relations both on social relations and on political affiliation He posits that many Mexican peasants embraced provincial conservatism a variant of elite or metropolitan conservatism which not only comprised ideas on property hierarchy and the state but also the overwhelming import of the church to maintaining this system

Reform and Reaction Michael A. Smith, H. Edward Flentje, 2024-07-18 Originating under the leadership of the late Burdett Loomis Reform and Reaction tells the complex story of recent Kansas politics beginning in the 1960s and concluding with the reversal of Governor Sam Brownback s red state policies in the 2016 and 2018 elections The Kansas that emerged from the reapportionment decisions and the overhaul of state government in the 1960s and 1970s was one that found itself in a push and pull reform and reaction pattern the authors refer to as the arc of Kansas politics Reform minded and policy oriented politicians who tended toward a moderate bipartisan approach pushed to modernize the state to better serve the needs of its citizens following the maxim of Governor Robert Docking austere but adequate Because this approach

avoided or rejected the narrow conservative interests of culture warriors reformist administrations were followed by reactionary administrations that advanced a right wing agenda Brownback thus brought the era of austere but adequate to an abrupt end when he won the governorship in 2010 When voters became tired of this approach a new set of reform politicians were elected and so the arc continues The only book tracing changes in Kansas government since the 1960s including the loss of moderates in both parties the Brownback era and its aftermath Reform and Reaction is the last book by the celebrated political scientist Burdett Loomis who conceived the idea for the book and authored one of its chapters before his passing Reform and Reaction not only illuminates the political history of Kansas but also sheds light on what may be in store for the future of the Sunflower State *American Political Leaders 1789-2009* CQ Press,2009-09-22 This handy single volume features a wealth of fascinating biographical information on approximately 9 000 of the most important U S elected and appointed leaders Newly updated it includes key facts on political leaders spanning 220 years of American history Organized for quick easy reference the book contains six chapters in which readers will find the following on presidents vice presidents cabinet members Supreme Court justices members of Congress and governors Basic Facts including all significant biographical data such as birth and death dates periods of public service and party affiliations Special Information including boxed features and analytical commentary on topics such as presidential disability and succession religious affiliations of the U S presidents and Supreme Court justices White House hostesses and women African Americans and Hispanic Americans in Congress the Cabinet the Supreme Court and the White House This easy to use resource also offers an appendix of additional reference tables on Congress including sessions held leadership and committee chairmen *American Political Leaders 1789-2010* is the perfect reference guide for researchers students and interested citizens looking for names dates and other essential information on U S leaders in one convenient reliable source **The Contentious Senate** Colton C. Campbell,Nicol C. Rae,2001 The Senate is becoming more like the House of Representatives in its increasing levels of partisanship and ideology A transformation of the institution appears to be underfoot posing questions about the Senate's role as the chamber in which cool judgement prevails This book discusses and analyzes the changes in Senate life including rules and procedures leadership and party organization executive and Senate relations debate and deliberation and media spotlight Then there is a re examination of Senate efficacy legitimacy and appropriateness as an aristocratic chamber in an increasingly democratic system of government **Contentious Republicans** James E. Sanders,2004-02-03 Shows how Afro Colombians Indians and white peasants helped construct a democratic political culture in 19th century Colombia and ways in which the loss of some aspects of this mass based democracy fed into the pervasive violence of the Muddied Waters Nancy P. Appelbaum,2003 Claims that Colombia's present day regional and local hierarchies were shaped by 19th and 20th century processes of colonization and that regionalism and race are tied into Colombia's history of violence **Race and Nation in the Age of Emancipations** Whitney Nell Stewart,John Garrison Marks,2018-04-15 Over the long nineteenth

century African descended peoples used the uncertainties and possibilities of emancipation to stake claims to freedom equality and citizenship In the process people of color transformed the contours of communities nations and the Atlantic World Although emancipation was an Atlantic event it has been studied most often in geographically isolated ways The justification for such local investigations rests in the notion that imperial and national contexts are essential to understanding slaving regimes Just as the experience of slavery differed throughout the Atlantic World so too did the experience of emancipation as enslaved people s paths to freedom varied depending on time and place With the essays in this volume historians contend that emancipation was not something that simply happened to enslaved peoples but rather something in which they actively participated By viewing local experiences through an Atlantic framework the contributors reveal how emancipation was both a shared experience across national lines and one shaped by the particularities of a specific nation Their examination uncovers in detail the various techniques employed by people of African descent across the Atlantic World allowing a broader picture of their paths to freedom Contributors Ikuko Asaka Caree A Banton Celso Thomas Castilho Gad Heuman Martha S Jones Philip Kaisary John Garrison Marks Paul J Polgar James E Sanders Julie Saville Matthew Spooner Whitney Nell Stewart and Andrew N Wegmann

Understanding Conflict Imaginaries Simon Philpott, Nicholas Morgan, 2022-08-01 This Palgrave Pivot argues that if we are to understand civil conflict we need to grasp how everyday life is shaped by local conflict imaginaries In order to examine this claim the book sets out to explore the contours of conflict imaginaries from two very different sites of conflict Both Colombia and Indonesia have suffered from the collective trauma of political violence but in very different social cultural and political contexts Sketching out what they mean by a conflict imaginary and explaining the relationship of this key concept to social imaginaries more broadly the authors provide a historical overview of how political violence has been represented in both countries They go on to outline the original qualitative research methods used to provide empirical evidence for the importance of conflict imaginaries methods which allow them to explore the images and metaphors that underpin the spatial chronological and emotional cartographies through which people make sense of political violence With an emphasis on the construction of place based knowledge they consider the role of the local the national and the global in the imagining of civil conflict and show how film can be used to explore the imaginative worlds of social actors living alongside violence revealing in the process the need to take seriously their hopes fears dreams and fantasies

Civic Continuities in an Age of Revolutionary Change, c.1750-1850 Judith Pollmann, Henk te Velde, 2023-01-05 This open access book explores the role of continuity in political processes and practices during the Age of Revolutions It argues that the changes that took place in the years around 1800 were enabled by different types of continuities across Europe and in the Americas With historians of modernity tending to emphasise the rise of the new scholarship has leaned towards an assumption that existing modes of action thought and practice simply became extinct irrelevant or at least subordinate to new modes In contrast this collection examines continuities between early modern and

modern political cultures and organization in Europe and the Americas Shifting the focus from political modernization the authors examine the continued relevance of older often local practices in post revolutionary politics By doing so they aim to highlight the role of local political traditions and practices in forging and enabling political change The book argues that while political change was in fact at the centre of both the old and new polities that emerged in the Age of Revolutions it coexisted with and was indeed enabled by continuities at other levels

Subaltern Political Subjectivities and Practices in the Nineteenth and Twentieth Centuries Karen Lauwers,Sami Suodenjoki,Marnix Beyen,2023-06-09 Approaching subalternity from a broad Gramscian angle this edited collection contributes to the understanding of popular politics in parliamentary autocratic and colonial contexts The book explores individual stories and micro histories of complaints requests rumors and other mediated and unmediated interactions between political institutions and the subjects they claimed to govern or represent It challenges the approaches of institutionally oriented political historiography and its attention to the top down construction of political representation citizenship and power and powerlessness The book discusses more subtle forms of agency and the spaces these pertained to which could indicate contestation or resistance taking place within a framework of loyalty towards the existing political institutions This research does not only bridge the divide between political and apolitical frames of reference but it also provides a new perspective on the dichotomy between loyalty and resistance by acknowledging the nuances of these seemingly opposing stances With case studies from Europe North Africa South America and India the chapters cover political communication in proto democratic democratic imperial and authoritarian contexts This volume is crucial reading for undergraduates postgraduates and scholars in history and social sciences who are interested in political culture and the mechanisms of negotiating local national or imperial identities Chapter 4 of this book is freely available as a downloadable Open Access PDF at <http://www.taylorfrancis.com> under a Creative Commons Attribution 4.0 International CC BY 4.0 license

Black Legend Paulina L. Alberto,2022-01-06 The gripping story of Afro Argentine celebrity Ra l Grigera that also tells the untold history of Black Argentina

The Work of Recognition Jason McGraw,2014 Work of Recognition Caribbean Colombia and the Postemancipation Struggle for Citizenship

Freedom's Captives Yesenia Barragan,2021-07 Freedom s Captives offers a compelling narrative driven history of the gradual abolition of slavery in the majority black Colombian Pacific

Mapping the Country of Regions Nancy P. Appelbaum,2016-05-23 The nineteenth century was an era of breathtakingly ambitious geographic expeditions across the Americas The seminal Chorographic Commission of Colombia which began in 1850 and lasted about a decade was one of Latin America s most extensive The commission s mandate was to define and map the young republic and its resources with an eye toward modernization In this history of the commission Nancy P Appelbaum focuses on the geographers fieldwork practices and visual production as the men traversed the mountains savannahs and forests of more than thirty provinces in order to delineate the country s territorial and racial composition Their assumptions and methods Appelbaum argues contributed to a

long lasting national imaginary What jumps out of the commission s array of reports maps sketches and paintings is a portentous tension between the marked differences that appeared before the eyes of the geographers in the field and the visions of sameness to which they aspired The commissioners and their patrons believed that a prosperous republic required a unified and racially homogeneous population but the commission s maps and images paradoxically emphasized diversity and helped create a country of regions By privileging the whiter inhabitants of the cool Andean highlands over those of the boiling tropical lowlands the commission left a lasting but problematic legacy for today s Colombians

Frontiers of Citizenship Yuko Miki,2018-02-08 *Frontiers of Citizenship* is an engagingly written innovative history of Brazil s black and indigenous people that redefines our understanding of slavery citizenship and the origins of Brazil s racial democracy Through groundbreaking archival research that brings the stories of slaves Indians and settlers to life Yuko Miki challenges the widespread idea that Brazilian Indians disappeared during the colonial era paving the way for the birth of Latin America s largest black nation Focusing on the postcolonial settlement of the Atlantic frontier and Rio de Janeiro Miki argues that the exclusion and inequality of indigenous and African descended people became embedded in the very construction of Brazil s remarkably inclusive nationhood She demonstrates that to understand the full scope of central themes in Latin American history race and national identity unequal citizenship popular politics and slavery and abolition one must engage the histories of both the African diaspora and the indigenous Americas

Nationalism and Transnationalism in Spain and Latin America, 1808-1923 ,2017-02-01 The twin focus of this book is on the importance of the Spanish heritage on nation and state building in nineteenth century Spanish speaking Latin America alongside processes of nation and state building in Spain and Latin America Rather than concentrating purely on nationalism and national identity the book explores the linkages that remained or were re-established between Spain and her former colonies as has increasingly been recognised in recent decades the nineteenth century world was marked by the rise of the modern nation state but also by the development of new transnational connections and this book accounts for these processes within a Hispanic context

Republics of the New World Hilda Sabato,2021-09-28 A sweeping history of Latin American republicanism in the nineteenth century By the 1820s after three centuries under imperial rule the former Spanish territories of Latin America had shaken off their colonial bonds and founded independent republics In committing themselves to republicanism they embarked on a political experiment of an unprecedented scale outside the newly formed United States In this book Hilda Sabato provides a sweeping history of republicanism in nineteenth century Latin America one that spans the entire region and places the Spanish American experience within a broader global perspective Challenging the conventional view of Latin America as a case of failed modernization Sabato shows how republican experiments differed across the region yet were all based on the radical notion of popular sovereignty the idea that legitimate authority lies with the people As in other parts of the world the transition from colonies to independent states was complex uncertain and rife with conflict Yet the republican order in

Spanish America endured crossing borders and traversing distinct geographies and cultures Sabato shifts the focus from rulers and elites to ordinary citizens and traces the emergence of new institutions and practices that shaped a vigorous and inclusive political life Panoramic in scope and certain to provoke debate this book situates these fledgling republics in the context of a transatlantic shift in how government was conceived and practiced and puts Latin America at the center of a revolutionary age that gave birth to new ideas of citizenship *Harvard Law Review: Volume 131, Number 5 - March 2018*
Harvard Law Review,2018-03-03
