A Library of the World's Best Literature - Ancient and Modern - Vol. XLII (Forty-Five Volumes); Dictionary of Authors (A-J) Charles Dudley Warner, 2008-07-01 Popular American essayist novelist and journalist CHARLES DUDLEY WARNER 1829 1900 was renowned for the warmth and intimacy of his writing which encompassed travelogue biography and autobiography fiction and more and influenced entire generations of his fellow writers Here the prolific writer turned editor for his final grand work a splendid survey of global literature classic and modern and it s not too much to suggest that if his friend and colleague Mark Twain who stole Warner s quip about how everybody complains about the weather but nobody does anything about it had assembled this set it would still be hailed today as one of the great achievements of the book world Volume 42 is Part One of a dictionary of authors from Alexis Aar to Juvenal that serves as a handy condensed reference to the authors quoted in the first 40 volumes as well as a guide to thousands more authors whose works are notable but not featured in this set

Anxiety in Modern Scandinavian Literature Markus Floris Christensen, 2024-06-17 This book explores how states and traits of anxiety are reflected in the style and structure of certain works by three key figures of modern Scandinavian literature August Strindberg Inger Christensen Karl Ove Knausg rd On the basis of particular literary analyses it develops a literary phenomenology of anxiety as well as a hermeneutical theory of anxiety that considers the ways in which anxiety has

been represented in various genres of modern Scandinavian literature from the last three centuries Whereas the former uncovers the ways in which anxiety is reflected in literary form and style the latter interprets the relationship between author text and reader as well as the effects of genre As Strindberg s works capture the tensions between existential indeterminism and naturalistic determinism and make way for negative aesthetic pleasure poetry such as Christensen s challenges scientific and psychiatric conceptions of anxiety and instigates a change in how humans conduct themselves in relation to the experience of anxiety Finally Knausg r d s autofictive work gives voice to the socially anxious self of late modernity and incites moments of self intensification and reorganizes the fragile self of contemporary society In this way it becomes clear that literature is an outstanding archive of representations and transformations in the cultural history of anxiety Literature is an aesthetic medium of expression and reflection that represents anxiety in a number of ways that may enrich our understanding of anxiety today This work thus contributes to cultural and literary scholarship that contests the subjugation of anxiety to a scientific world view and aims to expose the imaginative and creative dimensions of anxiety that are often ignored in contemporary public discourse and policy

The European Studies Journal, 1984 *Poetry in Sagas of Icelanders* Margaret Clunies Ross, 2022 First full analysis of the skaldic verse appearing in the family sagas of Icelanders considering why and how it is deployed Sagas of Icelanders also called family sagas are the best known of the many literary genres that flourished in medieval Iceland most of them achieving written form during the thirteenth and early fourteenth centuries Modern readers and critics often praise their apparently realistic descriptions of the lives loves and feuds of settler families of the first century and a half of Iceland s commonwealth period c AD 970 1030 but this ascription of realism fails to account for one of the most important components of these sagas the abundance of skaldic poetry mostly in dr tkv tt court metre which comes to saga heroes lips at moments of crisis These presumed voices from the past and their

integration into the narrative present of the written sagas are the subject of this book. It investigates what motivated Icelandic writers to develop this particular mode and what particular literary effects they achieved by it. It also looks at the various paths saga writers took within the evolving prosimetrum, a mixed verse and prose form, and explores their likely reasons for using poetry in diverse ways. Consideration is also given to the evolution of the genre in the context of the growing popularity in Iceland of romantic and legendary sagas. A final chapter is devoted to understanding why a minority of sagas of Icelanders do not use poetry at all in their narratives, what particular literary effects they achieved by it.
