Contest Of Christian And Muslim Spain 1031 1157:

The Contest of Christian and Muslim Spain 1031 - 1157 Bernard F. Reilly, 1996-01-09 This book is the first account of the period to consider both Christian and Muslim Spain The author discusses the various societies cultures and governments of Muslim and Christian Iberia in the centuries of their critical confrontation Beginning with the disintegration of the caliphate at Cordoba in the early eleventh century the book traces the decline of the Muslim taifa states and describes and explains their conquest first by the Murabit and then the Muwahhid fundamentalist Muslim empires of North Africa Bernard Reilly describes the rising Christian kingdoms of Leon Castilla Aragon Barcelona and Portugal and shows how they were engaged in a struggle on several fronts As they vied with one another for control of the old Islamic stronghold of the center and north they were also in continuous conflict with the Murabit and Muwahhid rulers while striving to come to terms with the French the Papacy and the Italian maritime powers Dhimmis and Others Uri Rubin, David Wasserstein, 1997 Islam has always had ambivalent relations with Judaism and Christianity as also with Jews and Christians The awkwardness of their character has been accentuated by the creation and perpetuation on all sides of partial and ill intentioned images during the middle ages and by political developments in the modern period Since the beginning of serious modern study of Islam in the west these relations have found an important place in scholars interest partly because many of those in the west who have studied Islam have been Jews with a natural attraction to an interest in those topics which affected Jews and other minorities in the Islamic environment In this volume we have tried to assemble a collection of papers which reflect something of the diversity of the problems offered by this range of relations We have also attempted to reflect in the variety of the papers and the topics discussed in them the rich variety of approach adopted by scholars over the last century and a half of such study Israel Oriental Studies has ceased publication with volume 20 Christian Identity amid Islam in Medieval Spain Charles L. Tieszen, 2013-05-30 In Christian Identity amid Islam in Medieval Spain Charles L Tieszen explores a small corpus of texts from medieval Spain in an effort to deduce how their authors defined their religious identity in light of Islam and in turn how they hoped their readers would distinguish themselves from the Muslims in their midst It is argued that the use of reflected self image as a tool for interpreting Christian anti Muslim polemic allows such texts to be read for the self image of their authors instead of the image of just those they attacked As such polemic becomes a set of borders authors offered to their communities helping them to successfully navigate inter religious living *The Second Crusade* Jonathan Phillips, 2008-01-08 The Second Crusade 1145 1149 was an extraordinarily bold attempt to overcome unbelievers on no less than three fronts Crusader armies set out to defeat Muslims in the Holy Land and in Iberia as well as pagans in northeastern Europe But to the shock and dismay of a society raised on the triumphant legacy of the First Crusade only in Iberia did they achieve any success This book the first in 140 years devoted to the Second Crusade fills a major gap in our understanding of the Crusades and their importance in medieval European history Historian Jonathan Phillips draws on the latest

developments in Crusade studies to cast new light on the origins planning and execution of the Second Crusade some of its more radical intentions and its unprecedented ambition With original insights into the legacy of the First Crusade and the roles of Pope Eugenius III and King Conrad III of Germany Phillips offers the definitive work on this neglected Crusade that despite its failed objectives exerted a profound impact across Europe and the eastern Mediterranean *Calixtus the Second, 1119-1124* Mary Stroll,2004 This new interpretation of the reign of Calixtus II 1119 1124 challenges the conventional analysis explaining why this life long opponent of the emperor Henry V agreed to compromise over imperial investitures of bishops in the Concordat of Worms of 1122 Abbots and Abbesses as a Human Resource in the Ninth- to Twelfth-Century West Steven Vanderputten,2018 This volume provides a record of the response by eight expert scholars in the field of medieval monastic studies to the question To what extent did abbots and abbesses contribute as a human resource to the development of reformed monastic communities in the ninth to twelfth century west Covering a broad geographical area papers consider one or several of three key points of interest the direct contribution of abbots and abbesses to the shaping of reformed realities their influence over future modes of leadership and the way in which later generations of monastics relied upon the memory of a leader s life and achievements to project current realities onto a legitimizing past

The Medieval Spains Bernard F. Reilly,1993-06-03 Tracing the political evolution of the Iberian peninsula from late Roman imperial provinces to monarchies of the mid fifteenth century essays on the significant periods of medieval Spain sketch the major political economic social and intellectual features of their times *The Conquest of Christian and Muslim Spain* Bernard F. Reilly,1992

The Mexican Reformation Joel Morales Cruz,2011-05-11 Common wisdom holds that Latin America is a uniformly Roman Catholic continent and Protestant churches only entered as a result of British or U S expansionism following the Spanish American independence movements Closer inspection however reveals a far different and more exciting reality As The Mexican Reformation reveals the Catholic Church in the colonial era was far from monolithic exhibiting a diversity of expressions and perspectives that interacted with and were sometimes at odds with one another In the mid nineteenth century one such group sought to reform the Catholic Church in line with some of the policies set forth by the government of Benito Ju rez This movement eventually known as the Iglesia de Jes s would lay the foundation for the emergence of Protestant churches in Mexico Its roots in the worldview of the baroque and in the challenges of the Catholic Enlightenment provide an insight into the evolution of a distinctly Mexican Protestantism within its social and political contexts as well as a window into the processes underlying the development of religious expressions in Latin America
