Contested Knowledge 3rd:

SCM Core Text: Sociology of Religion Andrew Dawson,2013-01-25 Sociology of Religion is an increasingly popular component of courses in religious studies at undergraduate level While most textbooks on the Sociology of Religion are written from a sociological background this new student friendly textbook aims to introduce the field and the subjects studied by sociologists of religion to students with a background in theology and religious studies **Human Rights and Social**

Movements Neil Stammers,2009-04-20 This book champions social movements as one of the most influential agents that shape our conceptions of human rights It argues that human rights cannot be understood outside of the context of social movement struggles It explains how much of the literature on human rights has systematically obscured this link consequently distorting our understandings of human rights Neil Stammers shows how human rights can be understood He suggests that what he calls the paradox of institutionalisation can only be addressed through a recognition of the importance of human rights arising out of grassroots activism and through processes of institutional democratisation **Situating**

Social Theory May, Tim,Powell, Jason,2008-08-01 This edition examines the implications of recent developments challenges and disputes that have become important to debates in social theory including new commentaries on key authors It also explores the extent to which how we situate social theory may need re examining **Critical Strategies for Social**

Research William K. Carroll,2004 Edited by Canadian sociologist William K Carroll this thought provoking volume is designed for research methods courses in sociology and social sciences Critical Strategies for Social Research explores ways in which several key research strategies bring an emancipatory dimension to social analysis The new approaches recognize that social analysis is a form of knowledge production that takes place in a human constructed world marked by injustice and persistent inequality Carroll considers five influential and productive strategies of inquiry Dialectical Social Analysis Institutional Ethnography Participatory Action Research Critical Discourse Analysis Social Inquiry as Communicative Reason

The Political Durkheim Matt Dawson,2023-05-31 This book presents Durkheim as an important political sociologist inspired by and advocating socialism Through a series of studies it argues that Durkheim s normative vision which can be called libertarian socialism shaped his sociological critique and search for alternatives With attention to the value of this political sociology as a means of understanding our contemporary world the author asks us to look again at Durkheim While Durkheim s legacy has often emphasised the supposed conservative elements and stability advocated in his thought we can point to a different legacy one of a radical sociology In dialogue with the decolonial critique this volume also asks was Durkheim white and in doing so shows how as a Jew he experienced significant racialisation in his lifetime A new reading and a vital image of a political Durkheim *The Political Durkheim* will appeal to scholars and students with interests in Durkheim social theory and political sociology **Ethical Trade, Gender and Sustainable Livelihoods** Kiah Smith,2014-03-21 Fair and ethical trade is often criticized for being highly gendered and for institutionalizing the ethical values of consumers the

priorities of NGOs and governments and most of all food retailers But little is known about how women smallholder farmers experience diverse ethical standards or whether and how standards reflect their values local cultural and environmental contexts or priorities for achieving sustainable livelihoods Linking gender smallholder livelihoods and global ethical trade regulations this book reveals that multiple understandings of social justice environmental sustainability and well being or ethicality exist in parallel to those institutionalized in ethical trade schemes Through an in depth case study of smallholder subsistence and French bean farming in Kenya the book grounds the analysis of livelihoods gender and ethical trade in women smallholders perspectives links the macro level of markets with the micro level of livelihoods and engenders relations of power structure and agency in food networks It brings together disparate bodies of theory to illustrate the knowledge strategies and values of women smallholder farmers that are often beyond the scope of ethical trade regulations It also provides a challenging new vision for doing food systems research

Questioning Nineteenth-Century Assumptions about Knowledge, III Richard E. Lee, 2010-11-30 During the last few decades the fundamental premises of the modern view of knowledge have been increasingly called into question *Questioning Nineteenth Century Assumptions about Knowledge III* Dualism provides an in depth look at the debates surrounding the status of dualism in the sciences social sciences and the humanities in detailed and wide ranging discussions among experts from across the disciplines The extent to which the questionable necessity of a transcendent nomos individualistic approaches versus systems ontology rationality material and formal and how scholars might overcome the two cultures divide might impinge on the possibility but not the inevitability of progress are among the issues explored here Weaving together in depth articles and invigorating follow up discussions this volume showcases debates over the status and validity of dualism Of special interest are developing alternatives to traditional dualistic categories through an innovative new approach based on biological naturalism challenges to the dualism of people and things the imperfectness and subjectivity of perception and the overcoming the dualism of philosophy and science

Postsocialist Europe László Kürti, Peter Skalník, 2009-09-01 Now that nearly twenty years have passed since the collapse of the Soviet bloc there is a need to understand what has taken place since that historic date and where we are at the moment Bringing together authors with different historical cultural regional and theoretical backgrounds this volume engages in debates that address new questions arising from recent developments such as whether there is a need to reject or uphold the notion of post socialism as both a necessary and valid concept ignoring changes and differences across both time and space The authors firsthand ethnographies from their own countries belie such a simplistic notion revealing as they do the cultural social and historical diversity of countries of Central and Southeastern Europe

[Sociology as a Human Science](#) Isaac Ariail Reed, 2023-04-25 *Sociology as a Human Science* is a set of foundational wide ranging and updated essays from Isaac Ariail Reed Gathered together for the first time with a new introduction they articulate a distinct perspective on concept and method in social science Reed writes about realism and positivism postmodernism and empiricism mechanisms

and causality and power and history developing thereby an understanding of the key debates out of which 21st century sociology has developed Carefully considering all manner of arguments in metatheory and epistemology and moving towards a program of interpretive explanation focused on culture and power Reed places sociology at the center of debates about knowledge production across the humanities and social sciences His reconstructive approach positioned after the posts poststructuralism postmodernism and postcolonialism provides a way for interpretive sociology to provide analytically sound theoretically extensive and empirically rich understandings of social life

European Data Protection: Coming of Age

Serge Gutwirth, Ronald Leenes, Paul de Hert, Yves Pouillet, 2012-11-26 On 25 January 2012 the European Commission presented its long awaited new Data protection package With this proposal for a drastic revision of the data protection framework in Europe it is fair to say that we are witnessing a rebirth of European data protection and perhaps its passage from an impulsive youth to a more mature state Technology advances rapidly and mobile devices are significantly changing the landscape Increasingly we carry powerful connected devices whose location and activities can be monitored by various stakeholders Very powerful social network sites emerged in the first half of last decade processing personal data of many millions of users Updating the regulatory network was imminent and the presentation of the new package will initiate a period of intense debate in which the proposals will be thoroughly commented upon and criticized and numerous amendments will undoubtedly be proposed This volume brings together some 19 chapters offering conceptual analyses highlighting issues proposing solutions and discussing practices regarding privacy and data protection In the first part of the book conceptual analyses of concepts such as privacy and anonymity are provided The second section focuses on the contrasted positions of digital natives and ageing users in the information society The third section provides four chapters on privacy by design including discussions on roadmapping and concrete techniques The fourth section is devoted to surveillance and profiling with illustrations from the domain of smart metering self surveillance and the benefits and risks of profiling The book concludes with case studies pertaining to communicating privacy in organisations the fate of a dataprotection supervisor in one of the EU member states and data protection in social network sites and online media This volume brings together some 19 chapters offering conceptual analyses highlighting issues proposing solutions and discussing practices regarding privacy and data protection In the first part of the book conceptual analyses of concepts such as privacy and anonymity are provided The second section focuses on the contrasted positions of digital natives and ageing users in the information society The third section provides four chapters on privacy by design including discussions on roadmapping and concrete techniques The fourth section is devoted to surveillance and profiling with illustrations from the domain of smart metering self surveillance and the benefits and risks of profiling The book concludes with case studies pertaining to communicating privacy in organisations the fate of a data protection supervisor in one of the EU member states and data protection in social network sites and online media

Social Divisions and Later Life Chris Gilleard, Paul Higgs, 2020-04-15

As the population ages this book reveals how divides that are apparent through childhood and working life change and are added to in later life Two internationally renowned experts in ageing look beyond longstanding factors like class gender and ethnicity to explore new social divisions including contrasting states of physical fitness and mental health They show how differences in health and frailty are creating fresh inequalities in later life with significant implications for the future of our ageing societies This accessible overview of social divisions is essential reading for those interested in the sociology of ageing and its differences diversities and inequalities

Introduction to Sociology for Health Carers Mark Walsh, 2004 This series provides readers with a real grounding for Foundation studies across healthcare disciplines The text demonstrates how theory has a practical application as well as testing student s knowledge

Interviews in Applied Linguistics David Block, 2023-12-21 This book is a personal reflection on research interviews Written as an autobiography it invites the reader to accompany the author on his personal journey of over three decades of research carried out on a range of topics in a range of contexts It mixes academic genres moving back and forth between life story telling and more standard academic writing This book has been written with several aims in mind First it aims to present the author s perspective on research interviews acquired over time to researchers of all kinds from novice to experienced Second while it contains valuable information about the practice of interviewing it is written in such a way that it avoids the kind of dry and overly structured presentation style that one finds in textbook like publications on the topic Third and finally this book aims to complement previous publications on interviews e g Cicourel Briggs Mishler Kvale which have approached the topic from a reflexive sociolinguistic linguistic anthropological perspective that frames interviews not as information mining expeditions but as communicative events and conversations This unique reflection on research interviews will be of interest to advanced students and researchers in applied linguistics and sociolinguistics and will also be relevant to researchers working in social sciences and humanities disciplines

Group Politics and Social Movements in Canada Miriam Smith, 2014-01-01 Group Politics and Social Movements in Canada Second Edition updates and expands its exploration of a wide range of organized group and social movement activity in Canadian politics Particularly distinctive is the inclusion of Quebec nationalism and Aboriginal politics Many other areas of collective activity are also included the Occupy movement and anti poverty organizing ethnocultural political mobilization disability lesbian and gay politics feminism farmers and organized interests in agriculture Christian evangelical groups environment and health movements Contributors to the collection employ a number of theoretical perspectives from political science and sociology to describe the evolution of organized groups and movements and to evaluate successes in exercising influence on Canadian politics Each chapter provides an overview of the group or movement along with an account of its main networks and organizations strategies goals successes and failures

Museum Revolutions Simon Knell, Suzanne MacLeod, Sheila Watson, 2007-09-12 Capturing the richness of the museum studies discipline Museum Revolutions is the ideal text for museum studies courses providing a wide range of interlinked themes and

the latest thought and research from experts in the field Organisational Learning Roderick Smith,2016-04-28

Organizational Learning An Integrated HR and Knowledge Management Perspective draws on a broad and multi disciplinary base to look at the origins and practice of organizational learning It critically considers the nature of organizational knowledge as a social construct pedagogical issues around learning as individuals groups teams and whole organisations and technological issues around the development of knowledge based information systems Supporting case studies are provided throughout the book and readers will also benefit from a companion website which expands on the key themes of the text Organizational Learning will enable readers to develop and implement strategies for ensuring long term access to the embedded knowledge and experience of an organization This textbook will be invaluable reading for undergraduate and postgraduate students on organizational learning HRM and knowledge management courses Learning and Work Charles N. Darrah,2013-04-11 This volume examines how employees in two manufacturing concerns perceive and perform their jobs and how the workplace influences employees thinking Based on extensive fieldwork the book describes and explores the experiences of daily work Workers are observed as they interpret instructions and deal with often contradictory expectations and ambiguous information The study shows that this process is far more complex than the one portrayed in discussions of skill requirements by managers expert analysts and many educators The book demonstrates that workplaces impart lessons that are at least as powerful as those conveyed in training programs and other official activities It explores how people acquire an organizational world view that enables them to interpret the rules of the workplace and to perform appropriately The book also examines how the new worker becomes part of a dynamic community of co workers Ethnographic descriptions document variations in the experiences of different workers and the strategies they adopt The picture that emerges challenges widely held assumptions about the importance of skill requirements at work and the presumed inadequacy of ordinary people to work effectively This book is especially timely as the nation seeks to reform education to better meet the demands of increased competition and to address domestic concerns about preparing people for employment A bibliography of references is included A Marginal Scribe Dennis C. Duling,2011-11-11 A Marginal Scribe collects eight studies written over a period of two decades all of which use social scientific criticism to interpret the Gospel of Matthew It prefaces them first with a new chapter on the struggle between historians and social scientists since the Enlightenment and its parallel in New Testament studies which culminated in the emergence of social scientific criticism and second with a new chapter on recent social scientific interpretation of the Gospel of Matthew The eight more specialized studies cover a variety of themes and use a variety of models but concentrate and are held together by those that illumine social ranking and marginality The book closes with a chapter that ties together these studies *Interpreting the Body* Ben Spatz,2024-03-12 Written by leading social scientists this ambitious volume asks what individuals handling of bodies reveal about inequality social order and cultural change in societies *Identifying, Describing, and Developing Teachers Who Are Gifted and Talented* Van

Sickle, Meta L., Swanson, Julie D., Bazler, Judith A., Lubniewski, Kathryn L., 2018-12-07 Much of the research about teachers focuses on those who can't do it well in the classroom. However, teachers who are gifted and talented exist, but there has been little attention to date on the characteristics and practices of such teachers in the classroom. While few examples of research on positive teacher attributes include work on the expert, authentic, and creative, as well as examples of research on eminent adults, *Identifying, Describing, and Developing Teachers Who Are Gifted and Talented* is an essential reference source that discusses behaviors and traits in teachers who are considered gifted and talented, as well as case studies on the identification and preparation of teachers who fall into this category. Featuring research on topics such as creative innovation, emotional intelligence, and skill development, this book is ideally designed for educators, administrators, researchers, and academicians.
