

# TYPES OF CRITICISM IN DIFFERENT CONTEXTS

Criticism can be understood as the analysis, evaluation, or interpretation of a work of art, literature, music, or any other subject. In different fields, there are various types of criticism, each with its own focus, methodology, and perspective. Below are some of the most prominent "types of criticism", particularly in the context of literature, art, and cultural studies:

## ### 1. "Literary Criticism"

Literary criticism involves the analysis, interpretation, and evaluation of literature, including novels, poetry, short stories, plays, and other written works. The different schools of literary criticism can offer various ways of reading and understanding a text. Some key types of literary criticism include:

- "Formalism/New Criticism": Focuses on the text itself—its form, structure, language, and literary devices—without considering external factors like the author's background or historical context. Formalists believe that the meaning and value of a work are inherent in its content and structure.
  - Example: Analyzing the use of metaphor in a poem, or studying the symbolism in a novel.
- "Historical/Biographical Criticism": Considers the historical and biographical context in which a work was written. This type of criticism looks at the author's life, the time period, and the culture to better understand the work's meaning.
  - Example: Understanding the impact of Shakespeare's personal life on the themes in "Hamlet".
- "Marxist Criticism": Examines literature in terms of class struggle, economic power, and social inequality. Marxist critics focus on the way literature reflects or challenges social and economic structures.
  - Example: Analyzing "The Great Gatsby" to explore themes of wealth, class, and social mobility in America.
- "Feminist Criticism": Focuses on the representation of gender and examines how literature reflects or challenges traditional gender roles. It also looks at the ways in which women's experiences are portrayed.
  - Example: Analyzing "The Scarlet Letter" to explore the oppression of women in Puritan society.
- "Psychoanalytic Criticism": Uses the theories of Sigmund Freud and other psychoanalysts to interpret characters' motivations, desires, and psychological states. This type of criticism looks at unconscious drives and conflicts in literature.
  - Example: Interpreting Hamlet's actions in the context of Freudian theory, such as the Oedipus complex.
- "Postcolonial Criticism": Focuses on the effects of colonialism and imperialism on literature and culture. Postcolonial critics analyze how colonial powers and their aftermath are represented in literature.
  - Example: Analyzing "Things Fall Apart" by Chinua Achebe in terms of colonial domination and resistance.

## **British Women Travellers in the Long Nineteenth Century** Marilyn D. Button, Jessica A. Sheetz-Nguyen, 2025-03-05

During the long nineteenth century British women reframed the masculine paradigm of the Grand Tour. They created a feminist travel gaze intentionally or unintentionally that differed from that of male peers. Unlike their brothers who went for personal edification, women with means left their English homes for the great Italian cities of Florence, Naples, and Rome to escape personal disappointments and the social limitations imposed by parents, spouses, and society. The anonymity of travel to a distant land and new freedoms fostered political and creative achievements, including entrepreneurial journalism, literary masterpieces, and social advocacy for their gender, which redefined the contours of the Anglo-Italian cultural landscape. The historical evidence presented here testifies to the life-changing capacity of travel and firmly demonstrates how British women's history and literature enriches and broadens narratives about Britain and the World. **Rendered Obsolete** Jamie L.

Jones, 2023-08-10 Through the mid nineteenth century the US whaling industry helped drive industrialization and urbanization, providing whale oil to lubricate and illuminate the country. The Pennsylvania petroleum boom of the 1860s brought cheap and plentiful petroleum into the market, decimating whale oil's popularity. Here, from our modern age of fossil fuels, Jamie L. Jones uses literary and cultural history to show how the whaling industry held firm in US popular culture even as it slid into obsolescence. Jones shows just how instrumental whaling was to the very idea of energy in American culture and how it came to mean a fusion of labor, production, and the circulation of power. She argues that dying industries exert real force on environmental perceptions and cultural imaginations. Analyzing a vast archive that includes novels, periodicals, artifacts from whaling ships, tourist attractions, and even whale carcasses, Jones explores the histories of race, labor, and energy consumption in the nineteenth-century United States through the lens of the whaling industry's legacy. In terms of how they view power, Americans are, she argues, still living in the shadow of the whale. Reproduction and the Maternal Body in Literature and Culture Jennifer S. Henke, 2025-05-13

This book examines a selection of texts to discuss how midwifery, obstetrics, and women's bodies were constructed during the long eighteenth century and how these material discursive entanglements between science, medicine, literature, and culture have shaped society's views of pregnancy, childbirth, and reproduction. Drawing on theories from disciplines such as feminist new materialism, this book traces the history of both the reproductive body and the pluralistic medical knowledges that attended to pregnancy and childbirth during the Enlightenment and early Romanticism in Britain. It identifies the significance of literary and cultural artefacts in this knowledge formation, including the materiality of the female reproductive body itself, and raises awareness of myths about pregnancy and childbirth that persist today. This book features chapters exploring Jonathan Swift's *Gulliver's Travels*, John Cleland's *Fanny Hill*, Laurence Sterne's *Tristram Shandy*, Eliza Fenwick's *Secresy Or The Ruin on the Rock*, Mary Wollstonecraft's *Maria Or The Wrongs of Woman*, and Mary Shelley's *Frankenstein*. *Reproduction and the Maternal Body in Literature and Culture* is an innovative and interdisciplinary contribution to the medical humanities and feminist philosophy.
