*Contexts of Criticism* Harry Levin, 1957 15 lectures on novelists and literature ranging from broad problems of critical theory and esthetic formulation to specific analyses of forms and texts     *The New Cambridge Bibliography of English Literature: Volume 4, 1900-1950* George Watson, I. R. Willison, 1972-12-07 More than fifty specialists have contributed to this new edition of volume 4 of The Cambridge Bibliography of English Literature The design of the original work has established itself so firmly as a workable solution to the immense problems of analysis articulation and coordination that it has been retained in all its essentials for the new edition The task of the new contributors has been to revise and integrate the lists of 1940 and 1957 to add materials of the following decade to correct and refine the bibliographical details already available and to re shape the whole according to a new series of conventions devised to give greater clarity and consistency to the entries

**Literature as an Art Form - Evolving Intermedial Literary Landscape** Asunción López-Varela Azcárate, 2025-07-02 Literature as an Art Form Evolving Intermedial Literary Landscape brings together sixteen scholarly contributions that explore literature's ongoing transformation across media cultures and technologies This anthology traces the dynamic interplay between literature and visual sonic performative and algorithmic forms ranging from illuminated manuscripts and oral traditions to digital texts and anime Rejecting the notion of literature as a fixed verbal art the chapters highlight its status as a transmedial evolving practice shaped by and shaping the environments in which it is situated Each essay examines how literature migrates across modalities revealing it as a mutable process of technopoiesis Together they offer a compelling vision of literature not as an autonomous artefact but as a fluid cultural phenomenon whose conditions of existence are inseparable from intermedial exchange     **The John You Never Knew** Kenneth H. Maahs, 2006 Original Scholarly Monograph     *Turgenev and the Context of English Literature 1850-1900* Glyn Turton, 2002-01-31 Examines the cultural outlook in the Anglo Saxon world in this period through an analysis of the reception of Turgenev's work in translation in a number of writers including Henry James and George Gissing     **The Literary Devices in John's Gospel** David W. Wead, 2018-07-18 As an interdisciplinary forerunner of the new literary approaches to gospel narratives over the last four decades in New Testament scholarship the revised and expanded monograph by David Wead makes a timely contribution to the advancement of those studies Rooted in comparative analyses of contemporary Hellenistic and Jewish literary techniques and drawing from the best of Continental scholarship Wead not only points Johannine scholars to relevant ancient resources but his analyses prepare the way for fresh interpretations of John's story of Jesus today Published originally in Switzerland this book was overlooked by many scholars to the detriment of their work However in addressing such themes as John's post resurrection point of view the Johannine sign the Johannine double meaning irony in the Fourth Gospel and metaphor in the Fourth Gospel Wead's work is now available to new generations of scholars who will find his work both instructive and provocative This newly revised and expanded edition edited by Paul Anderson and Alan Culpepper

not only includes a new epilogue by David Wead featuring new reflections and insights but it also includes an expansive overview of the literature before and after Wead's work including a helpful assessment of Wead's monograph in service to ongoing Johannine scholarship. No serious study of Gospel literary features, devices, and strategies can afford to overlook this important book.

**Between Script and Scripture: Performance Criticism and Mark's Characterization of the Disciples** Zach Preston Eberhart, 2024-03-25 This volume reimagines the first-century reception of the Gospel of Mark within a reconstructed yet hypothetical performance event. In particular, it considers the disciples' character and characterization through the lens of performance criticism. Questions concerning the characterization of the disciples have been relatively one-sided in New Testament scholarship in favor of their negative characterization. This project demonstrates why such assumptions need not be necessary when we re-consider the oral/aural milieu in which the Gospel of Mark was first composed and received by its earliest audiences.

*The Use of Sacred Books in the Ancient World* Leonard Victor Rutgers, 1998 In this volume, a number of scholars from Israel, the USA, and England have joined forces with the well-known Utrecht University Research Unit, The Cultural Milieu of Early Christianity, to investigate in an unprecedentedly interdisciplinary fashion how sacred books functioned in pagan, Jewish, and Christian circles. The 16 essays cover a wide range of topics, including a discussion of the emergence of canonical scriptures in late antiquity; an investigation of parallels between exegesis of Homer by the Greeks and that of the Bible by the Jews; a study of the rise of Virgil's *Aeneid* to the status of canonical book; a discussion of the use of sacred books as instant oracles; an investigation of the role of the Bible in polemics between Jews and Christians; an analysis of the wide variety of quotation formulas used by New Testament authors; a discussion of the role of biblical interpretation in the thought world of Jesus' brother James; an investigation of the function of Scripture in the midrash *Aggadat Bereshit*; and other topics.

*A Concise Bibliography for Students of English* Arthur Garfield Kennedy, Donald B. Sands, 1966

*Law, Power, and Justice in Ancient Israel* Douglas A. Knight, 2011-01-01 Using socio-anthropological theory and archaeological evidence, Knight argues that while the laws in the Hebrew Bible tend to reflect the interests of those in power, the majority of ancient Israelites located in villages developed their own unwritten customary laws to regulate behavior and resolve legal conflicts in their own communities. This book includes numerous examples from village life and cult from publisher description.

*Orality and Literacy in the Demotic Tales* Jacqueline E. Jay, 2016-06-10 In *Orality and Literacy in the Demotic Tales* Jacqueline E Jay extrapolates from the surviving ancient Egyptian written record hints of the oral tradition that must have run alongside it The monograph's main focus is the intersection of orality and literacy in the extremely rich corpus of Demotic narrative literature surviving from the Greco Roman Period The many texts discussed include the tales of the Inaros and Setna Cycles the Myth of the Sun's Eye and the Dream of Nectanebo Jacqueline Jay examines these Demotic tales not only in conjunction with earlier Egyptian literature but also with the worldwide tradition of orally composed and performed discourse

**How the Anglo-Saxons Read Their Poems** Daniel Donoghue, 2018-03-01 The scribes of early medieval England wrote out their vernacular poems using a format that looks primitive to our eyes because it lacks the familiar visual cues of verse lineation marks of punctuation and capital letters The paradox is that scribes had those tools at their disposal which they deployed in other kinds of writing but when it came to their vernacular poems they turned to a sparser presentation How could they afford to be so indifferent The answer lies in the expertise that Anglo Saxon readers brought to the task From a lifelong immersion in a tradition of oral poetics they acquired a sophisticated yet intuitive understanding of verse conventions such that when their eyes scanned the lines written out margin to margin they could pinpoint with ease such features as alliteration metrical units and clause boundaries because those features are interwoven in the poetic text itself Such holistic reading practices find a surprising source of support in present day eye movement studies which track the complex choreography between eye and brain and show for example how the minimal punctuation in manuscripts snaps into focus when viewed as part of a comprehensive system

*How the Anglo Saxons Read Their Poems* uncovers a sophisticated collaboration between scribes and the earliest readers of poems like *Beowulf* *The Wanderer* and *The Dream of the Rood* In addressing a basic question that no previous study has adequately answered it pursues an ambitious

synthesis of a number of fields usually kept separate oral theory paleography syntax and prosody To these philological topics Daniel Donoghue adds insights from the growing field of cognitive psychology According to Donoghue the earliest readers of Old English poems deployed a unique set of skills that enabled them to navigate a daunting task with apparent ease For them reading was both a matter of technical proficiency and a social practice
