The History of Translation and Translators in the Ottoman Empire Mehmet Tahir Öncü,Ayla Akın,Ahu Selin Erkul Yağcı,2024-01-16 The Ottoman Empire covered a vast territory for more than five centuries and was therefore a multi ethnic and multicultural state from the very beginning Due to the need to negotiate military political and economic matters both within and outside its borders the state relied on the services of interpreters However despite the multicultural and linguistically diverse communication in the Ottoman Empire the practice of translation was not formally institutionalised by the state Until the modernisation efforts of the 18th century translation was mainly seen as a facilitating or ancillary activity in the diplomatic context The primary aim of this collection is to comprehensively analyse and define interpreting and translating activities within the Ottoman Empire Particular attention is paid to the reasons for the lack of institutional structure and the impact of this lack of structure on the practice of translation It also identifies individual actors especially those who acted as language and cultural mediators and thus provided important services to the Ottoman Empire By examining interpreting and translating activities and the agents involved in them this research contributes to a deeper understanding of the role of language mediation in the Ottoman Empire and the importance of this issue in the context of Ottoman history

The Poetry of Translation Matthew Reynolds,2011-09-29 Poetry is supposed to be untranslatable But many poems in English are also translations Pope s Iliad Pound s Cathay and Dryden s Aeneis are only the most obvious examples The Poetry of Translation explodes this paradox launching a new theoretical approach to translation and developing it through readings of English poem translations both major and neglected from Chaucer and Petrarch to Homer and Logue The word translation includes within itself a picture of something being carried across This image gives a misleading idea of goes on in any translation and poets have been quick to dislodge it with other metaphors Poetry translation can be a process of opening of pursuing desire or succumbing to passion of taking a view or zooming in of dying metamorphosing or bringing to life These are the dominant metaphors that have jostled the idea of carrying across in the history of poetry translation into English and they form the spine of Reynolds s discussion Where do these metaphors originate Wide ranging literary historical trends play their part but a more important factor is what goes on in the poem that is being translated Dryden thinks of himself as opening Virgil s Aeneid because he thinks Virgil s Aeneid opens fate into world history Pound tries to being Propertius to life because death and rebirth are central to Propertius s poems In this way translation can continue the creativity of its originals The Poetry of Translation puts the translation of poetry back at the heart of English literature allowing the many great poem translations to be read anew
