Shenk, 1980      **Guerrillas of Desire** Kevin Van Meter, 2017-05-22 Few have approached radical theory with the rigor and skill of Kevin Van Meter Empowering lucid and inspiring Guerrillas of Desire provides an exhaustive and much needed retooling of anarchism that will align the dreams of becoming revolutionaries with the reality of everyday resistance Alexander Reid Ross author of Against the Fascist Creep

Looking for the political in the everyday and bringing anarchism into a productive dialogue with Autonomist Marxism Kevin Van Meter challenges many of the left's usual assumptions and forces a reconsideration of what we mean by struggle

Kristian Williams author of *Our Enemies in Blue* Behind the smiling faces of cashiers wait staff and workers of all sorts a war is being planned usually without the knowledge of official political and labor organizations *Guerrillas of Desire* begins with a provocation The Left is wrong It's historical and current strategies are too often based on the assumption that working and poor people are unorganized acquiescent to systems of domination or simply uninterested in building a new world The fact is as C L R James has noted they are rebelling every day in ways of their own invention pilfering sabotaging faking illnesses squatting fleeing and counter strategizing Kevin Van Meter maps these undercurrents illustrating that everyday resistance is an important factor in revolution and something radicals of all stripes must understand Kevin Van Meter is an activist scholar based in the Pacific Northwest He is coeditor of *Uses of a Whirlwind Movement Movements and Contemporary Radical Currents in the United States*

**Transcendence and Understanding** Zdenko S. Sirka, 2020-03-04 This book brings into conversation Western and Orthodox hermeneutical schools one represented by Hans Georg Gadamer and his followers while the other school is less focused around one person and yet displays common distinct features The main question of the book is how we can mediate not only the content of understanding of who we are in relation to each other to the world in which we live and to God but also comprehend the process of understanding across various historical periods The strengths and weaknesses of both positions are presented and it is shown how these two hermeneutical approaches can enrich each other The book argues that preserving both positions and indicating how they complement each other helps show the limits of encountering the transcendent reality that can be testified to by human language without being reduced to it as such

**Minor prose pieces** Walter Savage Landor, 1876     **The Litigation Manual** Priscilla Anne Schwab, 2007 Innovation is increasingly recognized as a vitally important social and economic phenomenon worthy of serious research study Firms are concerned about their innovation ability particularly relative to their competitors Politicians care about innovation too because of its presumed social and economic impact However to recognize that innovation is desirable is not sufficient What is required is systematic and reliable knowledge about how best to influence innovation and to exploit its effects to the full Gaining such knowledge is the aim of the field of innovation studies which is now at least half a century old Hence it is an opportune time to ask what has been achieved and what we still need to know more about This is what this book sets out to explore Written by a number of central contributors to the field it critically examines the current state of the art and

identifies issues that merit greater attention The focus is mainly on how society can derive the greatest benefit from innovation and what needs to be done to achieve this However to learn more about how society can benefit more from innovation one also needs to understand innovation processes in firms and how these interact with broader social institutional and political factors Such issues are therefore also central to the discussion here [The Courage to Teach](#) Parker J. **NONVIOLENCE OR NONEXISTENCE** *Witness of a Body in the Body of the World* LeRoy Moore,2022-08-30 The summary of this book is present in the title *Nonviolence or Nonexistence* I grew up knowing closely the violence of my father He was violent with me and also with my stepmother after my mother s early death As a boy I thought this was the life for men I was living a lie But I soon learned about nonviolence from Martin Luther King and with much more detail from Mohandas Gandhi of India Later I read the works of Gene Sharp of Harvard who emphasized strongly that we must abandon violence Early in my adult years I became a devotee of nonviolence especially after I learned that nuclear weapons were manufactured at the Rocky Flats Plant

near Boulder Colorado where I lived Achieving closure of Rocky Flats was a major accomplishment for devotees of nonviolence In words I used as a visiting professor at the University of Denver I am a body in the body of the world Drawing on a lifetime s experience of nonviolent thought and activism this book emphasizes that to survive we must end our devotion to violence

On the way to the best possible science Fanie De Beer,Braam Roux,2016-07-31 The road to the best possible science runs along all kinds of ondulary paths of peer evaluation with the preferences assumptions prejudices and convictions of the evaluating readers It runs over the bumpy roads of ideological preferences and obstinacies that are mostly negatively affected muddled by the urge for power and money of institutional and political botching so that any pure outcome will be difficult to achieve There are also all sorts of detours and side tracks inspired by the obsession with instant solutions reductionistic and absolutising oversimplifications of the full multiple reality and the complex knowledge world but above all by the intriguing fickleness of impulsive and ever present fallible human beings With this in mind the best possible science as emphasised in this publication can never be defined in any final sense nor can it ever without any doubt be achieved although this remains our firm ideal
