Copyright Office, 1977 **Resources in Education**, 1975 *Networked Sympathy* Linda Walter, 2025-01-28 This book proposes a novel approach to human rights work advocating the use of narrative persuasion on social media to realign individual moral judgments with fundamental human rights It challenges the traditional view that human rights are primarily political legal rights proposing instead that they should be understood as moral rights identifying the right not to be harmed as universal fundamental moral right By integrating insights from philosophy social psychology neuroscience and communication studies Linda Walter explores how human rights work can be more effectively carried out on social media The author uses a case study of the social media campaign Jamal al Khatib to examine the impact of narrative persuasion on changing harmful attitudes Through qualitative content analysis she assesses how resistance strategies manifest in the audience's comments and explores the effectiveness of narrative persuasion in overcoming these barriers The findings reveal the complexities of altering deeply held beliefs but also highlight the potential of narrative persuasion to engage and shift individual attitudes toward human rights *Mechanics of Geomaterial Interfaces* A.P.S. Selvadurai, M.J. Boulon, 1995-01-30 The subject of geomaterial interfaces recognizes the important influences of the interface behaviour on the performance of interfaces involving cementitious materials such as concrete and steel concrete interfaces concrete rock interfaces and interfaces encountered in soil reinforcement During the past two decades the subject of geomaterial interfaces has attracted the concerted attention of scientists and engineers both in geomechanics and applied mechanics These efforts have been largely due to the observation that the conventional idealizations of the behaviour of interfaces between materials by frictionless contact bonded contact Coulomb friction or finite friction tend to omit many interesting and important influences of special relevance to geomaterials The significant manner in which non linear effects dilatancy contact degradation hardening and softening etc can influence the behaviour of the interface is borne out by experimental evidence

As a result in many instances the response of the interface can be the governing criterion in the performance of a geomechanics problem The primary objective of this volume is to provide a documentation of recent advances in the area of geomaterial interfaces The volume consists of subject groupings which cover ice structure soil structure and steel concrete interfaces mechanics of rock and concrete joints and interfaces in discrete systems

Postmodernism and Popular Culture John Docker, 1994-12-12 An intellectual adventure this book engages with some of the most important academic debates of our time

Damage Mechanics George Z. Voyiadjis, Peter I. Kattan, 2005-06-23 Before a structure or component can be completed before any analytical model can be constructed and even before the design can be formulated you must have a fundamental understanding of damage behavior in order to produce a safe and effective design Damage Mechanics presents the underlying principles of continuum damage mechanics along with the

A Unified Approach to the Finite Element Method and Error Analysis Procedures Julian A. T. Dow, 1998-11-09 A Unified Approach to the Finite Element Method and Error Analysis Procedures provides an in depth background to better understanding of finite element results and techniques for improving accuracy of finite element methods Thus the reader is able to identify and eliminate errors contained in finite element models Three different error analysis techniques are systematically developed from a common theoretical foundation 1 modeling errors in individual elements 2 discretization errors in the overall model 3 point wise errors in the final stress or strain results Thoroughly class tested with undergraduate and graduate students A Unified Approach to the Finite Element Method and Error Analysis Procedures is sure to become an essential resource for students as well as practicing engineers and researchers New simpler element formulation techniques

model independent results and error measures New polynomial based methods for identifying critical points New procedures for evaluating sheer strain accuracy Accessible to undergraduates insightful to researchers and useful to practitioners Taylor series polynomial based Intuitive elemental and point wise error measures Essential background information provided in 12 appendices

Violence and the Mimetic Unconscious, Volume 2 Nidesh Lawtoo,2023-10-01 Representations of violence have subliminal contagious effects but what kind of unconscious captures this imperceptible affective dynamic in the digital age In volume two of a Janus faced diagnostic of the cathartic and contagious effects of new media violence Nidesh Lawtoo traces a genealogy of a long neglected embodied relational and highly mimetic unconscious that well before the discovery of mirror neurons posited mirroring reactions as a via regia to a phantom ego Rather than being the product of a solipsistic discovery the unconscious turns out to have haunted philosophers psychologists and artists for a long time This book proposes a genealogy of untimely philosophical physicians that goes from Plato to Nietzsche Bernheim to F r Freud to Bataille Arendt to Girard affect theory to the neurosciences In their company Lawtoo promotes the transdisciplinary field of mimetic studies by reevaluating the unconscious actions and reactions of homo mimeticus As a new theory of mimesis emerges Violence and the Mimetic Unconscious offers a searching diagnosis as to why the pathos of new media violence from film to video games police murders to the storming of the U S Capitol continues to cast a material shadow on the present and future

Music, Sexuality and the Enlightenment in Mozart's Figaro, Don Giovanni and Così fan tutte Dr Charles Ford,2013-01-28 Music Sexuality and the Enlightenment explains how Mozart s music for Le nozze di Figaro Don Giovanni and Cos fan tutte sounds the intentions of Da Ponte s characters and their relationships with one another Mozart by way of the infinitely generative and beautiful logic of the sonata principle did not merely interpret Da Ponte s characterizations but lent them temporal musical forms Charles Ford s analytic interpretation of these musical forms concerns processes and structures in detail and at medium to long term levels He addresses the music of a wide range of arias and ensembles and develops original ways to interpret the two largely overlooked operatic genres of secco recitative and finales Moreover Ford presents a new method by which to relate musical details directly to philosophical concepts and thereby the music of the operas to the inwardly contradictory thinking of the European Enlightenment This involves close readings of late eighteenth century understandings of man and nature self and other morality and transgression and gendered identities and sexuality with particular reference to contemporary writers especially Goethe Kant Laclos Rousseau Sade Schiller Sterne and Wollstonecraft The concluding discussion of the implied futures of the operas argues that their divided sexualities which are those of the Enlightenment as a whole have come to form our own unquestioned assumptions about gender differences and sexuality This along with the elegant and eloquent precision of Mozart s music is why Figaro Giovanni and Cos still maintain their vital immediacy for audiences today

Peace Operations and Organized Crime James Cockayne,Adam Lupel,2011-05-10 Peace operations are increasingly on the front line in the international community s fight against organized

crime this book explores how in some cases peace operations and organized crime are clear enemies while in others they may become tacit allies The threat posed by organized crime to international and human security has become a matter of considerable strategic concern for national and international decision makers so it is somewhat surprising how little thought has been devoted to addressing the complex relationship between organized crime and peace operations This volume addresses this gap questioning the emerging orthodoxy that portrays organized crime as an external threat to the liberal peace championed by western and allied states and delivered through peace operations Based upon a series of case studies it concludes that organized crime is both a potential enemy and a potential ally of peace operations and it argues for the need to distinguish between strategies to contain organized crime and strategies to transform the political economies in which it flourishes The editors argue for the development of intelligent transnational and transitional law enforcement that can make the most of organized crime as a potential ally for transforming political economies while at the same time containing the threat it presents as an enemy to building effective and responsible states The book will be of great interest to students of peacebuilding peace and conflict studies organised crime Security Studies and IR in general

The A to Z of Australian Radio and Television Albert Moran,Chris Keating,2009-08-04 Australians have become increasingly visible outside of the country as speakers and actors in radio and television their media moguls have frequently bought up foreign companies and people around the world have been able to enjoy such Australian productions as The Flying Doctors Neighbours and Kath and Kim The origins early development and later adaptations of radio and television show how Australia has gone from being a minor and rather parochial player to being a significant part of the international scene The A to Z of Australian Radio and Television provides essential facts and information concerning the Australian radio and television industry This is accomplished through the use of a chronology an introductory essay a bibliography and hundreds of cross referenced dictionary entries on directors producers writers actors television and radio series and television and radio stations
