

Against the Christians: The Rise of Early Anti-Christian Polemic. By Jeffrey W. Hargis. Patristic Studies 1. New York: Peter Lang, 1999. x + 173 pp. \$44.95 paper.

This book seeks to discover the rhetorical strategies by which pagan polemicists attempted to marginalize their religious opponents, and it posits a shift in the polemical boundaries drawn by pagans against Christians, discussing the anti-Christian works of Celsus, Porphyry, and Julian in successive chapters. Had this book delivered an actual rhetorical analysis of these writings, it would have provided an original and useful contribution. It does not. The book is innocent of the vast recent work on both classical rhetoric and postmodern analysis; the only rhetorical concept adduced is that of "totalizing discourse," borrowed from Averil Cameron. The book offers a conventional social-historical analysis of the conceptions and motivations of these writers. There is nothing new here, and it is unfortunate that the author appears ignorant of a great deal of scholarship on his topic that would have shown him how much of this had been said before. The author also makes no mention of some critical source problems, such as those contained in von Harnack's collection of Porphyry's fragments. The sparse bibliography, inflated by the inclusion of translations of primary sources, attests to this. What is even more disturbing, however, is the claim made by the publisher on the back cover that this is "the first book to analyze the phenomenon of early anti-Christian literature in depth." Those knowledgeable in the field will be amazed at a claim that ignores some 150 years of scholarship in this area. Neither the author, the editor, nor the publisher have done their homework here.

Contra Marcellum: Marcellus of Ancyra and Fourth-Century Theology. By Joseph T. Lienhard, S.J. Washington D.C.: CUA Press, 1999. xx + 280 pp. \$59.95 cloth.

Condemned and excommunicated by several fourth-century councils and synods, Marcellus of Ancyra (ca. 285–374) has most often been read solely through the lenses of his opponents. This unbalanced reading, Joseph Lienhard argues, has done Marcellus and his memory a disservice. It has also underplayed Marcellus's impact on the theological developments of the fourth century.

In the process of rehabilitating the reputed heretic, Lienhard examines Marcellus's theology as found in his primary work, the *Contra Asterium*, and then as found in the writings of his contemporary opponents (Eusebius of Caesarea, Eusebius of Nicomedia, Paulinus of Tyre, Narcissus of Neronias and Asterius the Sophist). He systematically describes the relevant texts, who and what they were reacting to, and their contemporary analyses before posing his own evaluation. In the process, Lienhard redefines the theological categories that comprised the fourth-century debate with more accurate descriptions: Miahypostatic (the position of Athanasius and Marcellus) and Dyohypostatic (the Eusebian position). He closes the book with a discussion

Tradition and the Rule of Faith in the Early Church Alexander Y. Hwang, 2010 The meaning of tradition is broad It can refer to the deposit of faith or the Apostolic Tradition to Scripture as the most perfect expression of what is handed over from Christ or to the disciplinary and liturgical practices of the Church It can also refer more broadly to those theological and doctrinal teachings inherited by one generation of ecclesiastical writers and passed on to another generation of theological heirs The Fathers themselves were always acutely aware of the traditions they stood within and especially of their relation to the Apostolic Tradition Tradition and the rule of faith are particularly apt themes for this collection of studies The essays are written in honor of Joseph T Lienhard S J renowned American patristic scholar whose research and writings have focused on this particular theme The volume brings together some of the most prominent scholars from the U S and abroad specializing in different areas of patristic studies to address tradition and the rule of faith

The Spirit of Contradiction in Christianity and Buddhism Hugh R. Three Powers in Heaven Emanuel Fiano, 2023-01-01 A fresh look at how Christianity and Judaism became two distinct religions through the parting of their intellectual traditions How when and why did Christianity and Judaism diverge into separate religions Emanuel Fiano reinterprets the parting of the ways between Jews and Christians as a split between two intellectual traditions a split that emerged within the context of ancient debates about Jesus s relationship to God and the world Fiano explores how Christianity moved away from Judaism through the development of new practices for religious inquiry By demonstrating that the constitution of communal borders coincided with the elaboration of different methods for

producing religious knowledge the author shows that Christian theological controversies often thought to teach us nothing beyond the history of dogma can cast light on the broader religious landscape of late antiquity Three Powers in Heaven thus marks not only a historical but also a methodological intervention in the study of the parting of the ways and in scholarship on ancient religion

Byzantine Orthodoxies Augustine Casiday, Andrew Louth, 2017-09-29 The Byzantine Empire the Christianized Roman Empire very soon defined itself in terms of correct theological belief orthodoxy The terms of this belief were hammered out for the most part by bishops but doctrinal decisions were made in councils called by the Emperors many of whom involved themselves directly in the definition of orthodoxy Iconoclasm was an example of such imperial involvement as was the final overthrow of iconoclasm That controversy ensured that questions of Christian art were also seen by Byzantines as implicated in the question of orthodoxy The papers gathered in this volume derive from those presented at the 36th Spring Symposium of Byzantine Studies Durham March 2002 They discuss how orthodoxy was defined and the different interests that it represented how orthodoxy was expressed in art and the music of the liturgy and how orthodoxy helped shape the Byzantine Empire's sense of its own identity an identity defined against the other Jews heretics and especially from the turn of the first millennium the Latin West

These considerations raise wider questions about the way in which societies and groups use world views and issues of belief to express and articulate identity At a time when with the enlargement of the European Union questions of identity within Europe are once again becoming pressing there is much in these essays of topical relevance **Religious Diversity in Late Antiquity** David Morton Gwynn, Susanne Bangert, 2010 This volume in the ongoing Late Antique Archaeology series draws on material and textual evidence to explore the diverse religious world of Late Antiquity Subjects include Jews and Samaritans orthodoxy and heresy pilgrimage stylites magic the sacred and the secular **The Library of Eusebius of Caesarea** Andrew James Carriker, 2003-11-01 This volume reconstructs the contents of the library in Roman Palestine of Eusebius of Caesarea ca 265-339 by examining Eusebius major works the Ecclesiastical History Chronicon Preparation for the Gospel and Life of Constantine After surveying the history of the library from its origins as an ecclesiastical archive and its true foundation by Origen of Alexandria to its disappearance in the seventh century it discusses how Eusebius used his sources and then examines what specific works were available in the library in chapters devoted to philosophical works poetry and rhetoric histories Jewish and Christian works and contemporary documents The book ends with a useful list of the contents of the library **The Oxford Handbook of Christology** Francesca Aran Murphy, Troy A. Stefano, 2015 The Oxford Handbook of Christology brings together 40 authoritative essays considering the theological study of the nature and role of Jesus Christ This collection offers dynamic perspectives within the study of Christology and provides rigorous discussion of interconfessional theology which would not have been possible even 60 years ago The first of the seven parts considers Jesus Christ in the Bible Rather than focusing solely on the New Testament this section begins with discussion of the modes of God's self communication to us and suggests that Christ's most original incarnation is in the language of the Hebrew Bible The second section considers Patristic Christology These essays explore the formation of the doctrines of the person of Christ and the atonement between the First Council of Nicaea in 325 and the eve of the Second Council of Nicaea The next section looks at Mediaeval theology and tackles the development of the understanding of who Christ was and of his atoning work The section on Reformation and Christology traces the path of the Reformation from Luther to Bultmann The fifth section tackles the new developments in thinking about Christ which have emerged in the modern and the postmodern eras and the sixth section explains how beliefs about Jesus have affected music poetry and the arts The final part concludes by locating Christology within systematic theology asking how it relates to Christian belief as a whole This comprehensive volume provides an invaluable resource and reference for scholars students and general readers interested in the study of Christology **The Cambridge Companion to the Council of Nicaea** Young Richard Kim, 2021-01-07 Demonstrate the profound legacy of The Council of Nicaea with fresh sometimes provocative but always intellectually rich ideas **The Fathers on the Bible** Nicu Dumitraşcu, 2022-11-10 This book offers an overview of how the Church Fathers used and interpreted biblical texts It brings together a range of different Christian confessional and social perspectives to explore the

Early Trinitarian Theology Christopher A. Beeley, Mark E. Weedman, 2018-02-09 The past thirty years have seen an unprecedented level of interest in early Christian biblical interpretation from major scholarly initiatives to more popular resources aimed at pastors and general readers The fields of Biblical Studies and Patristics Early Christian Studies each arrived at the study of early Christian biblical interpretation largely from their own standpoints and they tend to operate in relative isolation from one another This books aims to bring the two fields into closer conversation in order to suggest new avenues into the study of the deeply biblical dimension of patristic theology as well as the contribution that patristic exegesis can make to contemporary views of how best to interpret the Bible Based on a multi year consultation in the Society of Biblical Literature The Bible and Early Trinitarian Theology features leading scholars from both fields who bring new insights to the relationship between patristic exegesis and current strategies of biblical interpretation specifically with reference to the doctrine of the Trinity Following an account of how each field came to study patristic exegesis the book offers new studies of Trinitarian theology in Old Testament Johannine and Pauline biblical texts and the patristic interpretation of them combining the insights of modern historical criticism with classical historical theology It promises to make a valuable contribution to both fields suggesting several new avenue into the study of early biblical literature and the development of
