scrutinizes issues that shape the market method side effects and contraceptive failure the challenge of HIV AIDS and other sexually transmitted diseases and the implications of the women s agenda Contraceptive Research and Development analyzes the response of the pharmaceutical industry to current dynamics in regulation liability public opinion and the economics of the health sector and offers an integrated set of recommendations for public and private sector action to meet a whole new generation of demand

**New Frontiers in Contraceptive Research** Institute of Medicine,Board on Health Sciences Policy,Committee on New Frontiers in Contraceptive Research,2004-04-12 More than a quarter of pregnancies worldwide are unintended Between 1995 and 2000 nearly 700 000 women died and many more experienced illness injury and disability as a result of unintended pregnancy Children born from unplanned conception are at greater risk of low birth weight of being abused and of not receiving sufficient resources for healthy development A wider range of contraceptive options is needed to address the changing needs of the populations of the world across the reproductive life cycle but this unmet need has not been a major priority of the research community and pharmaceutical industry New Frontiers in Contraceptive Research A Blueprint for Action a new report from the Institute of Medicine of the National Academies identifies priority areas for research to develop new contraceptives The report highlights new technologies and approaches to biomedical research including genomics and proteomics which hold particular promise for developing new products It also identifies impediments to drug development that must be addressed Research sponsors both public and private will find topics of interest among the recommendations which are diverse but interconnected and important for improving the range of contraceptive products their efficacy and their acceptability

**New and Forthcoming Books** National Academy Press (U.S.),1993

**Contraceptive Research, Introduction, and Use** Institute of Medicine,Division of Health Sciences Policy,Committee on Contraceptive Research and Development,1998-03-03 As the first real contraceptive innovation in over 20 years and as a long acting method requiring clinical intervention for application and removal the implantable contraceptive Norplant has raised a wide range of issues that could offer valuable lessons about the problems to be addressed if other new contraceptive technologies are to enter the marketplace In April 1997 an Institute of Medicine workshop on implant contraceptives reviewed newly available data on Norplant s efficacy safety and use identified lessons to be learned about the method s development introduction use and market experience and explored approaches to developing and introducing new contraceptives based on those lessons This resulting book contains an examination of Norplant s efficacy and safety its user populations training for insertion and removal consumer perspectives quality of care informed decisionmaking and consumer involvement and new approaches to contraceptive development and introduction An appendix contains summaries of 17 workshop presentations

*Coerced Contraception?* Ellen H. Moskowitz,Bruce Jennings,1996-09-13 Long acting and reversible contraceptives such as Norplant and Depo Provera have been praised as highly effective moderately priced and generally safe Yet as this book argues the very qualities that make these contraceptives an important alternative for

individual choice in family planning also make them a potential tool of coercive social policy For example policymakers have linked their use to welfare benefits and judges to probation agreements In this book authors from the fields of medicine ethics law and the social sciences probe the unique and vexing ethical and policy issues raised by long acting contraception The book offers comprehensive ethical guidelines for health care professionals and policymakers as well as an ethical framework for analyzing policies and practices concerning long acting contraceptives The authors consider cultural social and ethical issues pertaining to contraception and they provide historical and scientific background on today s controversies They explore alternative conceptual and theoretical frameworks including analyses of autonomy coercion and responsibility in reproductive decisions This volume also notes the special concerns that arise when policies promoting long term birth control target low income women and women of color and when these contraceptives are used in developing countries

**Fertility Control — Update and Trends** Thomas Rabe,Benno Runnebaum,2012-12-06 The name of Benno Runnebaum is closely tied to the status of gynaecological endocrinology and reproductive medicine and so it seemed appropriate to dedicate this conference book entitled Fertility Control to him in recognition of his achievements His clinical and research work is reflected in more than 450 original scientific publications and many young scientists and doctors from home and abroad have received their further clinical and scientific training in his department With this volume we would all like to thank Professor Runnebaum as a mentor and friend for his achievements in the field of gynaecological endocrinology and reproductive medicine

**Orphans and Incentives** Forum on Emerging Infections,Institute of Medicine,1997-11-13 Infectious diseases remain a leading cause of prolonged illness premature mortality and soaring health costs In the United States in 1995 infectious diseases were the third leading cause of death right behind heart disease and cancer Mortality is mounting over time owing to HIV AIDS pneumonia and septicemia with drug resistance playing an ever increasing role in each of these disease categories This book a report from a Forum on Emerging Infections workshop focuses on product areas where returns from the market might be perceived as being too small or too complicated by other factors to compete in industrial portfolios with other demands for investment Vaccines are quintessential examples of such products The lessons learned fall into four areas including what makes intersectoral collaboration a reality the notion of a product life cycle the implications of divergent sectoral mandates and concepts of risk and the roles of advocacy and public education The summary contains an examination of the Children s Vaccine Initiative and other models an industry perspective on the emerging infections agenda and legal and regulatory issues

Introduction to Green Chemistry Albert Matlack, 2010-04-05 The book covers traditional green chemistry topics including catalysis benign solvents and alternative feedstocks It also discusses relevant but less frequently covered topics with chapters such as Chemistry of Longer Wear and Population and the Environment This coverage highlights the importance of chemistry to everyday life and demonstrates the benefits the expanded exploitation of green chemistry can have for society Copiously illustrated with over 800 figures this second edition provides an update from the frontiers of the field

**Under the Banyan Tree** Sheldon J. Segal, 2003-01-30 Human population growth has been a topic of speculation and spirited debate since the English economist Thomas Malthus predicted that population will increase faster than the food supply with catastrophic results Today even as fertility rates decline on a global scale relentless increases in population and other population driven factors threaten not only the food supply but also the stability of entire regions of the world No single individual has contributed more to our understanding of scientific matters related to human population than Sheldon Segal has Pioneer in contraceptive research and developer of Norplant Segal has orchestrated many of the international clinical trials of new contraceptives in the last quarter century In this one volume Segal examines how population factors impact critical scientific elements of human affairs contraception family planning environmental degradation climate change food and fresh water supply and the threat of newly emerging diseases As we follow Segal from meetings with heads of state and foreign ministers through to his impassioned grassroots efforts to secure suitable funds for impoverished countries we gain a behind the scenes perspective on how individuals and nations juggle humanitarian and scientific concerns with political agendas Informed at every turn by Segal's keen intelligence and humane values Under The Banyan Tree skillfully blends engaging narrative with history and analysis providing a dramatic and all encompassing portrait of this most basic of human concerns

**A Clinical Guide for Contraception** Leon Speroff, Philip D. Darney, 2005 The thoroughly updated Fourth Edition of this practical handbook is a current reliable and readable guide to the intelligent use of today's contraceptive options The authors provide the essential information that clinicians and patients need to choose the best contraceptive method for the patient's age and medical social and personal characteristics The book concisely covers all available drugs and devices including emergency contraception and the clinical effects placement and removal of Implanon Each contraceptive method is covered in a single chapter that includes history of the contraceptive method of action pharmacology when applicable contraindications and use

*Women's Bodies, Women's Worries* Tine Gammeltoft, 2012-12-06 The first fully fledged ethnography on health related issues to come out of contemporary Vietnam Women's Bodies Women's Worries is a

study of women's lives in a rural commune in Vietnam's Red River delta Starting as an examination of the impact of Vietnam's ambitious family planning policy on the health and lives of rural women the study explores historical and contemporary socio cultural forces which influence the lives of Vietnamese women What begins as an investigation of contraceptive side effects becomes an inquiry into the daily lives of rural women an examination of the moral ideologies by which women's lives are circumscribed and an exploration of the ways women themselves manage and negotiate the moral demands and social relations which constitute daily lives In addition the book provides a sympathetic account of the everyday lives and concerns of rural women while also including theoretical considerations of the social grounding of bodily experience the cultural meanings of health and illness and the everyday politics of emotional expression *Fertility Control* — Thomas Rabe, Benno Runnebaum, 1998-09-24
