Commercial Agency, Franchise and Distribution Contracts Martijn W. Hesselink, Jacobien W. Rutgers, Odavia Bueno Diaz, Manolo Scotton, Muriel Veldman, 2009-04-27 The rules presented in this volume of Principles of European Law deal with commercial agency franchise and distribution contracts and with other contracts where one party uses the other party's skill and efforts to bring its products to the market Although these Principles are not directly applicable to other long term commercial contracts some of the Articles may be applied to such contracts by way of analogy where appropriate The economic function of all three contracts is that they are instrumental in bringing products to the market They are so called vertical agreements as they are agreements between economic actors on different levels in the production and distribution chain Obviously the economic importance of these contracts is enormous since they form the connection between producers and retailers who sell the products to consumers and other final users There are only very few economic sectors where producers regularly sell their products directly to final consumer users Goodwill compensation after the ending of a distribution contract the moment at which the agent's commission is due the franchisor's obligation to maintain the good reputation of the network are but a few examples of issues where specific rules are needed in order to give legal practice some guidance and to provide practitioners with a reasonable degree of legal certainty

Broken Engagements Saskia Lettmaier, 2010-02-11 The common law action for breach of promise of marriage originated in the mid seventeenth century but it was not until the nineteenth century that it rose to prominence and became a regular feature in law courts and gossip columns By 1940 the action was defunct it was inconceivable for a respectable woman to bring such a case before the courts What accounts for this dramatic rise and fall This book ties the story of the action's prominence and decline between 1800 and 1940 to changes in the prevalent conception of woman her ideal role in society sexual relations and the family It argues that the idiosyncratic breach of promise suit and Victorian notions of ideal femininity were inextricably and fatally entwined It presents the nineteenth century breach of promise action as a codification of the Victorian ideal of true womanhood and explores the longer term

implications of this infusion of mythologized femininity for the law in particular for the position of plaintiffs Surveying three consecutive time periods the early nineteenth century the high Victorian and the post Victorian periods and adopting an interdisciplinary approach that combines the perspectives of legal history social history and literary analysis it argues that the feminizing process by shaping a cause of action in accordance with an ideal at odds with the very notion of women going to law imported a fatal structural inconsistency that at first remained obscured but ultimately vulgarized and undid the cause of action Alongside more than two hundred and fifty real life breach of promise cases the book examines literary and cinematic renditions of the breach of promise theme by artists ranging from Charles Dickens to P G Wodehouse to expose the subtle yet unmistakable ways in which what happened and what changed in the breach of promise courtroom influenced the changing representation of the breach of promise plaintiff in nineteenth and early twentieth century literature and film

Service Contracts Maurits Barendrecht,Chris Jansen,Marco Loos,Andrea Pinna,Rui Cascao,Stephanie van Gulijk,2009-04-27 The rules presented in this volume of Principles of European Law deal with service contracts The economic importance of service contracts within the European Union is enormous The European Commission recently estimated that services account for some 50% of EU GDP and for some 60% of employment in the Union though an exact figure is hard to determine given that many services are provided by manufacturers of goods According to the European Commission many services appear in official statistics as manufacturing activity meaning that the role of services in the economy is often significantly underestimated *The Palgrave Handbook of Multidisciplinary Perspectives on Entrepreneurship* Romeo V.

Turcan,Norman M. McLeod,2007 What is justice Is there a duty to obey a law even it is unjust This book tackles questions like these and explains some of the answers which legal theorists have given from ancient Greece to the present day Contract Law in Perspective

Linda Mulcahy,2008-08-18 Contract Law in Perspective complements black letter treatments of contract by looking at legal doctrine and statutes in their social political and economic contexts It increases students understanding of the law of contract as well as convinces them why it is so important to us all In addition to describing the key doctrines in the field it explains the ideology behind them and considers the extent to which they serve the needs of the business community and consumers The book broadens understanding and appreciation of the subject by reference to the big ideas in contract theory

and how these relate to practice at a level which is suitable for students This fifth edition has been substantially revised and now includes sections on privity and the Rights of Third Parties Act as well as a discussion of the Law Commission's Unfair Terms in Contract draft bill includes new chapter introductions and summaries designed to help students identify the key points and reflect on what they have learnt provides advice on further reading pointing students towards sources for more detailed study now includes additional self test questions for students at the end of each chapter to enable them to consolidate and practice at regular intervals

Rome Convention - Rome I Regulation Alexander J. Belohlávek, 2011-01-01 As of 17 December 2010 the Rome I Regulation EU Regulation 593/2008 on the law applicable to contractual obligations is directly applicable in all EU Member States with the exception of Denmark The Rome I Regulation replaces the Rome Convention of 1980 in the EU Member States and will apply to all contracts concluded as of 17 December 2010 However and herein lies the utility and great importance of this work the Rome Convention and the Rome I Regulation will be applied in parallel for a significant time to come the author himself anticipates a ten to fifteen year period in the latter case to contracts made after 17 December 2010 This is why this commentary takes into account both sources of law in their mutual interaction and broader context The comprehensiveness of the Rome Convention Rome I Regulation is clearly apparent but one of the great achievements of the author is his amassing of over 1 800 judicial decisions most of which are furnished with a detailed commentary where these decisions apply national laws the latter are cited both in the original and in translation For a number of rulings the commentary include not only a case summary of the facts and an analysis of the conclusions drawn by the court but also takes them as models to hypothesize what conclusions would be reached if the Rome I Regulation were to be applied

The Nature and Enforcement of Choice of Court Agreements Mukarrum Ahmed, 2017-10-05 PRAISE FOR THE BOOK This constitutes a work of impressive scholarship that will become a major reference point for future discourse on choice of court agreements Dr Ahmed advances a firm thesis in a lucid manner that will satisfy both academics and practitioners The discussion is supported by a monumental foundation of underpinning research Ahmed's monograph throughout shows clear understanding of underlying substantive laws and in Chapter 11 displays a refreshing

willingness to engage in intelligent speculation on the implications of Brexit Professor David Milman University of Lancaster

The book is an excellent attempt to understand the theoretical underpinnings of choice of court agreements in private international law Anyone with an interest in the theory and practice of choice of court agreements in particular in mechanisms for their enforcement should read this book They will find much of value by doing so Professor Paul Beaumont University of Aberdeen from the Series Editor s Preface This book examines the fundamental juridical nature classification and enforcement of choice of court agreements in international commercial litigation It is the first full length attempt to integrate the comparative and doctrinal analysis of choice of court agreements under the Brussels I Recast Regulation the Hague Convention on Choice of Court Agreements Hague Convention and the English common law jurisdictional regime into a theoretical framework In this regard the book analyses the impact of a multilateral and regulatory conception of private international law on the private law enforcement of choice of court agreements before the English courts In the process it both pre empts and offers innovative solutions to issues that may arise under the jurisprudence of the emergent Brussels I Recast Regulation and the Hague Convention The need to understand the nature and enforcement of choice of court agreements before the English courts from the perspective of the EU private international law regime and the Hague Convention cannot be understated This important new study aims to fill an existing gap in the literature in relation to an account of choice of court agreements which explores and reconnects arguments drawn from international legal theory with legal practice However the scope of the work remains most relevant for cross border commercial lawyers interested in crafting pragmatic solutions to the conflicts of jurisdictions
