The Organizational Contract Professor Fabrizio Cafaggi, Professor Giuseppe Vettori, Professor Stefan Grundmann, 2013-12-28 This book introduces and develops the paradigm of the organisational contract in European contract law. Suggesting that a more radical distinction should be made between contracts which regulate single or spot exchanges and contracts that organize complex economic activities without creating a new legal entity, the book argues that this distinction goes beyond that between spot and relational contracts because it focuses on the organizational dimension of contracting and its governance features. Divided into six parts, the volume brings together a group of internationally renowned experts to examine the structure of long term contractual cooperation networks of contracts, knowledge exchange in long term contractual cooperation, remedies and specific governance rules in long term relationships, and the move towards legislation. The book will be of value to academics and researchers in the areas of private law, economic theory and sociology of law, and organizational theory. It will also be a useful resource for practitioners working in international contract law and international business transaction law.

Managing the Psychological Contract Mr Michael Wellin, 2012-09-28 The psychological contract lies at the heart of your relationship with the organisation you work for. It is the deal you make with your employer and colleagues at work; it is about your mutual expectations and their fulfilment. Too often this contract is implicit and left to chance, resulting in misunderstanding, stress, lower commitment and performance. The author demonstrates how to use the psychological contract to raise the business game and increase personal fulfilment. *Managing the Psychological Contract* is the first book which shows how the psychological contract can be used in practice. In it, Michael Wellin advocates going beyond the traditional static view of the psychological contract between the organisation and its employees. He shows how to create unique and dynamic customised Personal Deals between people and teams. He does this by showing how to make personal deals explicit and mutual and provides practical tips for leaders, employees and HR professionals. Separate chapters are devoted to leadership, culture change and strategic HR management. There is also a chapter of practical ideas for individuals who want to change their personal deal at work. The author's ideas are based on his own research and consultancy experience as well as the latest business school research. The book has a number of case studies showing how different organisations use the psychological contract. This is an important and extremely readable book for all those concerned with the improved performance of people and organisations.
