Contributions Of Sanskrit Inscriptions To Lexicography:

Contributions of Sanskrit Inscriptions to Lexicography S. P. Tewari, 1987 **Bones, Stones, and Buddhist Monks** Gregory Schopen, 2021-05-25 The present volume provides an essential foundation for a social history of Indian Buddhist monasticism Challenging the popular stereotype that represented the accumulation of merit as the domain of the layperson while monks concerned themselves with more sophisticated realms of doctrine and meditation Professor Schopen problematizes many assumptions about the lay monastic distinction by demonstrating that monks and nuns both the scholastic elites and the less learned participated actively in a wide range of ritual practices and institutions that have heretofore been judged popular from the accumulation and transfer of merit to the care of deceased relatives to serving as sponsors and donors rather than always the recipients of gifts to possibly the coining of counterfeit currency Taken together the studies contained in this volume represent the basis for a new historiography of Buddhism not only for their critique of many the id es re ues of Buddhist Studies but for the compelling connections they draw between apparently disparate details

Jātarūpa's commentary on the Amarakoṣa: Introduction Mahes Raj Pant, Jātarūpa, 2000 Study with text of the commentary on Amarako a classical verse thesaurus of Sanskrit synonyms and homonyms *Managing Monks* Jonathan A. Silk, 2008-10-15 The paradigmatic Buddhist is the monk It is well known that ideally Buddhist monks are expected to meditate and study to engage in religious practice The institutional structure which makes this concentration on spiritual cultivation possible is the monastery But as a bureaucratic institution the monastery requires administrators to organize and manage its functions to prepare quiet spots for meditation to arrange audiences for sermons or simply to make sure food rooms and bedding are provided The valuations placed on such organizational roles were however a subject of considerable controversy among Indian Buddhist writers with some considering them significantly less praiseworthy than meditative concentration or teaching and study while others more highly appreciated their importance Managing Monks as the first major study of the administrative offices of Indian Buddhist monasticism and of those who hold them explores literary sources inscriptions and other materials in Sanskrit Pali Tibetan and Chinese in order to explore this tension and paint a picture of the internal workings of the Buddhist monastic institution in India highlighting the ambivalent and sometimes contradictory attitudes toward administrators revealed in various sources *Indian Epigraphy* Richard Salomon, 1998-12-10 This book provides a general survey of all the inscriptional material in the Sanskrit Prakrit and modern Indo Aryan languages including donative dedicatory panegyric ritual and literary texts carved on stone metal and other materials This material comprises many thousands of documents dating from a range of more than two millennia found in India and the neighboring nations of South Asia as well as in many parts of Southeast central and East Asia The inscriptions are written for the most part in the Brahmi and Kharosthi scripts and their many varieties and derivatives Inscriptional materials are of particular importance for the study of the Indian world constituting the most detailed and accurate historical and chronological data for

nearly all aspects of traditional Indian culture in ancient and medieval times Richard Salomon surveys the entire corpus of Indo Aryan inscriptions in terms of their contents languages scripts and historical and cultural significance He presents this material in such a way as to make it useful not only to Indologists but also non specialists including persons working in other aspects of Indian or South Asian studies as well as scholars of epigraphy and ancient history and culture in other regions of the world
