Abstract

The use of Mathematics, in human lives, can be found in different ways. There is a great impact of Mathematical contribution, the history and the study of Mathematics. That is to say, the study and analysis of Mathematical contribution provides endurance for Mathematics. Basically from the Lichchhavi period there begins the historical evidence of mathematicians in the nation. In the article, we explore and discuss mathematical contributions of Nepalese mathematicians and analyze content of different mathematics books written in the Shah and Rana Era (1742-1951).

1. Introduction

History of mathematics is a powerful tool for disseminating an understanding of mathematics. The history of mathematics reflects some of the noblest thoughts of countless generations (Jha, Adhikari, & Pant, 2006). Mathematics originated from Vedic literature nearly 4000 years ago. Nepalese mathematical system is highly influenced by the world's mathematical system. Different contents on mathematics were authored by Indian mathematicians. They included the concept of zero, algebra and algorithm, square root and cube root (Acharya & Pant, 2012).

Mathematics is one of the most important subjects, so it's importance and its position is in the top of the all researchers like the crest of the peacock, and the gem on the head of a snake. In Sanskrit as lagadha in his treatise *Vedangyaprotisha*.

Resources in Education ,1998 Least Developed Countries and the WTO H. Hawthorne,2013-05-07 A norm of special treatment for LDCs created by the UN has spread to various international organisations including the WTO

Within the WTO evidence of the institutionalization of the norm can be found both in the agreements and legal documents and the way in which the LDCs have been treated by other states Helen Hawthorne investigates how norms impact on negotiations in international organisations She shows that few studies of international organisations focus on the role of the weaker states in the organization the majority focus either on the major states or the emerging economies By ignoring the role of the poorer weaker states in the GATT WTO we are ignoring the history of these states in the organisation and do not get a true picture of the organization how it operates in relation to them and their impact on the organisation

Philology and Criticism

Vishwa Adluri,Joydeep Bagchee,2018-06-29 Philology and Criticism contrasts the Mah bh rata s preservation and transmission within the Indian scribal and commentarial traditions with Sanskrit philology after 1900 as German Indologists proposed a critical edition of the Mah bh rata to validate their racial and nationalist views Vishwa Adluri and Joydeep Bagchee show how in contrast to the Indologists unscientific theories V S Sukthankar assimilated the principles of neo Lachmannian textual criticism to defend the transmitted text and its traditional reception as a work of law philosophy and salvation The authors demonstrate why after the edition s completion no justification exists for claiming that an earlier heroic epic existed that the Brahmins redacted the heroic epic to produce the Mah bh rata or that they interpolated sectarian gods such as Vis n u and iva into the work By demonstrating how the Indologists committed technical errors cited flawed and biased scholarship and used circular argumentation to validate their racist and anti Semitic theories Philology and Criticism

frees readers to approach the Mah bh rata as the principal monument of bhakti Madeleine Biarreau The authoritative guide to the critical edition s correct use and interpretation Philology and Criticism urges South Asianists to view Hinduism as a complex debate about ontology and ethics rather than through the lenses of Brahmanism and sectarianism It launches a new world philology one that is plural and self reflexive rather than Eurocentric and ahistorical **Catalogue of Research**
