M. Basheer Ahmed, MD and Ambassador Syed A. Ahsani and Dilnawaz A. Siddiqui, PhD, 2005-01-01 Islam's brilliant contributions to science, art, and culture are a timeless and precious heritage which should be historically preserved for future generations. The great achievements of Muslim scholars are rarely, if at all, acknowledged in formal education, and today their identity, origins, and impact remain largely obscure. This collection of papers aims to give readers a brief introduction to the intellectual history of Muslims and the contributions that eminent Muslim scholars have made in certain specific fields of knowledge, including basic and applied physical and biological sciences, medicine, legal and political theories and practices, economic and financial concepts, models, and institutions, etc. The preservation of civilization necessitates a better understanding, sharing, and recognition of our common human heritage. Given today's widespread negative stereotyping and falsely generated misunderstanding of Islam and Muslims, the publication of these papers on Muslim Contributions to World Civilization is vital to help repair the wrong that is being perpetrated and restore the historical truth which is being distorted.
