Contributions To The Study Of The Dorset Palaeo Eskimos:

Contributions to the Study of the Dorset Palaeo-Eskimos Patricia D. Sutherland, 2005-01-01 This collection of papers offers insights into the Dorset Palaeo Eskimo occupation of Arctic Canada Newfoundland and Greenland Topics include biological relationships in the Dorset population succession and discontinuity in Palaeo Eskimo occupations Dorset technology in soapstone metal and skeletal materials and social aspects of the late Dorset stone longhouses Published in English

The Cultural Landscapes of Port au Choix M. A. P. Renouf, 2011-03-28 Newfoundland lies at the intersection of arctic and more temperate regions and commensurate with this geography populations of two Amerindian and two Paleoeskimo cultural traditions occupied Port au Choix in northern Newfoundland Canada for centuries and millennia Over the past two decades The Port au Choix Archaeology Project has sought a comparative understanding of how these different cultures each with their particular origin and historical trajectory adapted to the changing physical and social environments impacted their physical surroundings and created cultural landscapes This volume brings together the research of Renouf her colleagues and her students who together employ multiple perspectives and methods to provide a detailed reconstruction and understanding of the long term history of Port au Choix Although geographically focussed on a northern coastal area this volume has wider implications for understanding archaeological landscapes human environment interactions and hunter gatherer societies

From Hard Rock to Heavy Metal Michelle Rae Bebb, Christopher B. Wolff, 2025-07-01 The discovery and development of metals as tool media is a topic of global interest This phenomenon is generally associated with sedentary agricultural societies however in North America metal use by hunter gatherer populations began as early as 9 000 years ago and continued into modern times The regional and cultural diversity of research in this volume contributes to how we conceptualize hunter gatherer innovation technological proficiency and complex decision making in the past Readers are challenged to reconsider long held assumptions about how when and under what conditions metal became a part of humanity's story

Human Migration María de Lourdes Muñoz-Moreno, Michael H. Crawford, 2021 This book combines the most recent research in population development human genetics archaeology anthropology biology linguistics and more to create a comprehensive picture of human migratory patterns

The Oxford Handbook of Prehistoric Figurines Timothy Insoll, 2017 The Oxford Handbook of Prehistoric Figurines is the first text to offer a comparative survey of figurines from across the globe bringing together myriad contemporary research approaches to provide invaluable insights into their function context meaning and use as well as past thinking on the human body gender and identity

Reimagining Human-Animal Relations in the Circumpolar North Peter Whitridge, Erica Hill, 2023-12-21 This volume provides fresh insight into northern human animal relations and illustrates the breadth and practical utility of archaeological human animal studies It surveys recent archaeological research in northern North America and Eurasia that frames human animal relations as not merely economically exploitative but often socially complex and deeply meaningful and attuned to the intelligence and

agency of nonhuman prey and domesticates The case studies sample a wide swath of the circumpolar region from Alaska Nunavut and Greenland to northern Fennoscandia and western Siberia and span sites finds and scenarios ranging in age from the Mesolithic to the twenty first century Many taxa on which northern lives hinged figure in these analyses including large marine mammals polar bear reindeer marine fish and birds and are variously approached from relational multispecies semiotic osteobiographical and political economic perspectives Animals themselves are represented by osteological remains harvesting gear and depictions of animal bodies that include zoomorphic figurines petroglyphs ornamentation and intricate portrayals of human animal harvesting encounters Far from settling the problem of how archaeologists should approach northern human animal relations these chapters reveal the irreducible complexity of northern worlds and highlight the diversity of human and nonhuman animal lives This book will be of particular interest to northern archaeologists and zooarchaeologists and all those interested in the possibilities of a multispecies approach to the archaeological record

Out

of Bounds Pamela A. Patton, Maria Alessia Rossi, 2023-10-03 Where are the limits of medieval art as a field of study What happens when conventionally trained art historians disregard the chronological geographical or cultural parameters that both direct and protect their scholarship Beginning with Thelma K Thomas and Alicia Walker's acute assessment of the need for a medieval art history for now the essays in *Out of Bounds* ask what happens when the study of medieval art disregards boundaries that it once obeyed The volume focuses on questions surrounding the production of knowledge and on how scholarly investigation beyond the conventional thematic boundaries of medieval art history is changing demonstrating how the field can address the ethics of scholarship today by positing a global turn in response to growing demands for socially responsible medieval studies Collectively the contributors demonstrate how going out of bounds can transform modern understanding of the people traditions and relationships that gave rise to medieval works As such this book argues for the necessity of reshaping scholarly discourse about the nature and significance of medieval art and generates fresh scholarly interpretations and important new critical tools for teaching and researching the Middle Ages The contributors to this volume are Suzanne Conklin Akbari Michele Bacci Jill Caskey Eva Frojmovic Sarah M Gu rin Christina Maranci Alice Isabella Sullivan Thelma K Thomas Michele Tomasi and Alicia Walker

Éva David, Erik Hnrčiarik, 2023-09-07 10 articles focus on worked hard materials of animal origin shell tusk bone antler ranging chronologically from the Upper Palaeolithic to the Middle Ages The authors have varied academic backgrounds that enhance the archaeological analyses carried out often at first hand on numerous collections from the Old and New Worlds

Out of the Cold Owen K. Mason, T. Max Friesen, 2018-03-15 The Arctic rim of North America presents one of the most daunting environments for humans Cold and austere it is lacking in plants but rich in marine mammals primarily the ringed seal walrus and bowhead whale In this book in the SAA Press Current Perspectives Series the authors track the history of cultural innovations in the Arctic and Subarctic for the past 12 000 years including the development of sophisticated architecture

watercraft fur clothing hunting technology and worldviews Climate change is linked to many of the successes and failures of its inhabitants warming or cooling periods led to periods of resource abundance or collapse and in several instances to long distance migrations At its western and eastern margins the Arctic also experienced the impact of Asian and European world systems from that of the Norse in the East to the Russians in the Bering Strait

Archaeology of the Atlantic Northeast Matthew W. Betts, M. Gabriel Hrynck, 2021-05-12 Beginning with the earliest Indigenous occupation of the area this book presents a cultural overview of the Atlantic Northeast and weaves together the histories of the Indigenous people

Life at Swift Water Place Doug D. Anderson, Wanni W. Anderson, 2019-06-15 This is a multidisciplinary study of the early contact period of Alaskan Native history that follows a major hunting and fishing Inupiaq group at a time of momentous change in their lifeways The Amilgaqtau yaagmiut were the most powerful group in the Kobuk River area But their status was forever transformed thanks to two major factors They faced a food shortage prompted by the decline in caribou one of their major foods This was also the time when European and Asian trade items were first introduced into their traditional society The first trade items to arrive a decade ahead of the Europeans themselves were glass beads and pieces of metal that the Inupiat expertly incorporated into their traditional implements This book integrates ethnohistoric bio anthropological archaeological and oral historical analyses

Human Biology Sara Stinson, Barry Bogin, Dennis H. O'Rourke, 2012-04-10 This comprehensive introduction to the field of human biology covers all the major areas of the field genetic variation variation related to climate infectious and non infectious diseases aging growth nutrition and demography Written by four expert authors working in close collaboration this second edition has been thoroughly updated to provide undergraduate and graduate students with two new chapters one on race and culture and their ties to human biology and the other a concluding summary chapter highlighting the integration and intersection of the topics covered in the book

The Oxford Handbook of the Prehistoric Arctic T. Max Friesen, Owen K. Mason, 2016 Despite its extreme climate the North American Arctic holds a complex archaeological record of global significance In this volume leading researchers provide comprehensive coverage of the region's cultural history addressing issues as diverse as climate change impacts on human societies European colonial expansion and hunter gatherer adaptations and social organization

The Archaeology of Ancient North America Timothy R. Pauketat, Kenneth E. Sassaman, 2020-02-27 Unlike extant texts this textbook treats pre Columbian Native Americans as history makers who yet matter in our contemporary world

The Foragers of Point Hope Charles E. Hilton, Benjamin M. Auerbach, Libby W. Cowgill, 2014-07-24 Sixty years after their discovery this is the first anthropological synthesis of the ancient Arctic foragers of Point Hope Alaska

Early Inuit Studies Igor Krupnik, 2016-02-16 This collection of 15 chronologically arranged papers is the first ever definitive treatment of the intellectual history of Eskimology known today as Inuit studies the field of anthropology preoccupied with the origins history and culture of the Inuit people The authors trace the growth and change in scholarship on the Inuit Eskimo people from the 1850s to the 1980s via profiles of scientists who

made major contributions to the field and via intellectual transitions themes that furthered such developments It presents an engaging story of advancement in social research including anthropology archaeology human geography and linguistics in the polar regions Essays written by American Canadian Danish French and Russian contributors provide for particular trajectories of research and academic tradition in the Arctic for over 130 years Most of the essays originated as papers presented at the 18th Inuit Studies Conference hosted by the Smithsonian Institution in October 2012 Yet the book is an organized and integrated narrative its binding theme is the diffusion of knowledge across disciplinary and national boundaries A critical element to the story is the changing status of the Inuit people within each of the Arctic nations and the developments in national ideologies of governance identity and treatment of indigenous populations This multifaceted work will resonate with a broad audience of social scientists students of science history humanities and minority studies and readers of all stripes interested in the Arctic and its peoples Rock Art and Sacred Landscapes Donna L. Gillette, Mavis Greer, Michele Helene Hayward, William Breen Murray, 2013-10-16 Social and behavioral scientists study religion or spirituality in various ways and have defined and approached the subject from different perspectives In cultural anthropology and archaeology the understanding of what constitutes religion involves beliefs oral traditions practices and rituals as well as the related material culture including artifacts landscapes structural features and visual representations like rock art Researchers work to understand religious thoughts and actions that prompted their creation distinct from those created for economic political or social purposes Rock art landscapes convey knowledge about sacred and spiritual ecology from generation to generation Contributors to this global view detail how rock art can be employed to address issues regarding past dynamic interplays of religions and spiritual elements Studies from a number of different cultural areas and time periods explore how rock art engages the emotions materializes thoughts and actions and reflects religious organization as it intersects with sociopolitical cultural systems **Historical Dictionary of the Inuit** Pamela R. Stern, 2013-09-26 The Inuit do not represent a very large population only 160 000 or so spread over a very large portion of the Arctic region and located in four different countries Although they are a people there are many variations from one group to the next and any study of them must consider both similarities and differences The Historical Dictionary of the Inuit introduces us to the Inuit as they actually are and not as they have been traditionally pictured and some would still like to see them looking after their traditional chores and engaged in time honored practices but rather as a modern people trying to shape their worlds in their own interest This second edition includes an updated chronology as well as an introduction to provide a broader view of who the Inuit are where they live and what they do But it is the dictionary section that is most interesting with many new informative entries on persons places events and institutions shedding light not only on the culture but also on the society economy and politics For those seeking further information there is a considerably expanded bibliography This book is an excellent access point for students researchers and anyone wanting to know more about the Inuit *History in the Making*

Donald H. Holly Jr., 2013-10-18 The Eastern Subarctic has long been portrayed as a place without history Challenging this perspective History in the Making The Archaeology of the Eastern Subarctic charts the complex and dynamic history of this little known archaeological region of North America Along the way the book explores the social processes through which native peoples made history in the past and archaeologists and anthropologists later wrote about it As such the book offers both a critical history and historiography of the Eastern Subarctic *Science* John Michels (Journalist), 2008 A weekly record of scientific progress
