Revenue Sources of Local Governments J. Edwin Benton, 2024-04-11. With limited fiscal capabilities, effective and efficient budgeting is a necessity for local governments in the United States. Acknowledging the critical but often overlooked part that raising enough revenue to fund desirable and mandatory programs plays in the budgetary process, this book offers an exclusive and comprehensive examination of the revenue side of the budget. It provides much-needed and wide-ranging context for examining and understanding local government revenues and local government revenue policy. Author J. Edwin Benton presents a comprehensive overview of the revenue structure for local governments in general and for counties, municipalities, townships, special districts, and school districts in particular. The bulk of this book meticulously examines the historical patterns and trends in revenue usage by local governments and provides explanations for variations among different units of government, states, and regions of the country. This book enhances our understanding of the most relevant research and aids in refining theories that seek to explain why local governments or different types of local governments rely more on certain kinds of revenues. It also offers immediately applicable real-world case studies on revenue-raising capabilities, practicalities, and experiences of local governments around the country. It will be of enormous interest to public budgeting practitioners, students, and scholars.

Rural Governments in a Time of Change: Sharing local costs, 1984. *Governance and Population: the Governmental Implications of Population Change* A. E. Keir Nash, 1972. [Sustainable Food Security in the Era of Local and Global Environmental Change](#) Mohamed Behnassi, Olaf Pollmann, Gabrielle Kissinger, 2013-07-01. This volume discusses a broad range of vital issues encompassing the production and consumption of food in the current period of climate change. All of these add up to looming momentous challenges to food security, especially for people in regions where malnutrition and famine have been the norm during numerous decades. Furthermore, threats to food security do not stop at the borders of more affluent countries; governance of food systems and changes in eating patterns will have worldwide consequences. The book is arranged in four broad sections. Part I, Combating Food Insecurity, opens with a chapter describing the urgent necessity for a new paradigm and policy set to meet the food security challenges of

climate change Also in this section are chapters on meat and the dimensions of animal welfare climate change and sustainability on dietary options for mitigating climate change and the linkage of forest and food production in the context of the REDD approach to valuation of forests Part II Managing Linkages Between Climate Change and Food Security offers a South Asian perspective on Gender Climate Change and Household Food Security a chapter on food crisis in sub Saharan Africa and separate chapters on critical issues of food supply and production in Nigeria far Western Nepal and the Sudano Sahelian zone of Cameroon Part III examines Food Security and patterns of production and consumption with chapters focused on Morocco Thailand Bahrain Kenya and elsewhere The final section discusses successful innovative practices with chapters on Food Security in Knowledge Based Economy Biosaline Agriculture in the Gulf States Rice production in a cotton zone of Benin palm oil in the production of biofuel and experiments in raised bed wheat production The editors argue that technical prescriptions are insufficient to manage the food security challenge They propose and explain a holistic approach for adapting food systems to global environmental change which demands the engagement of many disciplines a new sustainable food security paradigm

Local Dynamics in an Era of Globalization Shahid Yusuf, Weiping Wu, Simon J. Evenett, 2000 These papers discuss some of the major aspects of decentralization and urban change in the context of globalization

Rethinking Resilience, Adaptation and Transformation in a Time of Change Wanglin Yan, Will Galloway, 2017-03-21 This book contributes to the literature on resilience hazard planning risk management environmental policy and design presenting articles that focus on building resilience through social and technical means Bringing together contributions from Japanese authors the book also offers a rare English language glimpse into current policy and practice in Japan since the 2011 Tohoku disaster The growth of resilience as a common point of contact for fields as disparate as economics architecture and population politics reflects a shared concern about our capacity to cope with and adapt to change The ability to bounce back from hardship and disaster is essential to all of our futures Yet if such ability is to be sustainable and not rely on a brute force response innovation will need to become a core practice for policymakers and on the ground responders alike The book offers a valuable reference guide for graduate students researchers and policy analysts who are looking for a holistic but practical

approach to resilience planning *Counties as Service Delivery Agents* J. Edwin Benton, 2002-07-30 Counties generally fulfill three service roles traditional or state mandated local or municipal and regional or urban Benton has written the first scholarly treatment of county governments as providers of all three of these types of services dispelling the notion that counties are mere providers of services they are mandated to perform by their state governments County governments in the United States have become increasingly important as service providers over the past several decades vis a vis municipalities and townships These services change over time and vary from region to region Variations in the roles that county governments play in the provision of traditional local and regional service are explained Therefore in addition to examining multiple indicators of service roles for all 3 043 counties in the United States the analysis is extended to investigate the influence of political state constitutions statutes and financial aid population growth patterns metropolitan non metropolitan status and form of government The Future of Local Government Administration International City/County Management Association, 2002 A group of noted scholars of U S local government and a group of leading local government administrators convened at the Hansell Symposium sponsored by the University of Kansas and ICMA to honor ICMA executive director William H Hansell on the eve of his retirement The papers presented there together with thoughtful responses by practicing managers are brought together in a volume that represents the state of the art of academic research into local government and the management profession Coverage includes the democratic and political context of local government administration the changing forms of American cities the settings roles and responsibilities of local government leaders in cities and counties and prospects for the future of local government management This book is an ideal textbook and a valuable addition to the library of every professional city or county manager **Theoretical Foundations and Discussions on the Reformation Process in Local Governments** Sadioglu, Ugur, Dede, Kadir, 2016-06-01 Local government can be defined as a public entity acting as the sub unit of a state or of a region charged with the task of enforcing public policies There have been many reforms of local government in recent years from the grassroots led movement that took root in the 90 s to the overarching effects of globalization and decentralization Local governments must adapt their practices in order to most effectively provide for their constituents Theoretical Foundations and Discussions on the Reformation Process in Local Governments addresses the effects of recent reforms in the political administrative system of local governments and politics as well as future outlooks It reviews the challenges innovations and lessons from local governments while providing theoretical perspectives on methods for positive reform This book is a critical reference source for policy makers government organizations professionals and actors in both local and international politics **Digitalization of Local Governments in Germany** Tomás Vellani, 2025-04-22 This book provides an in depth analysis of the digital policy of medium sized municipalities in Germany Mostly ignored by empirical research the size of these municipalities has been characterized both as an advantage and a limitation for digitalization with scholars alternately emphasizing agility and shorter administrative

paths on the one hand and the lack of capacity and economies of scale on the other Utilising a mixed methods approach combining process tracing and web scraping the book analyzes the characteristics of digital policy in medium sized municipalities and the effects of digitalization governance on service provision It traces the historical trajectories of digitalization in pioneering municipalities examines which factors influence favorable digital transformations and analyzes the organizational structures dedicated to digitalization The book also puts forward a typology to classify municipalities according to their digital governance quantitatively describes the landscape of medium sized municipalities and delivers insights on the effects of governance on digital services It will appeal to scholars students and practitioners of public administration local government and digitalization
