Couples Building Bridges Journal Of Couples Therapy Vol 5 No 4:

Couples Barbara Jo Brothers, 2014-04-23 *Couples Building Bridges* shows therapists how to successfully apply basic principles of human interaction and communication to help facilitate intimate connections between people. Using the approaches in this book, you will see how the bridge between couples materializes naturally as a result of the combination of respect, truth, careful observations, awareness, and shared information. Contributors in *Couples Building Bridges* encourage therapists to bring their own behavior into awareness to see themselves as the major instrument of change in the therapy process and to recognize that work must begin with themselves before starting to work with couples. However, the book stresses that therapy is not something performed on a couple but rather a process geared toward increasing the range of choice of behavior for clients. Therapists working with couples or with individuals seeking therapy concerning their intimate relationships will find *Couples Building Bridges* a valuable reference for promoting healthy open relationships.

Couples and Body Therapy Barbara Jo Brothers, 2013-12-16 Bring the physical dimension into your therapeutic work with couples. This helpful book offers couples therapists new and powerful techniques derived from several body-oriented therapies. This fresh approach can help you identify the hidden conflicts and attitudes of your clients. *Couples and Body Therapy* offers you exercises, tips, and practical suggestions for helping troubled couples. In *Couples and Body Therapy*, expert therapists candidly discuss the dangers and benefits of using touch to heal. Their discussion of whether, when, how, and whom to touch includes valuable suggestions for working through transference and countertransference as well as for dealing with hostile clients and obtaining informed consent to touch. *Couples and Body Therapy* provides thoughtful explorations of the ideas and methods of well-regarded experts including Virginia Satir, Wilhelm Reich, Alexander Lowen, John Pierrakos, Fritz Perls, Stanley Keleman, and John Gutman as they apply to the physical expression of emotional states. This book draws from a number of powerful bodywork systems including core energetics, biodynamic analysis, formative psychology, Hakomi, Gestalt. Use it to learn the healing skills of body-oriented therapies including centering yourself before sessions, giving voice to your clients' body messages, doing effective energy assessments, reading posture, gesture, and somatic signals, using concentration exercises, and grounding techniques. Plentifully illustrated with case studies, *Couples and Body Therapy* is essential reading for therapists, educators, and students. It offers a repertoire of skills to give you fresh and innovative ways to uncover and heal problems in couples.

Couples Connecting Barbara Jo Brothers, 2013-11-05 Help clients grow into loving commitment. Making and keeping commitments is more difficult today than ever. About half of all marriages end in divorce, and serial monogamy is not uncommon. *Couples Connecting: Prerequisites of Intimacy* identifies the cultural and personal attitudes that impede commitment and impair intimacy and gives you the therapeutic tools to work with clients who don't know how to build a lasting love. *Couples Connecting* examines why past theories of self-actualization are now failing. Because our culture emphasizes individualistic values, people do not learn how to create and share bonds with others. Therapists must become

developmental partners for clients who need to overcome failures of maturation in order to have successful loving relationships with their partner This essential guide offers you practical techniques and case studies as well the theoretical underpinnings to deal with this crisis of intimacy Couples Connecting provides specific insightful studies on overcoming obstacles to genuine commitment including identifying patterns of anger in distressed and nondistressed couples ways to help engaged couples overcome the fear of following negative family patterns using family systems theory and psychodynamics to understand developmental issues in marriage suggestions for clinical practice with couples who fear intimacy implications of ten essential factors in intimacy Couples Connecting will help you design and use techniques to promote personal growth and bridge gaps between clients to help couples achieve satisfying and intimate relationships
