**Couplings to the Khyber** P. S. A. Berridge, 1969 *At the Margins of Empire* Lipokmar Dzüvichü, Manjeet Baruah, 2025-05-26 Empire building in British India was inseparably tied to the processes of frontier making and the creation of boundaries Through a range of complex practices and developments the constitution of these spaces took shape at various historical conjunctures The making of these spaces was also shaped by a variety of imperial concerns including local and global processes connections and entanglements Focusing on the period between the 19th and the early 20th centuries this book looks at how the dynamics of frontier and boundary creation were shaped by a variety of agents institutions infrastructure and technologies events economy travel forms of representation and imperial rivalries The role of capital war and violence was also intrinsic to the creation of such spaces Further societies in these spaces responded to these processes in various ways The book examines how they negotiated and mediated these complex developments of modern space making in multiple ways at the margins of empire Part of the Empire and Frontiers series this book will be of interest to researchers and readers of history anthropology cultural studies social and cultural history frontiers boundaries and borderland studies Himalayan studies and studies of commodities and circulations Imperial Engineers Richard Hornsey, 2022-03-31 Established in 1871 on the outskirts of London the Royal Indian Engineering College at Coopers Hill was arguably the first engineering school in Britain For thirty five years the college helped staff the government institutions of British India responsible for the railways irrigation systems telegraph network and forests Founded to meet the high demand for engineers in that country it was closed thirty five years later because its educational innovations had been surpassed by Britain s universities on both occasions against the wishes of the Government of India Imperial Engineers offers a complete history of the Royal Indian Engineering College Drawing on the diaries of graduates working in India the college magazine student and alumni periodicals and other archival documents Richard Hornsey details why the college was established and how the students education prepared them for their work Illustrating the impact of the college and its graduates in India and beyond Imperial Engineers illuminates the personal and professional experiences of British men in India as well as the transformation of engineering education at a time of social and technological change **The ^AAfghan Way of War** Robert Johnson, 2011-12-29 Through the reconstruction of episodes of Afghanistan s military history this book seeks to reevaluate the Afghan Way of War showing that despite the stereotypes of guerrilla warriors imbued with religious fanaticism Afghans have constantly adapted to new threats Indeed the Afghan way of war has been one of constant change The Tentacles of Progress Daniel R. Headrick, 1988-03-10 This penetrating examination of a paradox of colonial rule shows how the massive transfers of technology including equipment techniques and experts from the European imperial powers to their colonies in Asia and Africa resulted not in industrialization but in underdevelopment Examining the most important technologies shipping and railways telegraphs and wireless urban water supply and sewage disposal economic

botany and plantation agriculture irrigation and mining and metallurgy Headrick provides a new perspective on colonial economic history and reopens the debate on the roots of Asian and African underdevelopment      ***Stones of Empire*** Jan Morris,2005 No empire in history built so variously as the British empire in India The buildings there attest to the richness of an imperial presence that lasted from the first trading settlement to the end of the Raj some three hundred years The attitude of the British to India was compounded partly of arrogance but partly also of homesickness and it shows in their constructions Georgian terraces were adapted to tropical conditions Victorian railway stations were elaborately orientalised seaside villas were adjusted to suit Himalayan conditions and everywhere the fundamental ambivalence of the British empire a baffling mixture of good and evil was mirrored in the imperial architecture This book now reissued with an introduction by Simon Winchester was the first to describe the whole range of British constructions in India The text and photographs illustrate these buildings not simply as physical objects but as reflections of an empire's mingled emotions *Stones of Empire* charts an enterprise in architecture engineering and social adaptation unique in human history      ***Great Railroad Tunnels of North America*** William Lowell Putnam,2011-07-25 Describing and detailing the boring of major railroad tunnels throughout Canada the United States and Mexico this book covers the period from the creation of Virginia's Blue Ridge Tunnel in the 1850s to Copper Canyon's Continental and El Descanso tunnels in the early 1960s Other notable tunnels featured here include Massachusetts notoriously expensive and slow progressing Hoosac Tunnel Colorado's rail and water Moffat Tunnel Montana's Flathead Tunnel and several major tunnels along the Canadian Pacific's main line In addition to providing details on the tunnels the author considers the reasons they were created their engineers and their use The book includes more than 50 period and contemporary photos A glossary explains concepts related to railroad construction and maintenance

***India's Railway History*** John Hurd II,Ian J. Kerr,2012-08-03 This handbook provides an indispensable reference guide to most aspects of the history of India's railways The secondary literature is surveyed primary sources identified statistical and cartographic data discussed and a massive bibliography made available      ***A Concise History of Afghanistan in 25 Volumes*** Hamid Wahed Alikuzai,2013-10-10 Afghanistan Literature is World's greatest and richest without Afghan Literature no European German French Spanish or English Literature would exist today The Vedas Zoroastrian and Buddhist among the oldest known Literature of Afghanistan originating from the Great capital of Bactria present day Balkh and Aria present day Herat Sanskrit is the reference to the original history of Afghanistan The Saxon Europeans influence during the Great Games of the mid nineteenth century affected the Afghan language religion and Territories size which previously had extended from India to North Africa at 2.6 million square kilometers The Great Games continued at any cost evolving into present day conflicts of 2013      ***Buildings of Empire*** Ashley Jackson,2013-11 An exciting journey to thirteen buildings that capture the essence of the British imperial experience painting an intimate portrait of the biggest empire the world has ever seen the people who made it and the people who resisted it as well as the legacy of the imperial project throughout the world      ***Lost***

**Railway Journeys from Around the World** Anthony Lambert, 2018-11-13 From the great cathedral like railway stations of the steam age to obscure lines built through spectacular landscapes to open up countries before the advent of motorised road transport this book is a celebration of our lost railway heritage and the lines that can no longer be travelled Through stunning images Lost Railway Journeys from Around the World evokes the romance and drama of these journeys taking the reader as close as they can possibly get to this lost world of dining cars sleeping cars station porters and international rail travel Organised by continent all of these routes have stories to tell and the lost journeys are captured in the old postcards and posters that accompany photographs drawn from collections and archives across the world *Financing India's*

*Imperial Railways, 1875-1914* Stuart Sweeney, 2015-10-06 The Indian railway network began as a liberal experiment to promote trade and commerce the distribution of food and military mobility Sweeney's study focuses on Britain's largest overseas investment project during the nineteenth century offering a new perspective on the Anglo Indian experience

**Khyber pass** Paddy Docherty, 2010-07-31 Perno geografico della storia il Khyber Pass ha da sempre deciso il dominio sull'area centroasiatica Questo valico montuoso fra Pakistan e Afghanistan dall'andamento serpentino lungo cinquanta chilometri e stretto fino a sedici metri ha avuto nei secoli un valore strategico cruciale Guerrieri e pellegrini di ogni fede vincitori e vinti insieme a poeti artisti e scienziati lo hanno percorso Per brama di conquista o per attratti dal fascino di antichi imperi Fondendo documentario di viaggio e racconto storico Paddy Docherty ripercorre le vicende di condottieri personaggi e popoli che a partire dai persiani hanno scandito l'ascesa la fioritura e la rovina di leggendarie civiltà Un'epopea che giunge fino al XX secolo e alle spaventose carneficine subite e perpetrate da britannici russi e americani nel tentativo impossibile di dominare questo varco Come un millenario ciclo epico Khyber Pass restituisce la leggenda di questa frontiera preda romantica da conquistare e difendere a tutti i costi e teatro di conflitti fra eserciti e trasmissioni di idee così determinanti per le sorti del mondo in cui viviamo North Western Railway of India Alon Sison, 2023-07-15 Utilising stunning photographs Alon Sison

tells the story of the famous North Western Railway of India *Roads and Rivals* Mahnaz Ispahani, 2019-05-15 Over the past two centuries the borderlands of Central South and West Asia have been transformed from the remote peripheries into areas of intense regional and international interest In *Roads and Rivals* Mahnaz Ispahani explores the crucial but unacknowledged role that land routes have played in the strategic political and economic evolution of those borderlands *The Civil*

*Engineering of Canals and Railways before 1850* Michael M. Chrimes, 2017-09-08 Between 1750 and 1850 the British landscape was transformed by a transport revolution which involved engineering works on a scale not seen in Europe since Roman times While the economic background of the canal and railway ages are relatively well known and many histories have been written about the locomotives which ran on the railways relatively little has been published on how the engineering works themselves were made possible This book brings together a series of papers which seek to answer the questions of how canals and railways were built how the engineers responsible organised the works how they were designed

and what the role of the contractors was in the process

**Lines of the Nation** Laura Bear, 2007 *Lines of the Nation* radically recasts the history of the Indian railways which have long been regarded as vectors of modernity and economic prosperity. From the design of carriages to the architecture of stations, employment hierarchies and the construction of employee housing, Laura Bear explores the new public spaces and social relationships created by the railway bureaucracy. She then traces their influence on the formation of contemporary Indian nationalism, personal sentiments and popular memory. Her probing study challenges entrenched beliefs concerning the institutions of modernity and capitalism by showing that these rework older idioms of social distinction and are legitimized by forms of intimate affective politics. Drawing on historical and ethnographic research in the company town at Kharagpur and at the Eastern Railway headquarters in Kolkata, Calcutta, Bear focuses on how political and domestic practices among workers became entangled with the moralities and archival technologies of the railway bureaucracy and illuminates the impact of this history today. The bureaucracy has played a pivotal role in the creation of idioms of family history, kinship and ethics and its special categorization of Anglo-Indian workers still resonates. Anglo-Indians were formed as a separate railway caste by Raj-era racial employment and housing policies and other railway workers continue to see them as remnants of the colonial past and as a polluting influence. The experiences of Anglo-Indians, who are at the core of the ethnography, reveal the consequences of attempts to make political communities legitimate in family lines and sentiments. Their situation also compels us to rethink the importance of documentary practices and nationalism to all family histories and senses of relatedness. This interdisciplinary anthropological history throws new light not only on the imperial and national past of South Asia but also on the moral life of present technologies and economic institutions.

**Railway Construction in India** S. Settar, 1999. Presents the documents of vital importance for writing such a history. The principle followed in listing the documents is chronological and the following three volumes comprise a total number of three hundred and sixty documents selected out of a total of 10 000 pages of material. These documents cover the protracted controversy between individuals and groups interested in laying railway in India: despatches of the Court of Directors of the East India Company and the Board of Control headed by a British cabinet minister and the Government of India in the early phase of its construction, 1832-1853 etc. They are drawn from the minutes and notes of various Governors-General of India from Lord Dalhousie to Lord Curzon, reports made by the Consulting Engineers of Railway of the Government of India and the railway companies, despatches, minutes and notes of Secretaries of State for India and Government of India, despatches from British Residents of Native States particularly those relating to the railway policies, selection of routes, acquiring of land for guaranteed interest, adoption of gauge, construction and extension of lines, fixation of rates and fares as well as the control and management of railways. Each of the documents presented here is provided with a title, a gist of contents and the source reference; these are succeeded by the original document. The end notes comprise editorial comments and wherever necessary cross references. These volumes would serve as an important body of sources for

reconstructing the history of Indian railways and in evaluating the impact of this venture on the economic situation as well as in integrating the sub continent into a nation Indologica Taurinensia ,2001 **Engines of Change** Ian J.

Kerr,2006-12-30 The former Jewel in the Crown of the British Empire India remains by any measure a major economic and political actor on the world scene Without her extensive railway network completed against all odds by her British colonial masters it is impossible to imagine what might have become of the diverse lands and peoples of the subcontinent These railway networks brought them together as a colony these networks fostered the nationalism that would be Britain s downfall This rail network both remade the physical landscape and brought social cultural cohesion to a diverse and wide ranging populace It would be common rail travel that Gandhi would employ to reach the masses From its romantic mystique to its dangerous reality it is rail travel today that keeps vital social cultural economic and political forces moving India s railroad history serves as a unique lens to her larger story of triumph over adversity By 1905 India had the world s fourth largest railway network a position it retains in the early 21st century The railroads were at the organizational and technological center of many of the inter related economic political social cultural and ecological transformations that produced modern India through and out of its colonial past In addition to this vast technical achievement and in keeping with the series focus there is an equally important and wide sweeping human interest tale to be told with evocative vignettes of the triumph of the human spirit one billion strong in the face of great adversity
