Alimentation santé Alimentation plaisir une question d'équilibre

Claudine Robert-Hoarau, 2014-04-04 Encore un livre sur l'alimentation Vous vous êtes sans doute fait cette réflexion l'approche de ce livre du point de vue du contenu de votre dernière lecture sur ce sujet alors pourquoi celui-ci serait-il différent des autres Beaucoup de livres avec des titres très accrocheurs voire racoleurs vous promettent la solution miracle votre problème de poids un moyen infaillible de rétablir votre équilibre alimentaire une garantie de bien-être et de santé Mais voilà malgré les conseils les méthodes ou les régimes minceurs proposés malheureusement la réalité est tout autre La diététique est souvent associée à frustration voire culpabilisation par rapport à l'alimentation ou aux excès de poids Or surveiller son alimentation ne rime pas avec restriction mais plutôt avec gestion C'est avant tout une ligne de conduite à rétablir pour rester gourmand mais toujours avec modération Passionnée depuis toujours par la diététique je propose une alimentation saine variée équilibrée au travers de trois principes Ne parlons pas de régime mais de modifications de nos habitudes alimentaires Prenons du plaisir en mangeant tout en reconnaissant nos sensations Restons gourmand et déculpabilisons face à notre assiette pour un meilleur bien-être Ce livre n'a pas la prétention de vous donner la solution qui est différente selon chacun d'entre nous mais de vous faire acquiescer au quotidien les bons réflexes d'une alimentation équilibrée pour votre santé votre bien-être mais aussi votre plaisir Mon but est de répondre clairement et simplement de manière pratique et ludique aux questions essentielles que tout chacun peut se poser sur son alimentation quotidienne selon son mode de vie son contexte social et familial voire sa pathologie
