Course In Chinese Calligraphy A:

Chinese Calligraphy Made Easy Rebecca Yue, 2004-10-14 Rebecca Yue's unique approach to calligraphy comes from years of teaching this ancient art. Most teachers prefer to demonstrate all of the basic brushstrokes before teaching you how to form words. However, in Rebecca's experience, students soon become bored with this method and fail to progress. Whilst teaching new brushstrokes, *Chinese Calligraphy Made Easy* allows the reader to practise them and brushstrokes learnt previously by writing Chinese words. From this, the reader feels a sense of achievement and satisfaction at the end of every lesson, which in turn stimulates them to look forward to the next exercise. As the lessons progress, the words introduced become more complicated. When there are enough words to form phrases, projects are introduced. These include painting Chinese characters onto a bonsai pot, a t-shirt, a vase, and making personalised greeting cards. *Chinese Writing and Calligraphy* Wendan Li, 2010-05-31 Suitable for college and high school students and those learning on their own, this fully illustrated coursebook provides comprehensive instruction in the history and practical techniques of Chinese calligraphy. No previous knowledge of the language is required to follow the text or complete the lessons. The work covers three major areas: 1. descriptions of Chinese characters and their components, including stroke types, layout patterns, and indications of sound and meaning; 2. basic brush techniques; and 3. the social, cultural, historical, and philosophical underpinnings of Chinese calligraphy, all of which are crucial to understanding and appreciating this art form. Students practice brush writing as they progress from tracing to copying to free hand writing. Model characters are marked to indicate meaning and stroke order, and well-known model phrases are shown in various script types, allowing students to practice different calligraphic styles. Beginners will find the author's advice on how to avoid common pitfalls in writing brush strokes invaluable. *Chinese Writing and Calligraphy* will be welcomed by both students and instructors in need of an accessible text on learning the fundamentals of the art of writing Chinese characters. 中国书画函授大学肇庆分校, 2005 [A Self-study Course in Seal Script](#) 1998

Revised Ed Calvin Wilson Mateer, 1898 *Teaching Writing in Chinese Speaking Areas* Mark Shiu-Kee Shum, De-lu Zhang, 2005-11-23 One of the most civilized nations in history China has a long standing writing tradition and many Chinese texts have become world treasures However the way the Chinese teach writing in various countries in contemporary times is little known to the outside world especially in Western countries Undoubtedly the Chinese have had an established traditional method of writing instruction However recent social and political developments have created the perception amongst both practitioners and researchers of a need for change Whilst certain socio political changes both in Mainland China and in the territories acted as agents for reform of the teaching of composition the shape these reforms are taking has been due to many different influences coming both from inside the countries themselves and from foreign sources Mainland China Hong Kong Taiwan and Singapore have each developed their own approach to the teaching of composition
