Course Design For College Teachers:

Designing Courses For Higher Education Toohey, Susan, 1999-05-01 This book focuses not on teaching techniques but on the strategic decisions which must be made before a course begins It provides realistic advice for university and college teachers on how to design more effective courses without underestimating the complexity of the task facing course developers and offers course designers both an understanding and a framework within which to clarify their own teaching purposes

Course Design for University Lecturers Allen Horace Miller, 1987 This book is a guide for university and college lecturers who have no formal training in education It presents the basic theories of effective teaching and learning in a clear logical form and gives examples from university and college courses in a number of countries The book attempts to answer the following questions and in so doing provide a framework for course design and allow lecturers to evaluate their own programs Why is this course being taught What new knowledge skills or attitudes do I expect my students to develop during this course What levels of knowledge or skills do I expect in students when they enrol in this course For students to develop the attributes listed above what experiences do I need to provide for them during this course Assuming equivalent backgrounds on entry will all students benefit from essentially the same experiences in the course If students need to be offered a range of experiences what variation is possible given restraints on resources What resources are available for teaching this course Given the purposes of this course and the type of subject matter being learned is there a logical order for the treatment of topics How will I know whether this course is progressing satisfactorily How will I know whether this course has been successful and whether certain changes would improve it for future groups of students
