Courses In Courage Antioch College And The Social Sciences:

Courses in Courage Richard Couto, 2005 During the 1950s an extraordinary group of intellectuals entered social science and helped to remake both it and the larger social world Though they were exceptional individuals they were also the products of impressive social institutions One of the most important was Antioch College and it is on this formative environment for courage as well as creativity that the scholars writing in this book reflect Their essays are telling and stimulating They should be assigned to all undergraduates considering careers in social science and they will repay the attention of graduate students and professors Craig Calhoun President Social Science Research Council Antioch's interdisciplinary approach to the social sciences at mid century was remarkable Knowledge was to be constructed not learned Collaboration was encouraged Everyone was expected to do outstanding work Social goals and values were central to all of the discussions These papers and the remarkable careers of the authors illustrate the extraordinary power of this educational approach Mary Field Belenky 55 Co author of *Women's Ways of Knowing* and *A Tradition that Has No Name* This is a book for those teachers who see themselves as mentors and leaders Warren Bennis 50 Author of *On Becoming a Leader* Distinguished Professor of Management University of Southern California These Antiochians have kept their focus on the critical question for social scientists What do we want from democratic institutions William A Gamson 55 Author of *Talking Politics* Professor of Sociology Boston College The six contributors to this volume have achieved national and international acclaim for their scholarship They hold or have held prestigious positions at some of the best schools in the United States Earlier than other social scientists did they explored emerging areas of study such as gender equity political violence peace and conflict and shaped these areas for the current generation of social scientists and those to follow Their interdisciplinary problem centered and rigorous scholarship has brought them the accolades of their professional and other scholarly associations These six contributors came together on October 24 2003 at Antioch College as representatives of the post World War II period when Antioch was a nebula that fashioned intellectual cultural and political stars They reflected on their personal backgrounds their scholarship and the role that Antioch College had in building on the first and training for the second In these pages they speak to an element of the social sciences often ignored courage They address the place of values in social science the challenges they addressed in their careers and the challenge for future social scientists to continue interdisciplinary problem centered relevant and rigorous scholarship As we look at our own times and the dark firmament of preemptive warfare terrorist threats the erosion of the middle class the assault on civil liberties and current reduction of social guarantees for the well being of each other summarized by Garrison Kellier as the mean spirited betrayal of the common life these essays shine with a light of direction courage and hope Whatever the achievements of the contributors and they are large all of them would agree that their luster matters most if they inspire this and future generations of college students and their teachers to dare to hope that they may have some victory for humanity to write about fifty years hence

The Lincoln Library of Social Studies: Biography. Miscellany ,1969 **Post-secondary Education and the Disadvantaged** Carolyn Atkinson,Amitai Etzioni,Irene Tinker,1969 *The Amateur Hour* Jonathan Zimmerman,2020-10-27

The first full length history of college teaching in the United States from the nineteenth century to the present this book sheds new light on the ongoing tension between the modern scholarly ideal scientific objective and dispassionate and the inevitably subjective nature of day to day instruction American college teaching is in crisis or so we are told But we ve heard that complaint for the past 150 years as critics have denounced the poor quality of instruction in undergraduate classrooms Students daydream in gigantic lecture halls while a professor drones on or they meet with a teaching assistant for an hour of aimless discussion The modern university does not reward teaching so faculty members at every level neglect it in favor of research and publication In the first book length history of American college teaching Jonathan Zimmerman confirms but also contradicts these perennial complaints Drawing upon a wide range of previously unexamined sources *The Amateur Hour* shows how generations of undergraduates indicted the weak instruction they received But Zimmerman also chronicles institutional efforts to improve it especially by making teaching more personal As higher education grew into a gigantic industry he writes American colleges and universities introduced small group activities and other reforms designed to counter the anonymity of mass instruction They also experimented with new technologies like television and computers which promised to personalize teaching by tailoring it to the individual interests and abilities of each student But Zimmerman reveals the emphasis on the personal inhibited the professionalization of college teaching which remains ultimately an amateur enterprise The more that Americans treated teaching as a highly personal endeavor dependent on the idiosyncrasies of the instructor the less they could develop shared standards for it Nor have they rigorously documented college instruction a highly public activity which has taken place mostly in private Pushing open the classroom door *The Amateur Hour* illuminates American college teaching and frames a fresh case for restoring intimate learning communities especially for America s least privileged students Anyone who wants to change college teaching will have to start here **Official Report of the Proceedings of the Meeting** ,1874 **Report of the ...
