**Court, Cloister, & City** Thomas DaCosta Kaufmann, 1995      **The Holy Roman Empire, 1495-1806: A European Perspective**, 2012-07-25 In the early modern period the Holy Roman Empire or Reich was one of the oldest and largest European states Its importance was magnified by its location at the heart of the continent by the extensive international connections of its leading families and by the involvement of foreign rulers in its governance This book breaks new ground in its collective exploration of aspects of cross border and transnational interaction and of political and diplomatic social and cultural relations There are essays on important turning points especially 1648 and 1806 on the patterns of rulership of the emperors themselves on areas which lay on the margin of the Reich on neighbouring countries which interacted with the Empire and on visual and material culture Contributors are Wolfgang Burgdorf Olivier Chaline Heinz Duchhardt Jeroen Duindam Robert Evans Sven Externbrink Robert Frost Lothar H belt Thomas DaCosta Kaufmann Petr Mat a Nicolette Mout Thomas Munck G za P lffy Jaroslav P nek Adam Per akowski Friedrich Pollero Blythe Alice Raviola Peter Schr der Kim Siebenh ner Peter H Wilson and Thomas Winkelbauer      **Court, Cloister, and City** Thomas DaCosta Kaufmann, 1995 In this book Thomas DaCosta Kaufmann chronicles more than three hundred years of painting sculpture and architecture in Germany Poland the Czech Republic Slovakia Hungary Austria Ukraine Lithuania and western parts of the Russian Federation Massive in scale the book is highly accessible and lavishly illustrated The readability of the text and the entirely new insights it provides into three hundred years of Central European history make this a vital introduction to one of the least understood periods in the history of art      Pygmalion in Bavaria Christiane Hertel, Ignaz Günther, 2011 Examines the work of eighteenth century sculptor Ignaz G unther within the context of Bavarian Rococo art and Counter Reformation religious visual culture Provided by publisher      Creating Distinctions in Dutch Genre Painting Angela Ho, 2025-10-01 In the mid to late seventeenth century a number of Dutch painters created a new type of refined genre painting that was much admired by elite collectors In this book Angela Ho uses the examples of Gerrit Dou Gerard ter Borch and Frans van Mieris to show how this group of artists made creative use of repetition such as crafting virtuosic self referential compositions around signature motifs or engaging esteemed predecessors in a competitive dialogue through emulation to project a distinctive artistic personality The resulting paintings enabled purchasers and viewers to exercise their connoisseurial eye and claim membership in an exclusive circle of sophisticated enthusiasts making creative repetition a successful strategy for both artists and viewers Angela Ho shows how Dutch painters in the mid to late 17th century used repetition to project a distinctive artistic personality      *Aisha's Cushion* Jamal J. Elias, 2012-11-15 Westerners have a strong impression that Islam does not allow religious imagery Elias corrects this view Unearthing shades of meaning in Islamic thought throughout history he argues that Islamic perspectives on representation and perception should be sought in diverse areas such as optics alchemy dreaming vehicle decoration Sufi metaphysics      **Editing Music in Early Modern Germany** Susan Lewis

Hammond,2017-07-05 *Editing Music in Early Modern Germany* argues that editors played a critical role in the transmission and reception of Italian music outside Italy Like their counterparts in the world of classical learning Renaissance music editors translated texts and reworked settings from Venetian publications adapting them to the needs of northern audiences Their role is most evident in the emergence of the anthology as the primary vehicle for the distribution of madrigals outside Italy As a publication type that depended upon the judicious selection and presentation of material the anthology showcased editorial work Anthologies offer a valuable case study for examining the impact of editorial decision making on the cultivation of particular styles genres authors and audiences The book suggests that music editors defined the appropriation of Italian music through the same processes of adaptation transformation and domestication evident in the broader reception of Italy north of the Alps Through these studies Susan Lewis Hammond s work reassesses the importance of northern Europe in the history of the madrigal and its printing This book will be the first comprehensive study of editors as a distinct group within the network of printers publishers musicians and composers that brought the madrigal to northern audiences The field of Renaissance music printing has a long and venerable scholarly tradition among musicologists and music bibliographers This study will contribute to recent efforts to infuse these studies with new approaches to print culture that address histories of reading and listening patronage marketing transmission reception and their cultural and political consequences Picturing

German Antiquity in the Age of Print Rachel Carlisle,2025-10-01 *Picturing German Antiquity in the Age of Print Art Archaeology and the Style All antica in Early Modern Augsburg* examines the central role of print to local antiquarian pursuits and generation of a style all antica in early sixteenth century Augsburg Germany Working in the shadow of Holy Roman Emperor Maximilian I Augsburg s leading patrons including humanist Konrad Peutinger and the mercantile Fugger family documented local antiquities and commissioned new works of classicizing art and architecture visually asserting a genuine unbroken lineage to the city s past This study challenges earlier narratives by arguing that Augsburg s artists and printers did not directly copy Italian Renaissance models but instead manipulated the imported visual vocabulary according to local concerns The book brings together scholarly discourses on transalpine exchange scientific advancements in printmaking and reception of antiquity north of the Alps to offer a new understanding of art in early modern Augsburg and northern Europe at large *Church, State and Dynasty in Renaissance Poland* Natalia Nowakowska,2007 This book is the first comprehensive analysis of the career of cardinal prince Fryderyk Jagiellon the most powerful churchman in medieval or early modern Central Europe and offers a new interpretation of the evolving relationship between the Polish Cr

**Antiquarianism and the Visual Histories of Louis XIV** Robert Wellington,2017-07-05 *Antiquarianism and the Visual Histories of Louis XIV Artifacts for a Future Past* provides a new interpretation of objects and images commissioned by Louis XIV 1638 1715 to document his reign for posterity The Sun King s image makers based their prediction of how future historians would interpret the material remains of their culture on contemporary antiquarian methods creating new works of

art as artifacts for a future time The need for such items to function as historical evidence led to many pictorial developments and medals played a central role in this Coin like in form but not currency the medal was the consummate antiquarian object made in imitation of ancient coins used to study the past Yet medals are often elided from the narrative of the arts of ancient France their neglect wholly disproportionate to the cultural status that they once held This revisionary study uncovers a numismatic sensibility throughout the iconography of Louis XIV and in the defining monuments of his age It looks beyond the standard political reading of the works of art made to document Louis XIV's history to argue that they are the results of a creative process wedded to antiquarianism an intellectual culture that provided a model for the production of history in the grand siècle

*Toward a Geography of Art* Thomas DaCosta Kaufmann, 2004-03-14 Art history traditionally classifies works of art by country as well as period but often political borders and cultural boundaries are highly complex and fluid Questions of identity policy and exchange make it difficult to determine the place of art and often the art itself results from these conflicts of geography and culture Addressing an important approach to art history Thomas DaCosta Kaufmann's book offers essays that focus on the intricacies of accounting for the geographical dimension of art history during the early modern period in Europe Latin America and Asia *Toward a Geography of Art* presents a historical overview of these complexities debates contemporary concerns and completes its exploration with a diverse collection of case studies Employing the author's expertise in a variety of fields the book delves into critical issues such as transculturation of indigenous traditions mestizaje the artistic metropolis artistic diffusion transfer circulation subversion and center and periphery What results is a foundational study that establishes the geography of art as a subject and forces us to reconsider assumptions about the place of art that underlie the longstanding narratives of art history

*The Jesuits* John W. O'Malley, Gauvin Alexander Bailey, Steven J. Harris, T. Frank Kennedy, 2016-01-28 In recent years scholars in a range of disciplines have begun to re-evaluate the history of the Society of Jesus Approaching the subject with new questions and methods they have reconsidered the importance of the Society in many sectors including those related to the sciences and the arts They have also looked at the Jesuits as emblematic of certain traits of early modern Europeans especially as those Europeans interacted with the Other in Asia and the Americas Originating in an international conference held at Boston College in 1997 the thirty-five essays here reflect this new historiographical trend Focusing on the Old Society the Society before its suppression in 1773 by papal edict they examine the worldwide Jesuit undertaking in such fields as music art architecture devotional writing mathematics physics astronomy natural history public performance and education and they give special attention to the Jesuits' interaction with non-European cultures in North and South America China India and the Philippines A picture emerges not only of the individual Jesuit who might be missionary diplomat architect and playwright over the course of his life in the Society but also of the immense and many-faceted Jesuit enterprise as forming a kind of cultural ecosystem The Jesuits of the Old Society liked to think they had a way of proceeding special to themselves The question Was there a Jesuit

style a Jesuit corporate culture is the thread that runs through this interdisciplinary collection of studies Ambitious Form Michael W. Cole, 2022-07-12 Ambitious Form describes the transformation of Italian sculpture during the neglected half century between the death of Michelangelo and the rise of Bernini The book follows the Florentine careers of three major sculptors Giambologna Bartolomeo Ammanati and Vincenzo Danti as they negotiated the politics of the Medici court and eyed one another's work setting new aims for their art in the process Only through a comparative look at Giambologna and his contemporaries it argues can we understand them individually or understand the period in which they worked Michael Cole shows how the concerns of central Italian artists changed during the last decades of the Cinquecento Whereas their predecessors had focused on specific objects and on the particularities of materials late sixteenth century sculptors turned their attention to models and design The iconic figure gave way to the pose individualized characters to abstractions Above all the multiplicity of master crafts that had once divided sculptors into those who fashioned gold or bronze or stone yielded to a more unifying aspiration as nearly every ambitious sculptor whatever his training strove to become an architect A Companion to the Catholic Enlightenment in Europe Ulrich L. Lehner, Michael O'Neill Printy, 2010 This book offers the first comprehensive overview of the Catholic Enlightenment in Europe It surveys the diversity of views about the structure and nature of the movement pointing toward the possibilities for further research The volume presents a series of comprehensive treatments on the process and interpretation of Catholic Enlightenment in France Spain Portugal Poland the Holy Roman Empire Malta Italy and the Habsburg territories An introductory overview explores the varied meanings of Catholic Enlightenment and situates them in a series of intellectual and social contexts The topics covered in this book are crucial for a proper understanding of the role and place not only of Catholicism in the eighteenth century but also for the social and religious history of Modern Europe Beyond the Battlefield Tryntje Helfferich, Howard Louthan, 2023-12-22 This volume draws together an international team of scholars to explore the experience and significance of early modern European continental warfare from an interdisciplinary perspective Individual essays add to the lively fields of War and Society and the New Military History by combining the history of war with political and diplomatic history the history of religion social history economic history the history of ideas the history of emotions environmental history art history musicology and the history of science and medicine The contributors address how warfare was entwined with European learning culture and the arts but also examine the ties between warfare and ideas or ideologies and offer new ways of thinking about the costs and consequences of war In addition to its interdisciplinarity the volume is distinctive in including chapters focused not only on Western and Central Europe but also the often ignored European peripheries such as the Baltics and the Russian frontier Scandinavia and the Habsburg Ottoman borderlands of Southeastern Europe As a whole the volume offers readers interesting alternatives and threads for reconsidering the place and meaning of warfare within the larger history of early modern continental Europe This book will be valuable for general readers undergraduate and graduate students and scholars

interested in military early modern and European history      *Europa Triumphans* J. R. Mulryne, Helen Watanabe-O'Kelly, Margaret Shewring, Sarah Knight, 2010-02 A landmark in the study of early modern Europe this two volume collection makes available for the first time a selection of the most important texts from court and civic festival books Festival entertainments were presented to mark such occasions as royal and ducal entries to capital cities dynastic marriages the birth and christening of heirs religious feasts and royal and ducal funerals *Europa Triumphans* represents the chronological and trans European range of the court and civic festival These festivals are considered not simply as texts but as events and are introduced by groups of scholars each with a specialist knowledge of the political social and cultural significance of the festival and of the iconography spectacle music dance voice and gesture in which they were expressed To demonstrate the geographic spread and political significance of festivals and to illustrate the range of aesthetic languages they deploy the festivals included in these two volumes are grouped in the following sections Henri III Genoa Poland Lithuania The Netherlands The Protestant Union La Rochelle Scandinavia and The New World These texts provide many valuable insights into the variety of political systems and historical circumstances that formed them Beautifully produced with 148 black and white and 23 colour illustrations *Europa Triumphans* represents an invaluable reference source for the study of early modern Europe It presents texts both in transcription and translated into English and is supplemented with introductory essays and commentaries *Europa Triumphans* is co published by Ashgate and the Modern Humanities Research Association in conjunction with the AHRB Centre for the Study of the Renaissance at the University of Warwick UK      **Painterly Enlightenment** Thomas DaCosta Kaufmann, 2005 Kaufmann situates Maulbertsch as a fresco painter at a time of transition to easel painting a colorist at a time when color was not fully appreciated by contemporary observers and an interpreter of religious themes at a time when secular subjects were becoming more popular Although he has been dismissed as an eccentric by previous scholars Kaufmann's analysis shows Maulbertsch involved in the intellectual and aesthetic issues of his day **BOOK JACKET**      *A Cloister on Trial* Gabriella Erdélyi, 2016-03-09 In 1517 the usually tranquil friary in the Hungarian town of Krmend found itself at the centre of controversy when its Augustinian friars charged with drunkenness sexual abuses and liturgical negligence were driven out and replaced with observant Franciscans The agent of change in this conflict cardinal Thomas Bakcz claimed to be acting in the name of cloister reform motivated by a religious agenda while the Augustinians portrayed themselves as the victims of a political game Based on the surviving interrogations of a papal enquiry into these events this book illuminates the tensions and potential conflict that lurked within the religious culture of a seemingly unremarkable and remote town The story of the friary trial of Krmend provides a fascinating window into religion and society of Europe at the dawn of the Reformation investigating the processes by which ordinary people emerge as historical agents from the written records By focussing on their experiences as represented in the trial documents the book reveals the spaces and borders of individual and communal action within the dynamic of lay clerical relations negotiated in a

friary reform at the beginning of the 16th century Furthermore the moral nature of the accusations levelled at the Augustinians and whether these were justified or instigated for political reasons offers further insights into the nature of late medieval Catholicism and the claims of Protestant reformers

**Exuberant Apotheoses: Italian Frescoes in the Holy Roman Empire** Daniel Fulco, 2016-04-01 From the late seventeenth through the mid eighteenth centuries large scale Italian frescoes soared in popularity as nobles in the German principalities of the Holy Roman Empire constructed new palaces at an unprecedented rate They competed with one another to produce lavish decorative schemes that expressed their claim to princely power and political authority Whereas previous art historians have primarily focused on iconographic and stylistic issues and generally treated these programs as individual commissions of regional courts this book places the works of art within their broad cultural and historical contexts during the Enlightenment This monograph explains how rulers gradually shifted from emphasizing military heroism to stressing their cultivation of the arts and sciences and addresses how expressing membership in a specifically European civilization emerged as an integral visual theme and a key ambition of the German nobility

*The First Modern Museums of Art* Carole Paul, 2012-11-16 In the eighteenth and early nineteenth centuries the first modern public museums of art civic state or national appeared throughout Europe setting a standard for the nature of such institutions that has made its influence felt to the present day Although the emergence of these museums was an international development their shared history has not been systematically explored until now Taking up that project this volume includes chapters on fifteen of the earliest and still major examples from the Capitoline Museum in Rome opened in 1734 to the Alte Pinakothek in Munich opened in 1836 These essays consider a number of issues such as the nature display and growth of the museums collections and the role of the institutions in educating the public The introductory chapters by art historian Carole Paul the volume's editor lay out the relationship among the various museums and discuss their evolution from private noble and royal collections to public institutions In concert the accounts of the individual museums give a comprehensive overview providing a basis for understanding how the collective emergence of public art museums is indicative of the cultural social and political shifts that mark the transformation from the early modern to the modern world The fourteen distinguished contributors to the book include Robert G W Anderson former director of the British Museum in London Paula Findlen Ubaldo Pierotti Professor of Italian History at Stanford University Thomas Gaehtgens director of the Getty Research Institute and Andrew McClellan dean of academic affairs and professor of art history at Tufts University [Show more](#) [Show less](#)
