Court Reform And Judicial Leadership:

Court Reform and Judicial Leadership Paul B. Wice, 1995-03-18 This study examines judicial leadership in court reform tying biography political science social psychology law and history into court reform at the local level through the case of a nationally known jurist and reformer Judge George Nicola of New Jersey The work provides an important examination in depth and over time of true leadership in the courts and of the exceptionally innovative programs developed by Judge Nicola The author also addresses two fundamental issues which lie at the heart of court reform and judicial leadership the perplexing question of whether a judicial system so bound by tradition as that of the United States can be changed from within and whether judicial leadership provides the best and most fruitful opportunity for changing this institution This volume will be of interest to scholars of political science American government the judiciary and the practice of law

Judiciary-led Reforms in Singapore Waleed Haider Malik, 2007-01-01 While each country's judiciary is unique in its individual needs capabilities and contexts the lessons learned from Singapore's success can help guide judicial reform initiatives regionally as well as globally No one would suggest that Singapore's strategy is a magic formula that if followed can erase the inefficiencies of all judiciaries But it would be wise to examine the strategies used and lessons learned from Singapore's experience as a potential guide towards successful and sustainable judicial reform

Judicial Leadership Ernest Ryder, Stephen Hardy, 2019-06-20 We live in an era of economic austerity and political uncertainty This has profound implications for all areas of publicly funded services the justice system is no exception During such times the judiciary must remain steadfast in maintaining their independence irrespective of any funding model Professor Hardy and Sir Ryder set out a vision for the Justice system that takes a strategic approach to the legal system explicitly based on national self interest and commercial effectiveness They argue that in striving for such a strategic approach to the justice system there should not be separate access to justice and business reliance on the Rule of Law as if they are separate worlds The authors advocate an approach enabling access to justice to be efficient as well as effective evidence based and founded on solid analysis of needs and capabilities This new strategic approach would therefore be to ensure that the Judiciary as one judiciary is equipped and skilled as proficiently as it possible and as aligned and as effective in its leadership The authors bring unique expertise to the pursuit of one judiciary carefully and thoroughly analysing how such a system would work in theory and in practice This revolutionary monograph promises to be a defining text in the field of judicial leadership It is essential reading for all Judicial Office Holders legal policy makers legal practitioners and academics and for all those with an interest in human resources business and management psychology and law

Administering Justice Richard L. Vining, Teena Wilhelm, 2023-08-22 Administering Justice examines the leadership role of chief justices in the American states including how those duties require

chief justices to be part of the broader state political environment Vining and Wilhelm focus extensively on the power of chief justices as public spokespersons legislative liaisons and reform leaders In contrast to much existing research on chief justices in the states this study weighs their extrajudicial responsibilities rather than intracourt leadership By assessing the content of State of the Judiciary remarks delivered over a period of sixty years Vining and Wilhelm are able to analyze the reform agendas advanced by chief justices and determine what factors influence the likelihood of success These analyses confirm that chief justices engage with state politics in meaningful ways and that reactions to their proposals are influenced by ideological congruence with other political elites and the scope of their requests Administering Justice also examines the chief justice position as an institution provides a collective profile of its occupants and surveys growing diversity among court leaders

The End of Family Court Jane M. Spinak,2025-08-05 Explores the failures of family court and calls for immediate and permanent change At the turn of the twentieth century American social reformers created the first juvenile court They imagined a therapeutic court where informality specially trained public servants and a kindly all knowing judge would assist children and families But the dream of a benevolent means of judicial problem solving was never realized A century later children and families continue to be failed by this deeply flawed court The End of Family Court rejects the foundational premise that family court can do good when intervening in family life and challenges its endless reinvention to survive Jane M Spinak illustrates how the procedures and policies of modern family court are deeply entwined in a heritage of racism a profound disdain for poverty and assimilationist norms intent on fixing children and families who are different And the court s interventionist goals remain steeped in an approach to equity and well being that demands individual rather than collective responsibility for the security and welfare of families Spinak proposes concrete steps toward abolishing the court shifting most family supports out of the court s sphere vastly reducing the types and number of matters that need court intervention and ensuring that any case that requires legal adjudication has the due process protections of a court of law She calls for strategies that center trusting and respecting the abilities of communities to create and sustain meaningful solutions for families An abolitionist approach in turn celebrates a radical imagination that embraces and supports all families in a fair and equal economic and political democracy

Democratization and the Judiciary Roberto Gargarella,Siri Gloppen,Elin Skaar,2004-03 This title examines the political role of courts in new democracies in Latin America and Africa focusing on their ability to hold political power holders accountable when they act outside their constitutionally defined powers The book also issues a warning there are problems inherent in the current global move towards strong constitutional government where increasingly strong powers are placed in the hands of judges who themselves are not made accountable

The Communist Judicial System in China, 1927-1976 Qiang Fang,2025-10-01 Drawing on hundreds of newly released judicial archives and court cases this book analyzes the communist judicial system in China from its founding period to the death of Mao Zedong It argues that the communist judicial system was built when the CCP was engaged in a life or death struggle with the GMD meaning that the overriding aim of the judicial system was from the outset to safeguard the Party against both internal and external adversaries This fundamental insecurity and perennial fear of loss of power obsessed the Party throughout the era of Mao and beyond prompting it to launch numerous political campaigns which forced communist judicial cadres to choose between upholding basic legal norms and maintaining Party order In doing all of this The Communist Judicial System in China 1927 1976 Building on Fear fills a major lacuna in our understanding of communist era China
