The coventry option Anthony Burton,1979 **Geometry and Atmosphere** C. Alan Short,Peter Barrett,Alistair Fair,Monty Sutrisna,2016-12-05 Drawing on detailed design construction and financial histories of six prominent Performing Arts buildings with budgets ranging from 3 4 million to over 100 million Geometry and Atmosphere presents unique and valuable insights into the complex process of building for the arts Each theatre project from tailor made spaces for avant garde companies to iconic and innovative receiving houses yields surprising and counter intuitive findings For each of the six projects the authors have interviewed all those involved Combining these interviews with exhaustive archival research the authors then provide cross case analysis which is distilled into guidance for all stakeholders as they transform their initial vision into built reality In particular the book challenges the technical focus of existing design guides for the Performing Arts by suggesting that current practice in briefing and design does not serve the Arts community especially well It shows that there is a need for an approach in which the focus is firmly rooted in the delivery of the driving artistic vision As well as being of interest to architects urban designers and those involved in theatre studies this book will be useful to other sectors where public money is spent on major building projects Coventry (England) , **Operational Tools in the Management of Financial Risks** Constantin Zopounidis,1998-01-31 This book presents a set of new innovative mathematical modeling tools for analyzing financial risk Operational Tools in the Management of Financial Risks presents an array of new tools drawn from a variety of research areas including chaos theory expert systems fuzzy sets neural nets risk analysis stochastic programming and multicriteria decision making Applications cover but are not limited to bankruptcy credit granting capital budgeting corporate performance and viability portfolio selection management and country risk The book is organized into five sections The first section applies multivariate data and multicriteria analyses to the problem of portfolio selection Articles in this section combine classical approaches with newer methods The second section expands the analysis in the first section to a variety of financial problems business failure corporate performance and viability bankruptcy etc The third section examines the mathematical programming techniques including linear dynamic and stochastic programming to portfolio managements The fourth section introduces fuzzy set and artificial intelligence techniques to selected types of financial decisions The final section explores the contribution of several multicriteria methodologies in the assessment of country financial risk In total this book is a systematic examination of an emerging methodology for managing financial risk in business **Spy Fiction, Spy Films and Real Intelligence** Wesley K. Wark,2013-09-13 This book won the Canadian Crime Writers Arthur Ellis Award for the Best Genre Criticism Reference book of 1991 This collection of essays is an attempt to explore the history of spy fiction and spy films and investigate the significance of the ideas they contain The volume offers new insights into the development and symbolism of British spy fiction Catalog of Copyright Entries.
