The Millennial Detective Malcah Effron, 2011-10-10 International in scope and varied in its theoretical approaches this collection of ten new critical essays examines the prevailing trends in recent crime fiction Of particular interest are shifting and increasingly globalized conceptions of crime as well as the genre's response to technological legal and social changes at the end of the 20th century Employing critical tools new to crime fiction studies the essays also gesture toward a future for genre scholarship

British Women Writing Fiction Abby H.P. Werlock, 2000-02-09 Original essays by American and British scholars offer a reader friendly introduction to the work of Angela Carter Doris Lessing and a dozen other British women writers British women in the second half of the 20th century have produced a body of work that is as diverse as it is entertaining This book offers an informal jargon free introduction to the fiction of sixteen contemporary writers either brought up or now living in England from Muriel Spark to Jeanette Winterson British Women Writing Fiction presents a balanced view comprising women writing since the 1950s and 1960s those who attracted critical attention during the 1970s and 1980s and those who have burst upon the literary scene more recently including African Caribbean and African women The essays show how all of these writers treat British subjects and themes sometimes from radically different perspectives and how those who are daughters of immigrants see themselves as women writing on the margins of society Abby Werlock's introduction explores the historical and aesthetic factors that have contributed to the genre showing how even those writers who began in a traditional vein have created experimental work The contributors provide complete bibliographies of each writer's works and selected bibliographies of criticism Exceptional both in its breadth of subjects covered and critical approaches taken this book provides essential background that will enable readers to appreciate the singular merits of each writer It offers an approach toward better understanding favorite authors and provides a way to become acquainted with new ones

Kim,2014-04-04 The crime fiction world of the late 1970s with its increasingly diverse landscape is a natural beginning for this collection of critical studies focusing on the intersections of class culture and crime each nuanced with shades of gender ethnicity race and politics The ten new essays herein raise broad and complicated questions about the role of class and culture in transatlantic crime fiction beyond the Golden Age How is class understood in detective fiction other than as a socioeconomic marker Can we distinguish between major British and American class concerns as they relate to crime How politically informed is popular detective fiction in responding to economic crises in Scotland Ireland England and the United States When issues of race and gender intersect with concerns of class and culture does the crime writer privilege one or another factor Do values and preoccupations of a primarily middle class readership get reflected in popular detective fiction
