confronting Australian journalists and strategic communicators both at home and internationally and offers a suite of reflective techniques for navigating them. It starts by positioning morals, ethics and the law in their historical and philosophical frameworks by tracing the evolution of free expression and professional media ethics. Media law and ethics are then contextualized in their modern international human rights framework. Readers are equipped with a skill set for reflecting on the law and ethics of professional media dilemmas including mindful reflection, the Potter Box journaling concept, mapping and discussion. Such approaches are then applied to key topic areas including free expression, reputation, confidentiality, privacy, justice, intellectual property, national security, discrimination and harassment and conflicted interests. Each is examined in terms of its philosophical underpinnings, relationship to human rights, professional ethical context, international examples, legal principles, key Australian laws, legal cases and strategies for applying reflective practice techniques. It concludes on a confident note imploring communicators to engage in constructive and mindful strategic communication with the authority and confidence that results from a working knowledge of media law and ethics. This handbook is for professional communicators and students in all fields but particularly in journalism, public relations, corporate communication, media relations and marketing.
