Education John A. Malone,Bill Atweh,Jeffrey Northfield,Jeff Northfield,2013-11-26 Research and Supervision in Mathematics and Science Education provides student researchers and their supervisors with information about both the essentials of planning conducting reporting and publishing qualitative research and the characteristics of quality supervision It is focused primarily for postgraduate research students in mathematics and science education and their supervisors It will also be of interest to students and faculty in other disciplines that use educational and sociological research paradigms The volume builds on two phenomena of recent years first the increasing momentum of postgraduate research in mathematics and science education and second the resulting need of those involved for knowledge about doing research and about engaging in quality supervision The decision to address both research and supervision in one volume is a response to the fact that faculty who supervise postgraduate research often are in need of resources covering not only aspects of project and thesis supervision but also the knowledge to assist students in research design especially in the qualitative field Drawing on recent

research and practice the authors of the chapters in this book illustrate approaches and strategies that have been used successfully with and by postgraduate students The book also has a strong future orientation describing how postgraduate supervision and research will change as more and more students gain access to and make use of the vast array of technological resources now available A necessary and unique addition to books in the field of postgraduate research and supervision this volume s particular appeal stems from its practical approach its creative future perspective and the wide generalizability of the thinking and ideas it presents Cumulative List of Organizations Described in Section 170 (c) of the Internal Revenue Code of 1986 ,1993 **Applied Research for Sustainable Change** Sharon M. Ravitch,Nicole

Mittenfelner Carl,2019 In *Applied Research for Sustainable Change* Sharon M Ravitch and Nicole Mittenfelner Carl draw on twenty years of teaching and research to offer an incisive guide to practitioner led qualitative research They make the case for local knowledge generation inquiry based school level research that can contextualize quantitative data enrich insight and guide leaders in making more effective decisions leading to sustainable organizational change The authors offer a framework for conducting applied research that connects practitioner research to theories of transformational leadership and professional development They show how to align research studies with the school s mission and context and offer step by step guidance on forming a research team designing the research project collecting and analyzing data and formulating sharing and acting on results In each chapter they draw on examples provided by education leaders who have participated in their courses This book provides an invaluable resource for empowering education leaders at a time when their professional judgment is often circumscribed or dismissed A central theme of the book is the power of participatory research to counter simplistic often deficit based narratives about patterns of student achievement and to foster transformational sustainable change Sharon M Ravitch is a professor of practice at the University of Pennsylvania s Graduate School of Education Nicole Mittenfelner Carl is a postdoctoral fellow in the Teaching Learning and Leadership Division at the University of Pennsylvania Graduate School of Education **Science Education Research and Practices in Taiwan** Mei-Hung Chiu,2015-08-04 This book highlights the development and outcomes of research on and practical experience in science education in Taiwan As the outcomes of the scholarship on science education in Taiwan have garnered attention in science education communities around the world this book gathers the most relevant research on Taiwan presenting it in a cohesive overview that will move science education forward in terms of policy research and practice Reconstructing Teacher Education John Elliott,1993
