Approximate Man And Other Writings:

Approximate Man, and Other Writings Tristan Tzara, 1973 Poet critic Tristan Tzara brilliant founder of the Dada movement is just beginning to receive the attention he has long deserved both in France and in English speaking countries Very little of his writing has been available in English translation and much of it has long been out of print in France This volume a major critical anthology of Tzara s work in English contains a broad selection of his writings representing the many sides of his creative output the poetic including his free verse catalog and collage poems prose poems epic the dramatic the critical and the declamatory It includes the great Dada surrealist poetic epic of 1925 30 *Approximate Man* remarkable for its inner variety and its ambitious theme and oriented toward the human and the natural as the Dada were oriented toward deliberate artifice and the antihuman Tzara s essays on poetry and art invaluable for correcting the still prevalent opinion that Dada was totally negative also demonstrate the violence of style and impact that carries over into his later meditations on language and dream Selections are included from early rudimentary Dada plays from *Cloud Handkerchief* the ironic and romantic collage epic based on Hamlet and from the lyric monologue *Flight* The accompanying introduction examines Tzara s changing styles concerns and commitments as well as the epic poem that is his masterpiece Notes are provided for the text Most valuable for the scholar is an account of the more interesting variants taken from the enormous mass of Tzara s manuscripts Finally the combination of spontaneity with poetic effort of definite themes and centers of interest lend particular scope to the collection which is at once essay critical presentation and anthology **Tristan Tzara;**

Approximate Man and Other Writings ,1973 **Manifesto** Mary Ann Caws, 2001-01-01 The first anthology of its kind *Manifesto* features over two hundred artistic and cultural manifestos from a wide range of countries The manifesto a public statement that sets forth the tenets of a forthcoming existing or potential movement or ism or that plays on the idea of one became in various modernisms a crucial and forceful vehicle for artists writers and other intellectuals to express their ideas about the direction of aesthetics and society Included in this collection are texts ranging from Kurt Schwitters s *Cow* Manifesto to those written in the name of well known movements imagism cubism surrealism symbolism vorticism projectivism and less well known ones lettrism acmeism concretism rayonism Also covered are expressionist Dada and futurist movements from French Italian Russian Spanish and Latin American perspectives as well as local movements such as Brazilian hallucinism Influential startling unsettling amusing and continually engaging these modernist manifestos give voice to a fascinating array of ideas and opinions that will prove invaluable to scholars and students of nineteenth and twentieth century art literature and culture *Gertrude Stein's Surrealist Years* Ery Shin, 2020-06-23 Examineshow surrealism enriches our understanding of Stein s writing through its poetics of oppositions Gertrude Stein s *Surrealist Years* brings to life Stein s surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti-Semitism Stein s earlier works such as *Tender Buttons* and *Lucy Church* Amiably tend to prioritize formal innovations

over narrative building and overt political motifs However Ery Shin argues that Stein's later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with *The Autobiography of Alice B Toklas* and continuing in later works Stein renders legible her war torn era's jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgangers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein's return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein's art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler's Europe how outliers like Stein can be included in the surrealist project surrealism's theoretical bind in the face of WWII and the age old question of artistic legacy

Present is a comprehensive introduction to 20th and 21st century world poets and their most famous most distinctive and most influential poems **Dada Surrealism** ,1978 *DADA, Surrealism, and the Cinematic Effect* R. Bruce Elder,2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema s lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film s provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media s materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author s previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema *A Companion to Modernist Literature and Culture* David Bradshaw,Kevin J. H. Dettmar,2008-10-20 The Companion combines a broad grounding in the essential texts and contexts of the modernist movement with the unique insights of scholars whose careers have been devoted to the study of modernism An essential resource for students and teachers of modernist literature and culture Broad in scope and comprehensive in coverage Includes more than 60 contributions from some of the most distinguished modernist scholars on both sides of the Atlantic Brings together entries on elements of modernist culture contemporary intellectual and aesthetic movements and all the genres of modernist writing and art Features 25 essays on the signal texts of modernist literature from James Joyce s *Ulysses* to Zora Neal Hurston s *Their Eyes Were Watching God* Pays close attention to both British and American modernism **Dada and beyond** Elza Adamowicz,Eric Robertson,2011 This collection of critical essays celebrates the subversive and challenging creativity of the Dada movement born in pacifist Zurich in 1916 in violent reaction to the First World War It examines the collective and individual activities that took place under the name of Dada in Zurich Cologne Berlin Paris New York and Barcelona and explores the various creative forms employed including text collage photomontage objects dance performance and film The authors suggest new ways of understanding the work of the most famous Dadaists while also casting light on the contribution of hitherto neglected figures Far from attempting to reduce Dada to a homogeneous movement or to define a unifying principle beneath and beyond the multiple directions taken by Dadaists this collection aims to respect the diversity and heterogeneity of the movement s collective activities as well as the specificity of its individual actors **Surrealism, Science Fiction and Comics** Gavin Parkinson,2015-05-05 The first book to look at the relationship either between Surrealism and Science Fiction or between Surrealism and comics **The Poetics of Space and Place in Scottish Literature** Monika Szuba,Julian

Wolfreys,2019-04-01 This book addresses the poetics of space and place in Scottish literature Focusing chiefly on twentieth and twenty first century texts with acknowledgement of historical and philosophical contexts the essays address representation narrative form the work of the poetic perception and experience Major genres and forms are discussed and authors as diverse as George Mackay Brown Kathleen Jamie Ken McLeod and Kei Miller are presented through theoretically informed historically contextualized close readings Additionally considering the role of dialect and region in the poetry and fiction of modern Scotland the volume argues for an appreciation of the cultural diversity of Scottish writers while highlighting the overarching presence of a connection between self and world subject and place within Scottish literature

and eccentric life infuses each critical essay with the human passions that these essential modernists lived From Dickinson and Mallarm to Duchamp and Mina Loy Caws applies the art of close looking to shrewdly framed slices of the modernist experience

Rethinking the Power of Maps Denis Wood, 2010-04-16 A contemporary follow up to the groundbreaking *Power of Maps* this book takes a fresh look at what maps do whose interests they serve and how they can be used in surprising creative and radical ways Denis Wood describes how cartography facilitated the rise of the modern state and how maps continue to embody and project the interests of their creators He demystifies the hidden assumptions of mapmaking and explores the promises and limitations of diverse counter mapping practices today Thought provoking illustrations include U S Geological Survey maps electoral and transportation maps and numerous examples of critical cartography participatory GIS and map art
