Approximate Man And Other Writings Approximate Man And Other Writings:

Approximate Man, and Other Writings Tristan Tzara, 1973 Poet critic Tristan Tzara brilliant founder of the Dada movement is just beginning to receive the attention he has long deserved both in France and in English speaking countries Very little of his writing has been available in English translation and much of it has long been out of print in France This volume a major critical anthology of Tzara's work in English contains a broad selection of his writings representing the many sides of his creative output the poetic including his free verse catalog and collage poems prose poems epic the dramatic the critical and the declamatory It includes the great Dada surrealist poetic epic of 1925-30 *Approximate Man* remarkable for its inner variety and its ambitious theme and oriented toward the human and the natural as the Dada were oriented toward deliberate artifice and the antihuman Tzara's essays on poetry and art invaluable for correcting the still prevalent opinion that Dada was totally negative also demonstrate the violence of style and impact that carries over into his later meditations on language and dream Selections are included from early rudimentary Dada plays from *Cloud Handkerchief* the ironic and romantic collage epic based on Hamlet and from the lyric monologue *Flight* The accompanying introduction examines Tzara's changing styles concerns and commitments as well as the epic poem that is his masterpiece Notes are provided for the text Most valuable for the scholar is an account of the more interesting variants taken from the enormous mass of Tzara's manuscripts Finally the combination of spontaneity with poetic effort of definite themes and centers of interest lend particular scope to the collection which is at once essay critical presentation and anthology **Tristan Tzara;**

Approximate Man and Other Writings, 1973 **Manifesto** Mary Ann Caws, 2001-01-01 The first anthology of its kind *Manifesto* features over two hundred artistic and cultural manifestos from a wide range of countries The manifesto a public statement that sets forth the tenets of a forthcoming existing or potential movement or ism or that plays on the idea of one became in various modernisms a crucial and forceful vehicle for artists writers and other intellectuals to express their ideas about the direction of aesthetics and society Included in this collection are texts ranging from Kurt Schwitters's *Cow Manifesto* to those written in the name of well known movements imagism cubism surrealism symbolism vorticism projectivism and less well known ones lettrism acmeism concretism rayonism Also covered are expressionist Dada and futurist movements from French Italian Russian Spanish and Latin American perspectives as well as local movements such as Brazilian hallucinism Influential startling unsettling amusing and continually engaging these modernist manifestos give voice to a fascinating array of ideas and opinions that will prove invaluable to scholars and students of nineteenth and twentieth century art literature and culture *Gertrude Stein's Surrealist Years* Ery Shin, 2020-06-23 Examines how surrealism enriches our understanding of Stein's writing through its poetics of oppositions *Gertrude Stein's Surrealist Years* brings to life Stein's surrealist sensibilities and personal values borne from her WWII anxieties not least of which originated in a dread of anti-Semitism Stein's earlier works such as *Tender Buttons* and *Lucy Church* amiably tend to prioritize formal innovations

over narrative building and overt political motifs However Ery Shin argues that Stein s later works engage more with storytelling and life writing in startling ways most emphatically and poignantly through the surrealist lens Beginning with The Autobiography of Alice B Toklas and continuing in later works Stein renders legible her war torn era s jarring dystopian energies through narratives filled with hallucinatory visions teleportation extreme coincidences action reversals doppelgangers dream sequences spanning both sleeping and waking states and great whiffs of the occult Such surrealist gestures are predicated on Stein s return to the independent clause and by extension to plot characterization and anecdotes By summoning the marvelous in a historically situated world Stein joins her surrealist contemporaries in their own ambivalent crusade on behalf of historiography Besides illuminating Stein s art and life the surrealist framework developed here brings readers deeper into those philosophical ideas invoked by war Topics of discussion emphasize how varied Jewish experiences were in Hitler s Europe how outliers like Stein can be included in the surrealist project surrealism s theoretical bind in the face of WWII and the age old question of artistic legacy *Catalog of Copyright Entries. Cinematic Effect R. Bruce Elder, 2015-10-15 This book deals with the early intellectual reception of the cinema and the manner in which art theorists philosophers cultural theorists and especially artists of the first decades of the twentieth century responded to its advent While the idea persists that early writers on film were troubled by the cinema's lowly form this work proposes that there was another largely unrecognized strain in the reception of it Far from anxious about film's provenance in popular entertainment some writers and artists proclaimed that the cinema was the most important art for the moderns as it exemplified the vibrancy of contemporary life This view of the cinema was especially common among those whose commitments were to advanced artistic practices Their notions about how to recast the art media or the forms forged from those media's materials and the urgency of doing so formed the principal part of the conceptual core of the artistic programs advanced by the vanguard art movements of the first half of the twentieth century This book a companion to the author's previous *Harmony Dissent* examines the Dada and Surrealist movements as responses to the advent of the cinema

Rethinking the Power of Maps Denis Wood, 2010-04-16 A contemporary follow up to the groundbreaking *Power of Maps* this book takes a fresh look at what maps do whose interests they serve and how they can be used in surprising creative and radical ways Denis Wood describes how cartography facilitated the rise of the modern state and how maps continue to embody and project the interests of their creators He demystifies the hidden assumptions of mapmaking and explores the promises and limitations of diverse counter mapping practices today Thought provoking illustrations include U S Geological Survey maps electoral and transportation maps and numerous examples of critical cartography participatory GIS and map art
