Martin O'Brien, 2012-11-12 This book takes a measured look at the crisis of waste in modern society and it does so historically sociologically and critically It tells stories about past and present crises of waste and puts them in their appropriate social and industrial contexts From Charles Dickens to Don DeLillo from the internal combustion engine to fish fingers from kitchen grease to the Tour de France this book digs deep into society's dust piles and emerges with untold treasures of the imagination April is the Cruellest Month Jon Robert Tully, 1971 **The Seasons** Luke Fischer, David Macauley, 2021-07-01 Although the seasons have been a perennial theme in literature and art their significance for philosophy and environmental theory has remained largely unexplored This pioneering book demonstrates the ways in which inquiry into the seasons reveals new and illuminating perspectives for philosophy environmental thought anthropology cultural studies aesthetics poetics and literary criticism The Seasons opens up new avenues for research in these fields and provides a valuable resource for teachers and students of the environmental humanities The innovative essays herein address a wide range of seasonal cultures and geographies from the traditional Western model of the four seasons spring summer fall and winter to the Indigenous seasons of Australia and the Arctic Exemplifying the crucial importance of interdisciplinary research The Seasons makes a compelling case for the relevance of the seasons to our daily lives scientific understanding diverse cultural practices and politics **T. S. Eliot Between Two Worlds** David Ward, 2015-12-22 The basis of this critical examination of Eliot's work first published in 1973 is the investigation of his transmutation of this and other philosophical mythological and religious motives into the textures of his verse This book focuses on Eliot's peculiar eclectic approach to what he described as the Tradition It also recognises the fact that Eliot for all his attempts at universality was a product of time and place and gives an account of the way in which his education and experience shaped his most important interests This title will be of interest to students of literature **The Image of Modern Man in T. S. Eliot's Poetry** Mariwan Nasradeen Hasan Barzinji, 2012 A Synopsis of The Image of Modern Man in T S Eliot's Poetry The book presents an original understanding of The Image of Modern Man in T S Eliot's complex and difficult poems in an easy and understandable way Eliot's vision of the Modern Man and the modern world is

depicted throughout Eliot's most well known poems Eliot was criticized by some critics for the quality of his work The aim of this book is to show what an excellent and successful writer he is to reveal the value and the contemporaneity of his work His poetry is highly evaluated for its unique way of depicting the Modern human by realizing their problems as well as finding solutions for them The book is a great help not only for students but also for researchers as the writer has spent much time in reading Eliot's Poems He has also written an ample introduction about modernism modernity modern literature and modern poetry which might be enough to understand the rise of modern poetry All of Eliot's poems especially *The Waste Land* has presented readers with all the aspects of the modern life Life is depicted as a mirror broken and shattered into pieces as it is clear in the different parts of the poem Eliot unlike many poets did not leave the modern man lost in despair but he finds them their peace of mind by having a true and stable faith as well as their turning to God The only solution for the entire problems of modern man is to turn to God and neglect the world that completely occupied them spiritually Modern man lost has lost his values especially women by only looking after children many of them turned to prostitution because they did not have any source of income therefore they used that as a way to earn money to maintain life These are the characteristics of the modern city which are shared by all the countries especially Europe Eliot insists on the necessity of turning from world to God He believed that God can solve their problems because man or any other earthly power could not change that gloomy and aimless life which modern man complained against
