The Arab Conquest of Spain, 710-797 Roger Collins, 1989 **The Muslim Conquest of Iberia** Nicola Clarke, 2012

Medieval Islamic society set great store by the transmission of history to edify argue legal points explain present conditions offer political and religious legitimacy and entertain Modern scholars too have had much to say about the usefulness of early Islamic history writing although this debate has traditionally focused overwhelmingly on the central Islamic lands This book looks instead at local and regional history writing in Medieval Iberia Drawing on numerous Arabic texts e historical geographical and biographical e composed and transmitted in al Andalus North Africa and the Islamic east between the ninth and fourteenth centuries Nicola Clarke offers a nuanced and detailed analysis of narratives about the eighth century Muslim conquest of Iberia Comparing how individual episodes characters and themes are treated in different texts and how this treatment relates to intellectual debates literary trends and socio political conditions at the time of writing she shows how competing priorities shaped myriad variations on a single story and how the scholars and patrons of a corner of the Islamic world distant from Baghdad viewed their own history Offering a framework in which historians of Christian Iberia and of Christian Europe more generally can approach and make sense of culturally significant texts from Muslim Iberia this book will also be relevant to broader debates about the historiography of early Islam As such it will be of great interest to scholars of historiography world history and Islamic studies *A History of the Muslim World to 1405* Vernon O Egger, 2016-06-23 Muslims first appeared in the early seventh century as members of a persecuted religious movement in a sun baked town in Arabia Within a century their descendants were ruling a vast territory that extended from the Atlantic Ocean to the Indus River valley in modern Pakistan This region became the arena for a new cultural experiment in which Muslim scholars and creative artists synthesized and reworked the legacy of Rome Greece Iran and India into a new civilization A History of the Muslim World to 1405 traces the development of this civilization from the career of the Prophet Muhammad to the death of the Mongol emperor Timur Lang Coverage includes the unification of the Dar al Islam the territory ruled by Muslims the fragmentation into various religious and political groups including the Shi ite and Sunni and the series of catastrophes in the twelfth and thirteenth centuries that threatened to destroy the civilization Features Balanced coverage of the Muslim world encompassing the region from the Iberian Peninsula to South Asia Detailed accounts of all cultures including major Shi ite groups and the Sunni community Primary sources Numerous maps and photographs featuring a special four color art insert Glossary charts and timelines *Spain, 1157-1300* Peter Linehan, 2011-04-18 *Spain 1157 1300* makes use of a vast body of primary and secondary source material to provide a balanced overview of a crucial period of Spanish as well as of European history Examines the most significant phase of Spanish mainland development Considers the profound intellectual consequences of Christian advances into Islamic Spain Explores the varying fortunes of the kingdoms of Castile and Aragon and focuses on the reign of the learned Alfonso X of Castile Utilizes the vast body of primary and secondary source material

published over the past 30 years **Medieval Iberia** E. Michael Gerli, 2013-12-04 First published in 2003 **Spain's Centuries of Crisis** Teofilo F. Ruiz, 2011-03-21 A comprehensive history that focuses on the crises of Spain in the late middle ages and the early transformations that underpinned the later successes of the Catholic Monarchs Illuminates Spain's history from the early fourteenth century to the union of the Crowns of Castile and Aragon in 1474 Examines the challenges and reforms of the social economic political and cultural structures of the country Looks at the early transformations that readied Spain for the future opportunities and challenges of the early modern Age of Discovery Includes a helpful bibliography to direct the reader toward further study *Visigothic Spain 409 - 711* Roger Collins, 2008-04-15 This history of Spain in the period between the end of Roman rule and the time of the Arab conquest challenges many traditional assumptions about the history of this period Presents original theories about how the Visigothic kingdom was governed about law in the kingdom about the Arab conquest and about the rise of Spain as an intellectual force Takes account of new documentary evidence the latest archaeological findings and the controversies that these have generated Combines chronological and thematic approaches to the period A historiographical introduction looks at the current state of research on the history and archaeology of the Visigothic kingdom The Aristocracy in Twelfth-Century León and Castile Simon Barton, 2002-07-18 An examination of the nature and role of the aristocracy in twelfth century Spain **War, Government, and Society in the Medieval Crown of Aragon** Donald J. Kagay, 2024-10-28 The focus of this collection of articles by Donald J Kagay is the effect of the expansion of royal government on the societies of the medieval Crown of Aragon He shows how the extensive episodes of warfare during the 13th and 14th centuries served as a catalyst for the extension of the king's law and government across the varied topography and political landscape of eastern Spain In the long conflicts against Spanish Islam and neighbouring Christian states the relationships of royal to customary law of monarchical to aristocratic power and of Christian to Jewish and Muslim populations all became issues that marked the transition of the medieval Crown of Aragon to the early modern states of Catalonia Aragon and Valencia and finally to the modern Spanish nation Muslim Expansion and Byzantine Collapse in North Africa Walter E. Kaegi, 2010-11-04 This book investigates the failure of the Byzantine Empire to develop successful resistance to the Muslim conquest of North Africa **Reconquest and Crusade in Medieval Spain** Joseph F. O'Callaghan, 2013-09-10 Drawing from both Christian and Islamic sources Reconquest and Crusade in Medieval Spain demonstrates that the clash of arms between Christians and Muslims in the Iberian peninsula that began in the early eighth century was transformed into a crusade by the papacy during the twelfth and thirteenth centuries Successive popes accorded to Christian warriors willing to participate in the peninsular wars against Islam the same crusading benefits offered to those going to the Holy Land Joseph F O'Callaghan clearly demonstrates that any study of the history of the crusades must take a broader view of the Mediterranean to include medieval Spain Following a chronological overview of crusading in the Iberian peninsula from the late eleventh to the middle of the thirteenth century O'Callaghan proceeds to the study of warfare

military finance and the liturgy of reconquest and crusading He concludes his book with a consideration of the later stages of reconquest and crusade up to and including the fall of Granada in 1492 while noting that the spiritual benefits of crusading bulls were still offered to the Spanish until the Second Vatican Council of 1963 Although the conflict described in this book occurred more than eight hundred years ago recent events remind the world that the intensity of belief rhetoric and action that gave birth to crusade holy war and jihad remains a powerful force in the twenty first century *Conquerors, Brides, and Concubines* Simon Barton, 2015-01-16 *Conquerors Brides and Concubines* investigates the political and cultural significance of marriages and other sexual encounters between Christians and Muslims in the Iberian Peninsula from the Islamic conquest in the early eighth century to the end of Muslim rule in 1492 Interfaith liaisons carried powerful resonances as such unions could function as a tool of diplomacy the catalyst for conversion or potent psychological propaganda Examining a wide range of source material including legal documents historical narratives polemical and hagiographic works poetry music and visual art Simon Barton presents a nuanced reading of the ways interfaith couplings were perceived tolerated or feared depending upon the precise political and social contexts in which they occurred Religious boundaries in the Peninsula were complex and actively policed often shaped by an overriding fear of excessive social interaction or assimilation of the three faiths that coexisted within the region Barton traces the protective cultural legal and mental boundaries that the rival faiths of Iberia erected and the processes by which women as legitimate wives or slave concubines physically traversed those borders Through a close examination of the realities and the imagination of interfaith relations *Conquerors Brides and Concubines* highlights the extent to which sex power and identity were closely bound up with one another *The Death of a Prophet* Stephen J. Shoemaker, 2011-11-29 The oldest Islamic biography of Muhammad written in the mid eighth century relates that the prophet died at Medina in 632 while earlier and more numerous Jewish Christian Samaritan and even Islamic sources indicate that Muhammad survived to lead the conquest of Palestine beginning in 634 35 Although this discrepancy has been known for several decades Stephen J Shoemaker here writes the first systematic study of the various traditions Using methods and perspectives borrowed from biblical studies Shoemaker concludes that these reports of Muhammad s leadership during the Palestinian invasion likely preserve an early Islamic tradition that was later revised to meet the needs of a changing Islamic self identity Muhammad and his followers appear to have expected the world to end in the immediate future perhaps even in their own lifetimes Shoemaker contends When the eschatological Hour failed to arrive on schedule and continued to be deferred to an ever more distant point the meaning of Muhammad s message and the faith that he established needed to be fundamentally rethought by his early followers The larger purpose of *The Death of a Prophet* exceeds the mere possibility of adjusting the date of Muhammad s death by a few years far more important to Shoemaker are questions about the manner in which Islamic origins should be studied The difference in the early sources affords an important opening through which to explore the nature of primitive Islam more broadly Arguing for greater

methodological unity between the study of Christian and Islamic origins Shoemaker emphasizes the potential value of non Islamic sources for reconstructing the history of formative Islam Witnesses to a World Crisis James

Howard-Johnston,2010-06-10 James Howard Johnston provides a sweeping and highly readable account of probably the most dramatic single episode in world history the emergence of a new religion Islam the destruction of two established great powers Roman and Iranian and the creation of a new world empire by the Arabs all in the space of not much more than a generation 610 52 AD Warfare looms large especially where operations can be followed in some detail as in Iraq 636 40 in Egypt 641 2 and in the long drawn out battle for the Mediterranean 649 98 As the first history of the formative phase of Islam to be grounded in the important non Islamic as well as Islamic sources Witnesses to a World Crisis is essential reading for anyone wanting to understand Islam as a religion and political force the modern Middle East and the jihadist impulse which is as evident today as it was in the seventh century **Pilgrims and Pilgrimages as Peacemakers in Christianity, Judaism and Islam** Antón M. Pazos,2016-04-08 Pilgrimages can be analysed as acts of conflict such as the Crusades or also as platforms for relationship building and rapprochement between religions With a set of contributions from leading experts in the field this book explores the concept of pilgrimage in Christianity Judaism and Islam Some specific examples of pilgrimages that helped to strengthen links between different religions or civilisations are explored ranging from Europe to Asia and from the Middle Ages to the twentieth century Even though every pilgrimage that is investigated here has helped to link different worlds the case studies show that this relationship rarely led to a better in inter understanding Nowadays peaceful coexistence seems to be its greatest achievement A Historical Archaeology of Early Spanish Colonial Urbanism in Central America William R. Fowler,2022-01-04 In this milestone work William Fowler uses archaeology history and social theory to show that the establishment of cities was essential to Spanish colonialism Fowler draws upon decades of archaeological research on the landscape built environment and architecture of Ciudad Vieja a sixteenth century site located in present day El Salvador and the best preserved Spanish colonial city in Latin America Fowler compares Ciudad Vieja to other urban sites in the region and to the tradition of urbanism in early modern Spain to determine how the Spanish grid plan layout was modified and implemented in the Americas Using extensive archival material Fowler describes how this layout reflected and perpetuated power structures that benefited the Spanish although the city s Indigenous population was greater in number Fowler analyzes recorded interactions between colonists Indigenous peoples and enslaved Africans to demonstrate the ways the cityscape affected the relationships among individuals and cultural groups Offering an unparalleled view into a critical moment in Latin American history this book offers new ways of looking at urbanism and colonialism as intertwined forces in the emergence of the early modern world Ibn García's shu'ūbiyya Letter Göran Larsson,2021-10-11 This volume deals with the medieval shu biyyah movement in which non Arab Muslims sought equality of power and status with Arabs in al Andalus Muslim Spain By analysing a letter composed by Ibn Garc a during the 11th

century the tensions between Arab and non Arab Muslims are discussed in detail Symbols stories and legends used in the shu biyyah corpus of writings are analysed in the light of the political and theological development in al Andalus and the Muslim world Authority legitimacy and power are central both to the discussion of Ibn Garc a s letter and the history of the shu biyyah movement The first part gives the historical background to the history of al Andalus Ethnic conflicts and tensions related to authority and power are of special interest The second part gives a detailed analysis of Ibn Garc a s shu biyyah letter in relation to the historical and contemporary situation in al Andalus
