Arab Human Development Report 2002 Creating Opportunities For Future Generations:

Arab Human Development in the Twenty-first Century Bahgat Korany, 2014-10-01 With its emphasis on the primacy of change this study arrives at a particularly auspicious moment as the Middle East continues to be convulsed by the greatest upheavals in generations which have come to be known as the Arab Spring Originally prepared as the tenth anniversary volume of the UNDP's Arab Human Development Report Arab Human Development in the Twenty first Century places empowerment at the center of human development in the Arab world viewing it not only from the vantage point of a more equitable distribution of economic resources but also of fundamental legal educational and political reform The ten chapters in this book follow closely this political economy framework They look back at what Arab countries have achieved since the early 2000s and forward to what remains to be done to reach full development Supported by a wealth of statistical material they cover the rule of law the evolution of media the persistence of corruption the draining of resources through armed conflict the dominance and increase of poverty the environment and religious education The concluding chapter attempts an inventory of the world literature and different experiences on democratic transition to explore where the region could be heading This critical and timely study is indispensable reading to development specialists and to Middle East scholars and students alike as well as to anyone with an interest in the future trajectory of the region **The Arab Human**

Reconstructing the Middle East Abdulwahab Alkebsi, Nathan J Brown, Charlotta Sparre, 2017-02-24 It is clear by now that the label Arab Spring has proven too simplistic to describe the uprisings that upended the political order of the Arab world in late 2010 Brutal crackdowns and civil conflict in Syria Libya and Yemen dashed the hopes that peaceful democratic revolutions would sweep the region In other countries the departure of authoritarian leaders led to many false starts without producing democratic conclusions Societies that had appeared united in opposition suddenly seemed fractious Youth were once again banished to the political margins Reconstructing the Middle East examines the changes that happened within the region from 2010 and the long term challenges and opportunities they present Featuring the work of authors with a diversity of perspectives most of whom hail from the region it addresses key issues of political economic and societal changes the role

of young people and of the international community In addition the book deals with the questions of both political and economic reform and the intertwined nature of the two Political reform that allows greater participation will fail to quell frustration if Arabs continue to feel that their job prospects are bleak Similarly Arabs will not accept economic reform that restores growth but continues to fence off the political sphere This book offers a unique perspective on the uprisings by focusing on specific issue areas where change is needed and offering a roadmap for the long road towards state building and new social contracts based on political inclusion respect for pluralism and sustained economic growth As such it will be a valuable resource for students and scholars of Middle East Politics as well as those with an interest in the Arab Spring
