Treason of the Heart David Pryce-Jones,2011-07 Treason of the Heart is an account of British people who took up foreign causes Not mercenaries then but ideologues Almost all were what today we would call radicals or activists who thought they knew better than whichever bunch of backward or oppressed people it was that they had come to save Usually they were applying to others what they saw as the benefits of their culture and so obviously meritorious was their culture that they were prepared to be violent in imposing it Some genuinely hated their own country however and saw themselves promoting abroad the values their own retrograde government was blocking The book deals with those like Thomas Paine who saw American independence as the surest means to hurt England the many who hoped to spread the French revolution and then have Napoleon conquer England historic characters like Lord Byron and Lawrence of Arabia who fought for the causes that brought them glory finally those who took up Communism or Nazism Treason of the Heart is nothing less than the tale of intellectuals deluded about the effect of what they are doing and therefore with immediate reference to today s world

Power and Possibility in Early Arabic Philosophy Nicholas Allan Aubin,2023-12-31 The world is a finite body and therefore has finite power John Philoponus is remembered for using this Aristotelian premise to break ranks with Aristotle and argue that the world is not everlasting This investigation reconsiders Philoponus s arguments from finite power and then explores the aftermath of this line of thinking in the works of three lesser known Arabic intellectuals active in the generation before Avicenna d 1037 Ab l ayr Ibn Suw r d after 1017 Ab al asan al mir d 992 and Ab Sahl al Mas d after 1025 Each engaged with this dictum in unique and novel ways and in so doing anticipated a number of central features of Avicenna s writings The history of this argument is of crucial importance for understanding the evolution of natural philosophy and metaphysics in this formative period away from tedious and simplistic arguments about creation and towards a more robust modal ontology based on intrinsic and extrinsic necessity
