Arab Society Continuity And Change:

Arab Society (Routledge Revivals) Samih Farsoun, 2013-10-08 The Arab world has long been subjected to super power rivalry for influence and control The area has been characterized by bloody conflict with Israel and the internal instability that has been particularly prevalent in the last few years Whilst these political struggles have been highly visible and at times spectacular over the decades other transformations have taken place within the societies and peoples of the region on a less pronounced although just as profound scale The integration of the region into the world economy and the spread of Islamic revivalism are perhaps the most significant of these transformations This volume inspired by a lecture series on the Arab world in transition at the American University Washington D C was first published in 1985 It discusses a wide range of issues from economic to religious which together form an in depth analysis of the complex processes of transformation in Arab society This is a fascinating work that holds the same interest and value to scholars and students of Middle Eastern history politics and domestic affairs as it did when it was first published *Arab Society (Routledge Revivals)* Samih K.

sources and his own experiences and providing in depth comparisons of six key Arab states Algeria Egypt Iraq Jordan Kuwait and Saudi Arabia Faour challenges the notion that Desert Storm solved more problems than it created The human costs he demonstrates have been appalling The economic costs have likewise been enormous And the already precarious state of inter Arab relations has atomized with old disputes reviving and new antipathies thriving What the Gulf War did not change was the potential for political instability Although authoritarian regimes remained intact the war both spurred popular demands for democracy and encouraged militant Islamic movements back cover **Gender and Development in the Arab World**
