Hillman,2022-02-03 Countries aspiring to participate fully in the global knowledge economy require high quality education and research that leads to innovation entrepreneurship and development In spite of the large number of institutions higher education institutions the Arab World failed to capitalise in research and development This book will examine the current position of university research and development in the Arab region note the main themes their international impact and propose new directions Crucially it will examine the underlying reasons for the underperformance including specific government research policies university appointment and governance processes to stimulate research funding assessment and allocation processes resource limitations and public attitudes By substantially upgrading the research component of Arab universities along with the quality of education generally the Arab world will have the vehicle to transition into peaceful stable and members of leading global economies There are opportunities for inter university cooperation and the establishment of regional university linked research institutes with specialist facilities

Arab Republic of Egypt International Monetary Fund. Middle East and Central Asia Dept.,2025-07-15 Persistent and successive external shocks have complicated policy execution The ongoing war in Sudan which erupted in April 2023 precipitated a significant refugee inflow into Egypt with some 603 000 Sudanese refugees registered with UNHCR as of December 31 2024 Trade disruptions in the Red Sea since December 2023 have reduced foreign exchange inflows from the Suez Canal by US 6 billion in 2024 while transit trade volumes remain at about a third of pre conflict levels with further negative spillovers to growth and fiscal revenues **United Arab Emirates Society in the Twenty-first Century** Jamal Sanad Al-Suwaidi,2018-02-20 In light of the radical transformations and changes that the world witnesses on all levels research in the field of social issues is gaining increased prominence particularly amid different sources of danger that threaten social security in countries primarily due changes in the nature of warfare and conflicts the spread of extremism and terrorism and the emergence of religious sectarian doctrinal and racial tensions Moreover the unprecedented technological transformations in light of the fourth industrial revolution 4IR with its social effects can compromise the stability and security of societies Therefore in this book I focus on studying UAE society in an ever changing world from a comprehensive perspective that encompasses political security economic social cultural and technological aspects From an early stage in my academic career I have given special attention in my books research papers and studies to issues of national security at the forefront of which is social security This stems from my belief that social security is one of the most important and critical aspects of national security in its comprehensive sense Furthermore social security is also closely associated with all other political economic cultural and stability aspects of national security This book includes seven

chapters along with an introduction and a conclusion Chapter One deals with the experience of the Union of the UAE and how it has affected UAE society Chapter Two deals with UAE society in a changing regional and international environment Chapter Three examines the UAE's economic vision to prepare for the post oil era which is based primarily on knowledge and innovation Chapter Four addresses education and its importance in building national human capacities and resources Chapter Five discusses national identity its significance and sources of threat Chapter Six examines balanced political development and the guarantee it gives to enable political stability in the UAE The last chapter Chapter Seven discusses UAE society and global technological changes in terms of challenges and opportunities The book ends with a conclusion in which I call for more attention to studies pertaining to UAE society in the coming years because the current changes in the local regional and global environments have several implications for this society Therefore it is important to study these implications and anticipate their future trajectories Who's Who in the Arab World 2007-2008 Publitex

The Muslim Brotherhood in the United Arab Emirates: Miscalculations Prof. Jamal Sanad Al-Suwaidi, 2022-06-14 Throughout history religious groups such as the Muslim Brotherhood have risen in popularity during times of crises in countries all over the world much like conservative political parties In this context pure Islam based on worship respect principles of religion and countering idolatry must be differentiated from the religion promoted by groups like the Muslim Brotherhood The group attempts to exploit religion to serve its own interests and to seize power The Brotherhood's goals may be fixed but their interests are subject to change The issue for religious groups like the Muslim Brotherhood is their belief that any criticism of them is also a criticism of religion despite the fact their ideas are merely human interpretations which can be true or false As a result the exploitation of religion has become one of the defining characteristics of our modern era There are many narratives surrounding the inception of the Muslim Brotherhood in the UAE however the correct account dates back to 1962 when Abdul Badie Saqr a Qatari citizen of Egyptian origin came to the UAE The Qatari Brotherhood had also established a presence in Dubai in 1961 playing a major role in the establishment of the UAE's Muslim Brotherhood group When Abdul Badie Saqr arrived in the UAE he was accompanied by Yusuf Al Qaradawi Abdul Mueizz Al Sattar Ahmad Al Assal and Kamal Naji The Muslim Brotherhood in the UAE followed in the footsteps of its parent group in Egypt and its branch in Kuwait While the Kuwaiti model was followed in the Arab Gulf region the Egyptian model was the superior example in both political and religious contexts
