Imago Triumphalis Margaret Ann Zaho,2004 Imago Triumphalis The Function and Significance of Triumphal Imagery for Renaissance Rulers examines how independent rulers in fifteenth century Italy used the motif of the Roman triumph for self aggrandizement and personal expression Triumphal imagery replete with connotations of victory and splendor was recognized during the Renaissance as a reflection of the glory of classical antiquity Its appeal as a powerful visual bearer of meaning is evidenced by its appearance as a dominant theme in literature architecture and art Rulers such as Alfonso of Aragon Federico da Montefeltro Sigismondo Malatesta and Borso d Este chose to incorporate the triumphal motif in major artistic commissions in which they were represented They recognized that the image of the triumph could retain its classical associations while functioning as a highly personalized commentary

UNESCO, Cultural Heritage and Conflict in Yemen, Syria and Iraq Joanne Dingwall McCafferty,2023-02-18 This book aims to determine UNESCO s capability to facilitate heritage protection measures pre conflict emergency response measures during conflict and reconstruction efforts post conflict The book employs document analysis to ascertain UNESCO s legal obligations when it comes to facilitating cultural heritage protection in its Member States territories in the condition of armed conflict while drawing comparisons with the reality of the organisation s presence and involvement in Yemen Syria and Iraq This study maps shifts in UNESCO s level of communication with each country s respective government and civil authorities allocation of financial human and material resources and implementation of heritage safeguarding and reconstruction initiatives Both quantitative and qualitative data shows UNESCO to exhibit great inequity in engagement at times closing communications entirely with Syria due to the political standpoints of other UNESCO Member States This political gridlock is often shown to result in the organisation overstating its ability to safeguard or restore heritage with promises not being followed up with action Since 2015 UNESCO has expressed a stronger intent to be a key player in

heritage protection during armed conflict however as long as cultural heritage protection is not considered a humanitarian concern UNESCO will not be able to circumvent much of the political and bureaucratic barriers facing intergovernmental organisations during conflict which prevent emergency action from being implemented In order to ensure heritage safeguarding is permitted during periods of significant unrest regardless of political discord it is crucial that UNESCO promote a people centred approach to its cultural heritage protection initiatives This book evidences that focusing on livelihoods and meaningful and practical connections between populations and their local heritage to be UNESCO s optimal methodological approach for justifying cultural heritage protection as a humanitarian necessity The book s readership includes academics researchers and practitioners in the fields of political science law and heritage studies **Symbolism** Steven Olderr,2017-02-10 The use of symbolism is an art not a science Different people use symbols in a variety of ways and each symbol can have diverse meanings even within the same culture Not surprisingly determining the meaning of symbols can be difficult This valuable reference defines the general symbolism of more than 15 000 terms from ancient to modern as well as specialized meanings in mythology religion art literature folklore flower language astrology heraldry numerology and cultures the world over From 0 to Zu each entry catalogs all possible connotations listed by culture when appropriate creating the most comprehensive symbolism dictionary available The Arch's of Triumph Erected in Honor of the High and Mighty Prince.
