Archaeological Displays and the Public Paulette M. McManus, 2016-06-16 This volume is a set of a dozen case studies of innovative programs designed to attract the public to both archaeological sites and exhibits of archaeological artifacts. Papers deal with general issues of interpretation and presentation and cover British, Australian, European, and American settings.

Public Archaeology Nick Merriman, 2004-08-02 Scrutinizing in detail the relationship between archaeology, heritage, and the public, this much needed volume explores public interest and participation in archaeology as a subject worthy of academic attention in its own right. Examining case studies from throughout the world from North America, Britain, Egypt, and Brazil to East Africa, China, and beyond, Nick Merriman focuses on two key areas: communication and interpretation, and stakeholders. Constant reports of new discoveries, protests over the destruction of sites, and debates over the return of artefacts such as the Elgin marbles or indigenous remains testify to an increasing public interest in archaeology. For students and scholars of this archaeology and of its relationship with the public, this will prove essential reading.

Archaeology Hannah Cobb, Kevin Greene, Tom Moore, 2024-03-19 This fully updated sixth edition of a classic classroom text is essential reading for core courses in archaeology. *Archaeology: An Introduction* explains how the subject emerged from an amateur pursuit in the eighteenth century into a serious discipline and explores changing trends in interpretation in recent decades. The authors convey the excitement of archaeology while helping readers to evaluate new discoveries by explaining the methods and theories that lie behind them. In addition to drawing upon examples and case studies from many regions of the world and periods of the past, the book incorporates the authors' own fieldwork research and teaching. It continues to include key reference and further reading sections to help new readers find their way through the ever-expanding range of archaeological publications and online sources, as well as colour illustrations and boxed topic sections to increase comprehension. Serving as an accessible and lucid textbook and engaging students with contemporary issues, this book is designed to support students studying Archaeology at an introductory level. New to the sixth edition: Inclusion of the latest survey and imaging techniques such as the use of drones and extended reality. Updated material on developments in dating, DNA analysis, isotopes, and population movement, including consideration of the ethical considerations of these techniques. Coverage of new developments in archaeological theory such as the material turn, ontological turn, and work on issues of equality, diversity, and inclusion. A whole new chapter covering archaeology in the present, including new sections on heritage and public archaeology and an updated consideration of archaeology's relationship with the climate crisis. A revised glossary with over 200 new additions or

updates **Archaeology: An Introduction** Kevin Greene, 2002-11-01 This fourth edition constitutes the most extensive reshaping of the text to date In a lucid and accessible style Kevin Greene explains the discovery and excavation of sites outlines major dating methods gives clear explanations of scientific techniques and examines current theories and controversies New features include a completely new user friendly text design with initial chapter overviews and final conclusions key references for each chapter section an annotated guide to further reading a glossary refreshed illustrations case studies and examples bibliography and full index a new companion website built for this edition providing hyperlinks from contents list to individual chapter summaries which in turn link to key websites and other material an important new chapter on current theory emphasizing the richness of sources of analogy or interpretation available today This new edition provides students with a sound introduction to the field of archaeology and guides them towards further study *Museums and Archaeology* Robin Skeates, 2022-06-19 *Museums and Archaeology* brings together a wide but carefully chosen selection of literature from around the world that connects museums and archaeology Part of the successful Leicester Readers in Museum Studies series it provides a combination of issue and practice based perspectives As such it is a volume not only for students and researchers from a range of disciplines interested in museum gallery and heritage studies including public archaeology and cultural resource management CRM but also the wide range of professionals and volunteers in the museum and heritage sector who work with archaeological collections The volume s balance of theory and practice and its thematic and geographical breadth is explored and explained in an extended introduction which situates the readings in the context of the extensive literature on museum archaeology highlighting the many tensions that exist between idealistic principles and real life practice and the debates that surround these In addition to this section introductions and the seminal pieces themselves provide a comprehensive and contextualised resource on the interplay of museums and archaeology **The Oxford Handbook of Museum Archaeology** Alice Stevenson, 2022-08-25 This Handbook provides a transnational reference point for critical engagements with the legacies of and futures for global archaeological collections It challenges the common misconception that museum archaeology is simply a set of procedures for managing and exhibiting assemblages Instead this volume advances museum archaeology as an area of reflexive research and practice addressing the critical issues of what gets prioritized by and researched in museums by whom how and why Through twenty eight chapters authors problematize and suggest new ways of thinking about historic contemporary and future relationships between archaeological fieldwork and museums as well as the array of institutional and cultural paradigms through which archaeological enquiries are mediated Case studies embrace not just archaeological finds but also archival field notes photographic media archaeological samples and replicas Throughout museum activities are put into dialogue with other aspects of archaeological practice with the aim of situating museum work within a more holistic archaeology that does not privilege excavation or field survey above other aspects of disciplinary engagement These concerns will be grounded in the realities of museums internationally

1990s the University of Cambridge reopened excavations at the Neolithic site of atalh y k in central Turkey abandoned since the 1960s This is Volume 2 in the atalh y k Research Project series Here Ian Hodder explains his vision of archaeological excavation where careful examination of context and an awareness of human bias allows researchers exciting new insights into prehistoric cognition The aim of the volume is to discuss some of the reflexive or postprocessual methods that have been introduced at the site in the work there since 1993 These methods involve reflexivity interactivity multivocality and contextuality or relationality

Archaeology Kevin Greene,2002 A substantially revised and expanded edition of one of the most widely used and respected general introductions to the field of archaeology

Management of Archaeological Sites and the Public in Argentina María Luz Endere,2007 This work presents the author s research on legal issues concerning archaeological heritage and indigenous rights in Argentina The country has overcome the political unrest of the early years of the new millennium and the previous heritage laws were finally modified in 2003 although the terms of the new legislation are still a matter of debate and have produced a great deal of criticism In the course of this period a new chapter in the story of the three case studies included in the book the Pucar of Tilcara the Quilmes Ruins and Menhires Park has opened The Humahuaca ravine where the Pucar of Tilcara is located was included on the World Heritage List in 2003 the concession of the Quilmes Ruins has expired and the members of the Indigenous Quilmes community are campaigning to be recognized as partners in the management of the site and all the menhires were relocated to a plot of land in El Mollar The Menhires Park itself no longer exists yet the monoliths remain unprotected The Northwest region of Argentina where the three sites are located has become an important tourist destination for national and international visitors thanks to the devaluation of the national currency and the improvement of the economic conditions among the local population Consequently changing winds are bringing new challenges for each of these sites although much of their fate remains in the same hands Nevertheless their future as well as that of the entire archaeological heritage in Argentina is heavily dependent on a deeper understanding of the past and present circumstances of such sites Finally the goal of this book is to analyze the state of archaeological heritage management in Argentina although many of the conclusions reached also provide clues to understanding contested heritage issues in many other countries particularly those relating to the Third World

Viking Heritage and History in Europe Sara Ellis Nilsson,Stefan Nyzell,2024-03-06 Viking Heritage and History in Europe presents new research and perspectives on the use of the Vikings in public history especially in relation to museums re creation and re enactment in a European context Taking a critical heritage approach the volume provides new insights into the re creation of history imagining the past interpretation ambivalence of authenticity authority of History remembrance and memory medievalism and public history Highlighting the complexity of the field of public history today the fourteen chapters all engage with questions of historical authenticity and authority The volume also critically examines the public s reception engagement with and interpretation of the Viking Age and the concepts of who these individuals were Each chapter illuminates an aspect of

these themes in relation to museums leisure activities politics tourism re enactment and popular culture all from the vantage point of Viking cultural heritage Viking Heritage and History in Europe is one of the first volumes to examine the use and role of the Vikings within the field of public history both past and present The book will be of interest to those engaged in the study of heritage public history history the Vikings vikingism medievalism and media history *Museum Basics* Timothy Ambrose,Crispin Paine,2018-03-14 This fourth edition of Museum Basics has been produced for use in the many museums worldwide that operate with few professional staff and limited resources The fourth edition has been fully updated to reflect the many changes that have taken place in museums around the world over the last six years Drawing from a wide range of practical experience the authors provide a basic guide to all aspects of museum work from audience development and learning through collections management and conservation to museum management and forward planning Museum Basics is organised on a modular basis with over 100 units in eight sections It can be used both as a reference work to assist day to day museum management and as the key textbook for pre service and in service museum training programmes where it can be supplemented by case studies project work and group discussion This edition includes over 100 diagrams to support the text as well as a glossary sources of information and support and a select bibliography Museum Basics is also supported by its own companion website which provides a wide range of additional resources for readers Museum Basics aims to help the museum practitioner keep up to date with new thinking about the function of museums and their relationships with the communities they serve The training materials provided within the book are also suitable for pre service and in service students who wish to gain a full understanding of work in a museum *Delivering Tourism Intelligence* Philip L. Pearce,Hera Oktadiana,2019-11-08 This volume demonstrates that tourism research can deliver quality implications for a range of stakeholders Contributions from authors across the continents serve to illustrate ways in which academic analysis can and does result in action
