Archaeologies Of Vision Foucault And Nietzsche On Seeing And Saying:

Archaeologies of Vision Gary Shapiro, 2003-04-15 While many acknowledge that Friedrich Nietzsche and Michel Foucault have redefined our notions of time and history few recognize the crucial role that the infinite relation between seeing and saying plays in their work Shapiro reveals the full extent of Nietzsche and Foucault's concern with the visual The Archaeology of Foucault Stuart Elden, 2022-12-01 On 20 May 1961 Foucault defended his two doctoral theses on 2 December 1970 he gave his inaugural lecture at the Collège de France Between these dates he published four books travelled widely and wrote extensively on literature the visual arts linguistics and philosophy He taught both psychology and philosophy beginning his explorations of the question of sexuality Weaving together analyses of published and unpublished material this is a comprehensive study of this crucial period As well as Foucault's major texts it discusses his travels to Brazil Japan and the USA his time in Tunisia and his editorial work for *Critique* and the complete works of Nietzsche and Bataille It was in this period that Foucault developed the historical philosophical approach he called archaeology the elaboration of the archive which he understood as the rules that make possible specific claims In its detailed study of Foucault's archive the book is itself an archaeology of Foucault in another sense both excavation and reconstruction This book completes a four volume series of major intellectual histories of Foucault Foucault's Last Decade was published by Polity in 2016 Foucault The Birth of Power followed in 2017 and The Early Foucault in 2021 Foucault's Philosophy of Art Joseph J. Tanke, 2009-08-30 Offers the first complete examination of Foucault's reflections on visual art leading to new readings of his major texts

Entanglements, Or Transmedial Thinking about Capture Rey Chow, 2012-04-11 This follow up volume to our book *The Age of the World Target* collects interconnected entangled essays of literary and cultural theorist Rey Chow The essays take up ideas of violence capture identification temporality sacrifice and victimhood engaging with theorists from Derrida and Deleuze to Agamben and Rancière **Nietzsche's Earth** Gary Shapiro, 2016-09-09 We have Nietzsche to thank for some of the most important accomplishments in intellectual history but as Gary Shapiro shows in this unique look at Nietzsche's thought the nineteenth century philosopher actually anticipated some of the most pressing questions of our own era Putting Nietzsche into conversation with contemporary philosophers such as Deleuze Agamben Foucault Derrida and others Shapiro links Nietzsche's powerful ideas to topics that are very much on the contemporary agenda globalization the nature of the livable earth and the geopolitical categories that characterize people and places Shapiro explores Nietzsche's rejection of historical inevitability and its idea of the end of history He highlights Nietzsche's prescient vision of today's massive human mobility and his criticism of the nation state's desperate efforts to sustain its exclusive rule by declaring emergencies and states of exception Shapiro then explores Nietzsche's vision of a transformed garden earth and the ways it sketches an aesthetic of the Anthropocene He concludes with an explanation of the deep political structure of Nietzsche's philosophy of the Antichrist by relating it to traditional political theology By triangulating Nietzsche between his time and ours between

Bismarck's Germany and post 9 11 America Nietzsche's Earth invites readers to rethink not just the philosopher himself but the very direction of human history Art and Truth after Plato Tom Rockmore,2024-05-31 Despite its foundational role in the history of philosophy Plato's famous argument that art does not have access to truth or knowledge is now rarely examined in part because recent philosophers have assumed that Plato's challenge was resolved long ago In Art and Truth after Plato Tom Rockmore argues that Plato has in fact never been satisfactorily answered and to demonstrate that he offers a comprehensive account of Plato's influence through nearly the whole history of Western aesthetics Rockmore offers a cogent reading of the post Platonic aesthetic tradition as a series of responses to Plato's position examining a stunning diversity of thinkers and ideas He visits Aristotle's Poetics the medieval Christians Kant's Critique of Judgment Hegel's phenomenology Marxism social realism Heidegger and many other works and thinkers ending with a powerful synthesis that lands on four central aesthetic arguments that philosophers have debated More than a mere history of aesthetics Art and Truth after Plato presents a fresh look at an ancient question bringing it into contemporary relief **Watching Babylon** Nicholas Mirzoeff,2012-10-12 Groundbreaking and compelling Watching Babylon examines the experience of watching the war against Iraq on television on the internet in the cinema and in print media Mirzoeff shows how the endless stream of images flowing from the Gulf has necessitated a new form of visual thinking one which recognises that the war has turned images themselves into weapons Drawing connections between the history and legend of ancient Babylon the metaphorical Babylon of Western modernity and everyday life in the modern suburb of Babylon New York Mirzoeff explores ancient concerns which have found new resonance in the present day In the tradition of Walter Benjamin Watching Babylon illuminates the Western experience of the Iraqi war and makes us re-examine the very way we look at images of conflict

Metamorphosis David Gallagher,2009 The origins of selected instances of metamorphosis in Germanic literature are traced from their roots in Ovid's Metamorphoses grouped roughly on an ascending evolutionary scale invertebrates birds animals and mermaids Whilst a broad range of mythological legendary fairytale and folktale traditions have played an appreciable part Ovid's Metamorphoses is still an important comparative analysis and reference point for nineteenth and twentieth century German language narratives of transformations Metamorphosis is most often used as an index of crisis an existential crisis of the subject or a crisis in a society's moral social or cultural values Specifically selected texts for analysis include Jeremias Gotthelf's Die schwarze Spinne 1842 with the terrifying metamorphoses of Christine into a black spider the metamorphosis of Gregor Samsa in Kafka's Die Verwandlung 1915 ambiguous metamorphoses in E T A Hoffmann's Der goldne Topf 1814 Hermann Hesse's Piktors Verwandlungen 1925 Der Steppenwolf 1927 and Christoph Ransmayr's Die letzte Welt 1988 Other mythical metamorphoses are examined in texts by Bachmann Fouqu Fontane Goethe Nietzsche Nelly Sachs Thomas Mann and Wagner and these and many others confirm that metamorphosis is used historically scientifically for religious purposes to highlight identity sexuality a dream state or for metaphoric metonymic or allegorical reasons *The*

The History of Continental Philosophy Alan D. Schrift, 2013-04-12 From Kant to Kierkegaard from Hegel to Heidegger continental philosophers have indelibly shaped the trajectory of Western thought since the eighteenth century Although much has been written about these monumental thinkers students and scholars lack a definitive guide to the entire scope of the continental tradition The most comprehensive reference work to date this eight volume History of Continental Philosophy will both encapsulate the subject and reorient our understanding of it Beginning with an overview of Kant's philosophy and its initial reception the History traces the evolution of continental philosophy through major figures as well as movements such as existentialism phenomenology hermeneutics and poststructuralism The final volume outlines the current state of the field bringing the work of both historical and modern thinkers to bear on such contemporary topics as feminism globalization and the environment Throughout the volumes examine important philosophical figures and developments in their historical political and cultural contexts The first reference of its kind A History of Continental Philosophy has been written and edited by internationally recognized experts with a commitment to explaining complex thinkers texts and movements in rigorous yet jargon free essays suitable for both undergraduates and seasoned specialists These volumes also elucidate ongoing debates about the nature of continental and analytic philosophy surveying the distinctive sometimes overlapping characteristics and approaches of each tradition Featuring helpful overviews of major topics and plotting road maps to their underlying contexts A History of Continental Philosophy is destined to be the resource of first and last resort for students and scholars alike

Nineteenth-Century Philosophy Alan D. Schrift, Daniel Conway, 2014-09-19 The second half of the 19th Century saw a revolution in both European politics and philosophy Philosophical fervour reflected political fervour Five great critics dominated the European intellectual scene Ludwig Feuerbach Karl Marx Søren Kierkegaard Fyodor Dostoevsky and Friedrich Nietzsche Nineteenth Century Philosophy assesses the response of each of these leading figures to Hegelian philosophy the dominant paradigm of the time to the shifting political landscape of Europe and the United States and also to the emerging critique of modernity itself Both

individually and collectively these thinkers succeeded in revolutionizing theology philosophy psychology and politics The period also saw the emergence of new schools of thought and new disciplinary thinking The volume covers the birth of sociology and the social sciences the development of French spiritualism the beginning of American pragmatism the rise of science and mathematics and the maturation of hermeneutics and phenomenology

Pedagogies of the Image Hannah M. Tavares, 2016-06-15 This work considers the potential of photographs for orienting in a critical direction the scope questions and interests of the disciplinary conventions of the field of educational inquiry Visual objects may help illuminate broader socio historical events and logics that are deeply entwined with education yet remain marginal to or outside of what constitutes its domain of study In this work photographic images are treated as resources for re visioning the founding disciplinary objects of educational studies by reorienting its proper objects of study traditional archives persistent categories frames of reference and accepted portals of research and inquiry A theoretic framing shapes the question taken up in this work How might an engagement with photo archives open new horizons in the study of education from a postfoundationalist multi theoretic and cross disciplinary perspective The author constructs a rather unconventional vantage point to explore this question that opens on to the discursive spaces of three photographs made of three women in the years 1897 1949 and 1966 The photographs are analysed from three theoretic approaches First it is indicated how each photographic image not only marks a relationship to the past the present and the future but to the rules and conventions of photographic practices These particular images give an account of what both persists and exceeds the photographic image and permit to rewrite the bodies and lives pictured Second the subject matter of each photographic image while singular and local bears witness to the complex network of racial patriarchal and colonial logics and their profound imbrication with a technically mediated inscription For all their singularity the photographs cannot but evoke their relation to the deeply historical character of photography Finally the photographs make possible an account of broader occurrences subterranean histories contexts and differently situated experiences that illuminate much like the principle of montage a sequence of overlapping events crosscutting with one another consequently throwing open the possibility of responding to and transforming the histories and archives we are given This book *Pedagogies of the Image* is a winner of the 2017 American Educational Studies Association Critics Choice Award

The Faces of Intellectual Disability Licia Carlson, 2010 *The Faces of Intellectual Disability* challenges current thinking about cognitive impairment in order to come to terms with what it means to treat people with intellectual disabilities in an ethical manner As she embraces the task of reassessing philosophical views of intellectual disability Licia Carlson shows how we can affirm the dignity and worth of intellectually disabled people by dropping comparisons to nonhuman animals and confronting fears and discomforts about mental impairment Carlson presents a complex history of ideas and notions about cognitive impairment the treatment of intellectually disabled people and social and cultural reactions to them Sensitive and clearly argued this book offers significant new thinking on recent trends in

disability studies and philosophy Good and Evil in the Garden of Democracy Rodney Wallace Kennedy, 2023-04-13
Democracy faces threats from an emerging right wing movement in democratic governments around the world This may be even more prevalent in the United States because there is an evil that uses rhetorical tropes to undermine the anchor institutions of democracy press courts universities and Congress This evil has a personification former President Donald Trump All the rhetorical critiques of Trump that he is a demagogue an authoritarian a serial liar a populist on steroids fail to take into account the evil that is fomented by his angry and vengeful rhetoric Pictures of evil in Scripture philosophy and rhetoric bear a striking resemblance to Trump It is not enough to say that he is dangerous to democracy Kennedy claims that he is the evil seed in democracy that is even now sprouting new versions of the Trump rhetoric as each acolyte attempts to outrage the next Good and Evil in the Garden of Democracy screams at the evil fights against the evil and then attempts to sing the songs of goodness and democracy from poets prophets and rhapsodes For the health of democracy these words have been written **Foucault's Legacy** C.G. Prado, 2011-10-20 Foucault's Legacy brings together the work of eight Foucault specialists in an important collection of essays marking the 25th anniversary of Foucault's death Focusing on the importance of Foucault's most central ideas for present day philosophy the book shows how his influence goes beyond his own canonical tradition and linguistic milieu The essays in this book explore key areas of Foucault's thought by comparing aspects of his work with the thought of a number of major philosophers including Nietzsche Heidegger Rorty Hegel Searle Vattimo and Williams Crucially the book also considers the applicability of his central ideas to broader issues such as totalitarianism religion and self sacrifice Presenting a fresh and exciting vision of Foucault as a philosopher of enduring influence the book shows how important Foucault remains to philosophy today *Foucault's Heidegger* Timothy Rayner, 2007-11-15 A new and important study of the relationship between two key thinkers of the twentieth century **The Cambridge Companion to Foucault** Gary Gutting, 2005-07-18 For Michel Foucault philosophy was a way of questioning the allegedly necessary truths that underpin the practices and institutions of modern society He carried this out in a series of deeply original and strikingly controversial studies on the origins of modern medical and social scientific disciplines These studies have raised fundamental questions about the nature of human knowledge and its relation to power structures and have become major topics of discussion throughout the humanities and social sciences The essays in this volume provide a comprehensive overview of Foucault's major themes and texts from his early work on madness through his history of sexuality Special attention is also paid to thinkers and movements from Kant through current feminist theory that are particularly important for understanding his work and its impact This revised edition contains five new essays and revisions of many others and the extensive bibliography has been updated *Essays from the Edge* Martin Jay, 2011-06-03 The result is a lively diverse offering from an extraordinary intellect Richard Wolin the Graduate Center City University of New York author of *The Wind from the East* *French Intellectuals* *the Cultural Revolution* and *the Legacy of the 1960s* **A Companion to Nietzsche** Keith

Ansell-Pearson, 2009-02-24 *A Companion to Nietzsche* provides a comprehensive guide to all the main aspects of Nietzsche's philosophy profiling the most recent research and trends in scholarship Brings together an international roster of both rising stars and established scholars including many of the leading commentators and interpreters of Nietzsche Showcases the latest trends in Nietzsche scholarship such as the renewed focus on Nietzsche's philosophy of time of nature and of life Includes clearly organized sections on Art Nature and Individuation Nietzsche's New Philosophy of the Future Eternal Recurrence the Overhuman and Nihilism Philosophy of Mind Philosophy and Genealogy Ethics Politics Aesthetics Evolution and Life Features fresh treatments of Nietzsche's core and enigmatic doctrines [The Routledge Handbook of Biopolitics](#)

Sergei Prozorov, Simona Rentea, 2016-08-05 The problematic of biopolitics has become increasingly important in the social sciences Inaugurated by Michel Foucault's genealogical research on the governance of sexuality crime and mental illness in modern Europe the research on biopolitics has developed into a broader interdisciplinary orientation addressing the rationalities of power over living beings in diverse spatial and temporal contexts The development of the research on biopolitics in recent years has been characterized by two tendencies the increasingly sophisticated theoretical engagement with the idea of power over and the government of life that both elaborated and challenged the Foucauldian canon e.g. the work of Giorgio Agamben Antonio Negri Roberto Esposito and Paolo Virno and the detailed and empirically rich investigation of the concrete aspects of the government of life in contemporary societies Unfortunately the two tendencies have often developed in isolation from each other resulting in the presence of at least two debates on biopolitics the historical-philosophical and the empirical one This Handbook brings these two debates together combining theoretical sophistication and empirical rigour The volume is divided into five sections While the first two deal with the history of the concept and contemporary theoretical debates on it the remaining three comprise the prime sites of contemporary interdisciplinary research on biopolitics economy security and technology Featuring previously unpublished articles by the leading scholars in the field this wide ranging and accessible companion will both serve as an introduction to the diverse research on biopolitics for undergraduate students and appeal to more advanced audiences interested in the current state of the art in biopolitics studies
