Arkheologicheskii Sbornik

Florin Curta

Arkheologicheskii Sbornik:

The Region of the Upper Msta River in the Early Middle Ages Inna Islanova, 2021-02-01 This is a book about the archaeological sites of the 5th to 8th century of the Volga Baltic watershed in the forest zone of Eastern Europe The region has long been known for burial assemblages of the so called culture of the Pskov long barrows but the book brings to light a different group of sites The population living on those sites co existed with those who buried their dead under the Pskov long barrows but within a different landscape This polarity suggests that the local population was behind the culture of Pskov long barrows while the new category of site point to immigrants from the southwest The book suggests that the new archaeological sites were inhabited by a Slavic speaking population from the periphery of the Kiev and Kolochin cultures

The Long Sixth Century in Eastern Europe Florin Curta, 2021-05-12 In *The Long Sixth Century in Eastern Europe* Florin Curta offers a social and economic history of East Central South Eastern and Eastern Europe during the 6th and 7th centuries It challenges the current model of transition from Antiquity to the early Middle Ages on the basis of an interpretation of the written sources but especially of an enormous amount of archaeological evidence accumulated in the last 50 years or so It deals with societies in close contact with the Roman world as well with those located very far from it It addresses questions of property subsistence crafts trade and social change "The" Other Europe in the Middle Ages Florin

Curta, Roman Kovalev, 2008 Drawing on archaeological and narrative sources this collection of studies offers a fresh look at some of the most interesting aspects of the current research on the medieval nomads of Eastern Europe *Reimagining Europe* Christian Raffensperger, 2012-03-12 An overriding assumption has directed scholarship in both European and Slavic history that Kievan Rus was part of a Byzantine commonwealth separate from Europe Raffensperger refutes this and offers a new frame for two hundred years of history in which Rus is understood as part of medieval Europe and East is not so neatly divided from West **Ferghana Valley** S. Frederick Starr, 2014-12-18 The Ferghana Valley can reasonably be said to lie in the heart of Central Asia As such the Valley has made an inordinate contribution to the history and culture of the region as a whole as well as significantly affecting the economic political and religious spheres This book looks at the region over time from its early history to the present It embraces not just the obvious fields of politics economics and religion but also ethnography sociology and culture and includes the insights of leading scholars from all three Ferghana countries The book discusses various questions of identity relating to the region showing how the identity of the Ferghana Valley relates to the emerging national identities of the three post colonial states that are still gradually emerging from the demise of the Soviet Union as well as how an understanding of the Ferghana Valley is key to understanding Central Asia itself Ceramics Before Farming Peter Jordan, Marek Zvelebil, 2016-06-03 A long overdue advancement in ceramic studies this volume sheds new light on the adoption and dispersal of pottery by non agricultural societies of prehistoric Eurasia Major contributions from Western Europe Eastern Europe and Asia make this a truly international work that brings together different theories

and material for the first time Researchers and scholars studying the origins and dispersal of pottery the prehistoric peoples or Eurasia and flow of ancient technologies will all benefit from this book *War and Warfare in Late Antiquity (2 vols.)* ,2013-08-19 This two volume publication explores the key factors determining the course and outcome of war in Late Antiquity Volume 8 1 includes a detailed review of strategic and tactical issues and eight comprehensive bibliographic essays which provide an overview of the literature In Volume 8 2 thematic papers examine strategy and intelligence fortifications and siege warfare weaponry and equipment literary sources and topography and civil war while papers focused on particular geographic regions home in on war and warfare in the West Roman Empire in the 4th and 5th centuries and the Balkans and the Eastern frontier in the 4th to 7th centuries AD Contributors are Susannah Belcher Neil Christie Ian Colvin John Conyard Jon Coulston Jim Crow Florin Curta Hugh Elton James Howard Johnston Jordi Galbany Jordi Gu rdia John Haldon Michel Kazanski Maria Kouroumali Michael Kulikowski Christopher Lillington Martin Marta Maragall Oriol Mercadal Jordi Nadal Oriol Olesti Alexander Sarantis Conor Whately Michael Whitby and John Wilkes **Ancient Berezan** S.L. Solovyov,John Boardman,Gocha R. Tsetskhladze,2023-08-21 This volume in the Colloquia Pontica series deals with Berezan the first Greek colony in the northern Black Sea For more than 100 years archaeologists from Russia and the Ukraine have been excavating this extraordinary island site This the first synthesis of their work in any language presents the history and archaeology of the site from its establishment in the 7th century BC to the medieval period **Bibliography of Social Science Periodicals and Monograph Series** United States. Bureau of the Census,1961 **Agriculture in the Forest-Steppe Region of Khazaria** Volodymyr Koloda,Serhiy Gorbanenko,2020-07-27 In this book Volodymyr Koloda and Serhiy Gorbanenko discuss the important role of agriculture in the socio economic development of the Khazar Khaganate and its influence on neighboring peoples Drawing on the methods of the natural sciences such as palaeobotany archeozoology soil science palaeoclimatology the volume focuses on how agriculture became the basis of the economy of the Khazarian populace Comparative analysis suggests a significant influence of the agricultural traditions of the Saltiv population on the neighboring tribes of the Eastern Slavs such as Severians mentioned in the annals the Romny culture of Left Bank Ukraine and Slavs on the Don the Borshevo culture *Eastern Europe in the Middle Ages (500-1300) (2 vols)* Florin Curta,2019-07-08 Winner of the 2020 Verbruggen prize This book provides a comprehensive synthesis of scholarship on Eastern Europe in the Middle Ages The goal is to offer an overview of the current state of research and a basic route map for navigating an abundant historiography available in more than 10 different languages The literature published in English on the medieval history of Eastern Europe books chapters and articles represents a little more than 11 percent of the historiography The companion is therefore meant to provide an orientation into the existing literature that may not be available because of linguistic barriers and in addition an introductory bibliography in English Winner of the 2020 Verbruggen prize awarded annually by the De Re Militari society for the best book on medieval military history The awarding

committee commented that the book has an enormous range and yet is exceptionally scholarly with a fine grasp of detail Its title points to a general history of eastern Europe but it is dominated by military episodes which make it of the highest value to anybody writing about war and warrmaking in this very neglected area of Europe See inside the book The Burial Dress of the Rus' in the Upper Volga Region (Late 10th-13th Centuries) Iuliia Stepanova,2017-03-06 This book is devoted to the Old Rus dress of the Upper Volga area as gleaned from the archaeological evidence of the burial sites The organic remains of dress and metal and glass ornaments and fasteners are considered Issues such as the social status and age of the buried individuals as well as the influence of various ethnic groups including East Slavic groups Finno Ugric tribes and the Balts on the dress of the Old Rus are addressed through the study of variants of male and female headdresses clothes and accessories Furthermore a detailed study of the evolution of the headdress and the structure of jewelry from the late 10th century to the 13th century is offered **Foreign Social Science Bibliographies** ,1965 *Foreign Social Science Bibliographies* United States. Bureau of the Census,1965 *Grave Disturbances* Edeltraud Aspöck,Alison Klevnäs,Nils Müller-Scheeßel,2020-07-31 Archaeologists excavating burials often find that they are not the first to disturb the remains of the dead Graves from many periods frequently show signs that others have been digging and have moved or taken away parts of the original funerary assemblage Displaced bones and artefacts traces of pits and damage to tombs or coffins can all provide clues about post burial activities The last two decades have seen a rapid rise in interest in the study of post depositional practices in graves which has now developed into a new subfield within mortuary archaeology This follows a long tradition of neglect with disturbed graves previously regarded as interesting only to the degree they revealed evidence of the original funerary deposit This book explores past human interactions with mortuary deposits delving into the different ways graves and human remains were approached by people in the past and the reasons that led to such encounters The primary focus of the volume is on cases of unexpected interference with individual graves soon after burial re encounters with human remains not anticipated by those who performed the funerary rites and constructed the tombs However a first step is always to distinguish these from natural and accidental processes and methodological approaches are a major theme of discussion Interactions with the remains of the dead are explored in eleven chapters ranging from the New Kingdom of Egypt to Viking Age Norway and from Bronze Age Slovakia to the ancient Maya Each discusses cases of re entries into graves including desecration tomb re use destruction of grave contents as well as the removal of artefacts and human remains for reasons from material gain to commemoration symbolic appropriation ancestral rites political chicanery and retrieval of relics The introduction presents many of the methodological issues which recur throughout the contributions as this is a developing area with new approaches being applied to analyze post depositional processes in graves At War with the Church Georg Bernhard Michels,1999 This detailed study examines the social religious and institutional conflicts accompanying the Russian Schism of the seventeenth century By analyzing who opposed the reforms of Patriarch Nikon 1652 58 and under what

circumstances the author presents a complex and multi faceted world of popular religious resistance that has been hidden from view for centuries The documentary records of Russian church and state archives most studied here for the first time reveal that the schism evolved in two phases The first phase began in 1652 and encompassed the activities of Old Believer literati as well as unrelated protests by social outcasts and independent minded individuals The second phase began in 1666 with a systematic church campaign to enforce the Nikonian forms of worship The author argues that the vast majority of ordinary Russians rejected Nikonian symbols such as the three finger sign of the cross and the new service book because they perceived them as tokens of obedience to church authority and not because they responded to the teachings of Old Believers In fact the book demonstrates that seventeenth century Old Believers literary and moralist concerns aroused little interest among contemporaries The Russian Schism s central feature was the assertion of religious autonomy by clerics and laymen Countless small locally endowed hermitages and a few larger monasteries having never been integrated into the church s institutional structure were now in revolt monks and nuns living outside of official monasteries preached heterodox ideas and violence or founded alternative communities in the forests defrocked and unemployed priests deeply hostile to the church participated in local uprisings and a number of parish priests defended themselves with force against attempts to depose them Manifestations of lay dissent included attacks by peasants and brigands on church representatives in Siberia and at Lake Onega group suicides quasi Protestant quests for religious salvation by individual peasants and artisans and underground religious networks sponsored by Novgorod and Pskov merchants The book provides a thorough reassessment of the Russian Schism relying primarily on archival documents and thus departing from the traditional focus on Old Believer writings and biographies
