Arms Trade Regulations:

The Arms Trade Treaty: A Commentary Andrew Clapham, Stuart Casey-Maslen, Gilles Giacca, Sarah Parker, 2016-07-28
The United Nations Arms Trade Treaty became binding international law in late 2014 and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by States Parties there exists controversy as to the meaning of certain key provisions Furthermore the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty but does not detail how such a body should be established and how it should effectively function The Arms Trade Treaty A Commentary explains in detail each of the treaty provisions the parameters for prohibitions or the denial of transfers international cooperation and assistance and implementation obligations and mechanisms As states ratify and implement the Treaty over the next few years the commentary provides invaluable guidance to government officials commentators and scholars on the meaning of its contentious provisions This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates It covers international human rights trade disarmament humanitarian law criminal law and state to state use of force as well as the application of the treaty to non state actors **Law and the Arms Trade** Laurence Lustgarten, 2020 The arms trade a critical introduction Governing arms transfers the praxis of law and the evaluation of risk Fragile underpinning the limits of EU Rules The EU criteria a critical examination The UK institutional and legal innovation dangerous dependency The German control regime on arms exports Arms exports in France Sweden s arms export controls balancing support and restraint The United States and arms exports Russian arms exports China as an arms exporter the strategic contours of China s arms transfers India and arms exports Arms transfer regulation beyond national borders The arms trade treaty a measure of global governance Future directions Weapons and International Law Clare Da Silva, 2015 The Larcier Law Annotated series is a collection of texts each concerning a specific topic The purpose of the series is to provide readers with an in depth overview of particular legal issues This Law Annotated volume on the Arms Trade Treaty ATT is a detailed assessment of the negotiation content and implementation of the Treaty The ATT which entered into force on 24 December 2014 is focused on the regulation of the international trade in conventional arms and the prevention of unlawful uses of such arms as well as the illicit trade and its diversion The purpose of this publication is to provide a comprehensive commentary to guide officials diplomats academics and others in the implementation of the Treaty This volume provides a systematic analysis of each article of the Treaty drawing on the negotiating history providing analysis of the obligations and setting out implementation issues The book describes the object and purpose of the Treaty what are the conventional arms ammunition munitions and parts and components that are subject to its provisions the prohibitions and other obligations of States Parties related to imports exports transit trans shipment and brokering activities within their jurisdiction Also addressed are the enforcement and other measures required by the Treaty and the procedures for

international cooperation and assistance *The Arms Trade Treaty* Stuart Casey-Maslen, Andrew Clapham, Gilles Giacca, Sarah Parker (Firearms researcher), 2016 The United Nations Arms Trade Treaty became binding international law in late 2014 and although the text of the treaty is a relatively concise framework for assessing whether to authorize or deny proposed conventional weapons transfers by States Parties there exists controversy as to the meaning of certain key provisions Furthermore the treaty requires a national regulatory body to authorize proposed transfers of conventional weapons covered by the treaty but does not detail how such a body should be established and how it should effectively function The Arms Trade Treaty A Commentary explains in detail each of the treaty provisions the parameters for prohibitions or the denial of transfers international cooperation and assistance and implementation obligations and mechanisms As states ratify and implement the Treaty over the next few years the commentary provides invaluable guidance to government officials commentators and scholars on the meaning of its contentious provisions This volume describes in detail which weapons are covered by the treaty and explains the different forms of transfer that the Arms Trade Treaty regulates It covers international human rights trade disarmament humanitarian law criminal law and state to state use of force as well as the application of the treaty to non state actors Publisher's website [The Arms Trade Treaty](#) Clare Da Silva, Brian Wood, 2021 This book provides a unique and comprehensive commentary on the Arms Trade Treaty adopted by the United Nations General Assembly in 2013 with several contributors having direct involvement in the negotiation of the Treaty **The Arms Trade and International Law** Zeray Yihdego, 2007 There are believed to be about 700 million small arms and light weapons SALW in the world often contributing to highly destabilising security and other concerns in international law This book deals with the proliferation of SALW and their unregulated trade and transfer across borders [Arms Export Regulations](#) Ian Anthony, 1991 Governments have a legal obligation to ensure effective control over arms exports and to monitor and supervise the movement of arms to ensure that they do not fall into unauthorized hands The purpose of this book is to provide a detailed picture of how governments discharge this responsibility Individual chapters describe national efforts to control arms transfers concentrating on the legal framework that exists to regulate arms exports The book includes a discussion of existing multilateral arms transfer control regimes including the United Nations the Coordinating Committee for East West Trade Policy CoCom the Missile Technology Control Regime MTCR and arms embargoes agreed by the Council of Ministers of the European Community Every effort has been made to produce a comprehensive compendium but total success has been prevented by the continued failure of some governments to release adequate information into the public domain **The Arms Trade and International Criminal Law** Tomas Hamilton, 2025-01-22 Despite the establishment of UN embargoes the Arms Trade Treaty ATT and the EU Common Position arms export regulation suffers from significant legal and practical limitations This book critically evaluates the existing body of Arms Trade Law highlighting its inadequacies in preventing weapons from reaching perpetrators of mass violence Drawing on interviews

participant observation and empirical research to assess the perspectives of judges and lawyers it also explores the International Criminal Court's narrow focus on prosecuting political and military leaders Arguing that institutional attitudes and commitments contribute to a legal culture that obscures the potential for an arms trader case the book illustrates these dynamics through a case study of the UN Security Council's response to the Second Congo War and the ICC's investigations in the DRC Situation elucidating missed opportunities to enforce accountability against the entire spectrum of actors responsible for international crimes Through detailed examination of the arms trade's complexities The Arms Trade and International Criminal Law foregrounds the structural causes of atrocity and argues for broader accountability It investigates how individuals including corporate executives state officials and arms traffickers can be held directly accountable for atrocities under international law even when their actions are geographically or causally distant from the violence itself Furthermore by advancing a specific interpretation of the actus reus and mens rea elements of accomplice liability under Article 25 of the Rome Statute this book argues for a robust legal basis upon which the ICC can prosecute arms traders It therefore underscores how international criminal law can complement existing regulations by leveraging its expressive function to condemn all those who profit from atrocity The Arms Trade Treaty Stuart Casey-Maslen, Andrew Clapham, Gilles Giacca, Sarah Parker, 2016 The Arms Trade Treaty is the first universal disarmament treaty to control the export and import of all conventional arms This commentary describes each provision of the Treaty how it was negotiated and the key challenges to its implementation **Laws and Regulations of the People's Republic of China** China, 2001

including China Russia and the US as well as several European states and the policies each employs in deciding advanced weapons sales to key regions of the world It examines whether such sales are inherently stabilising or de stabilising regarding regional security Regions reviewed in detail include the Middle East and the Indo Pacific Combat aircraft sales are a focus for the volume given both their practical and symbolic importance The volume focuses on the behaviour and policies of the main arms exporting nations since the end of the Cold War shifts in their arms export policies and the tensions that can emerge within or between countries over proposed arms sales It also considers the impact of countries that were previously only recipients of advanced weapons moving to develop their own defence industrial base

Beyond Viktor Bout: Why the United States needs an Arms Trade Treaty Colby Goodman,2011 While the high profile trial of Viktor Bout in New York will show some of the threats the world continues to face from unscrupulous private arms brokers it only provides a glimpse into a much larger problem Skilled at operating in the shadows and exploiting weak national arms transfer controls arms brokers have funneled arms to almost every country under a UN arms embargoes in the last 15 years often fueling armed conflict and serious human rights violations The US has worked on at least 70 US prosecutions in the last five years that have charged defendants with crimes related to illegal arms brokering Yet it continues to face difficulties in bringing arms brokers to justice and shutting down criminal networks The lack of effective legal systems addressing the arms trade in many countries enables illicit arms dealers to exploit regulatory gaps and carry out their activities with impunity The US and the world need an effective global Arms Trade Treaty to help close these gaps and stop the irresponsible trade in deadly weapons
