Kysely,Betty Fogler,1974 **The military history of the American Revolution** , The Inspectors General of the United States Army, 1777-1903 David A. Clary,Joseph W. A. Huston,1966 *The Writing of American Military History* U. S. Department of the Army,2001-06 The Writing of American Military History A Guide should stimulate intelligent probing into the past with an eye to the future This in turn should lead to increased wisdom and therefore to wiser decisions and better execution throughout the Army in peace and war The primary purpose of this text is to bring order out of chaos in the fields of historical study and research in the United States Army In line with the views of Clausewitz the principal object of the text is to stimulate a progressive and scientific study of United States military history and leadership with the hope that it will produce searching rather than inventive minds and cool rather than hot heads to which the safety of our country can be most advantageously entrusted in time of emergency or war All officers of the United States Army but particularly those having historical assignments and undergoing instruction at the service schools and colleges or civilian educational institutions will find the text helpful Scholars and others interested in American military affairs may also find it very useful The Writing of American Military History A Guide was originally published by the Department of the Army in June 1956 **The Writing of American Military History** United States. Coakley,Stetson Conn,U.S. Army Center of Military History,2018-11-02 This eBook edition of the American Revolution history has been formatted to the highest digital standards and adjusted for readability on all devices This book on the American Revolution consists of three parts a brief narrative history of the war a chronology of military events and a bibliography Each part requires a word of explanation The narrative consists of one chapter on the colonial background of American military history and two on the Revolution itself Part Two is a chronology oriented toward military events covering the period

between the signing of the Treaty of Paris ending the Seven Years War in 1763 and the ratification by the Continental Congress some twenty years later of a second Treaty of Paris confirming American independence Part Three the bibliography contains listings of over a thousand titles of books articles and published source material on the American Revolution The emphasis is again on the land war but proportionately the bibliography gives more attention to the political social and economic aspects of the Revolution and to its naval phase than do either the narrative or the chronology
