*Aromatherapy for Scentual Awareness* Judith White (aromatherapist.),Karen Downes (aromatherapist.),Karen Day,1998-09      **Aromatherapy for Scentual Awareness** Judith White,Karen Downers,2011-06-28 Like the citizens of every recorded society we have turned to incense potpourri and pomanders to add to the quality of space we inhabit Even today people travel many kilometres just to sit and walk in a beautiful garden just as they did in the days of the Gardens of Babylon And why Because it is instinct that the very essence of nature is a healer to our spirit and to our soul Of course our bodies respond to aromas We dont need science to tell us that Go sit in a beautiful garden and breathe in the brilliant blend of aromas and you will notice an uplifting of your mood and spirit It is true however that some people respond more acutely and readily to aromas than others This is not really unusual when you consider how magnificently developed the sense of smell becomes in a blind person As the Royal Blind Society will tell you you can develop your senses far and beyond the average person when you have to or when you just simply want to When a woman or a man arrives at that stage of their life when they become more aware of their senses of nature and the world around them we believe it marks a very important point in their development Scentual Awareness is the term we use to describe this growing appreciation of aromas and fragrances and the sense of smell hence the title of this book We believe our book can open the way to a whole new world for you It will give you insight into a new approach to nature through one of its most powerful tools those fragrant essential oils drawn from flowers and grasses trees and roots leaves and fruit These remain the great untapped resources of our planet Our book *Aromatherapy for Scentual Awareness* shows how each essential oil can offer many diverse benefits One of the most holistic of all systems of medicine you will see for yourself how the oils can alleviate symptoms prevent many illnesses and disorders influence our moods or create special environments in our homes offices or wherever we may spend our days all without the chemical pollution of our bodies or our environment In writing this book we have drawn largely on our own experiences in day to day life in the visible improvements to our appearance and the general state of our health and wellbeing We have also drawn on feedback from friends and relatives but most importantly from the thousands of people we have come in contact with through our work as aromatherapists including many who have come to our workshops and demonstrations They have all had stories to tell      *Aromatherapy for Men* Judith White,Karen Downes,2011-06-09 Every day our senses are being stifled by technology and the environment in which we spend our time The message of this book is simple wake up your mind and body with the power of essential oils A mans personal needs are uniquely different from a womans In this book you will learn a simple bodycare programme to strengthen your vitality Utilize these aromatic tools for success and create new ways to build your relationship      **Aromatheraphy for Natural Health** Judith White,Karen Downes,2011-06-15 *Aromatherapy for Natural Health* is an ideal and comprehensive source of reference for every home Safe and effective remedies will assist in the relief and prevention of a number of common ailments from acne and arthritis to

varicose veins and warts The easy to follow alphabetical format identifies essential oils methods of use and ailments and assists you in using the healing force of nature at home and in the workplace Complementary natural therapies which work in harmony with aromatherapy are also included Discover a wealth of optimum natural health options **Aromatherapy for Scentual Awareness** Judith White,Karen Day,Karen Downes,1996 This comprehensive easy to use primer describes the 30 essential oils that make up the perfect aromatic wardrobe and explains how they can be used alone or in combination to alleviate medical symptoms prevent common illnesses and disorders influence moods lift spirits and create a pleasing environment in homes and offices *Massage and Aromatherapy* Andrew Vickers,Caroline Stevensen,Steve Van Toller,2013-11-11 This book aims to give health professionals a balanced and independent overview of massage and aromatherapy I have written it because despite growing interest there is a dearth of professional literature on this subject This book aims to cover a number of topics which are under represented in existing publications These include scientific research in massage and aromatherapy the use of the therapies in medical settings the knowledge base of massage and aromatherapy professional and managerial issues safety Understanding of these subjects is essential for any reasoned evaluation of massage and aromatherapy Yet this book is probably the first to provide information suitable for this task At the current time of writing almost all books on massage and aroma therapy have been written with the lay public in mind The texts recommended to students and practitioners by the foremost schools and institutions are exactly the same as those available in health food shops as general introductions for prospective patients Not surprisingly such books generally fail to include in depth discussions of professional issues *Alternative Medicine - New Insights* Cengiz Mordeniz,2025-01-29 Modern medicine often treats individuals as standardized patients categorizing them by defined diseases and creating lifelong dependency on medications Side effects are managed by introducing additional medications creating a never ending cycle Patients are not cured but their symptoms are depressed as long as the drug is taken For example a simple headache is broken down into subgroups each explained by different causes and mechanisms However some patients suffer for years and their headaches are not eliminated The same approach is applied to other pain conditions as well as diseases like cancer rheumatism and others A new idea emphasizes revisiting traditional methods and products to inspire new trials To integrate these methods more scientific studies and reliable data are needed This book introduces innovative methods that combine traditional approaches with scientific insights offering a personalized and holistic perspective for natural healing
