Science fiction is a literary genre based on scientific speculation Works of science fiction use the ideas and the vocabulary of all sciences to create valid narratives that explore the future effects of science on events and human beings Science Fact and Science Fiction examines in one volume how science has propelled science fiction and to a lesser extent how science fiction has influenced the sciences Although coverage will discuss the science behind the fiction from the Classical Age to the present focus is naturally on the 19th century to the present when the Industrial Revolution and spectacular progress in science and technology triggered an influx of science fiction works speculating on the future As scientific developments alter expectations for the future the literature absorbs uses and adapts such contextual visions The goal of the Encyclopedia is not to present a catalog of sciences and their application in literary fiction but rather to study the ongoing flow and counterflow of influences including how fictional representations of science affect how we view its practice and disciplines Although the main focus is on literature other forms of science fiction including film and video games are explored and because science is an international matter works from non English speaking countries are discussed as needed *Futures Past* Gardner Dozois, Jack Dann, 2013-06-15 Change the past and the future may come undone An outstanding collection of time traveling alternate history stories from 16 major science fiction writers both old and new Every day a thousand possible futures die unborn around us corners not turned paths not taken But if one could go back into the past and change it the outcome could be unimaginable _ *Aristotle and the Gun* by L Sprague de Camp _ *Sitka* by William Sanders _ *The Only Game in Town* by Poul Anderson _ *Playing the Game* by Gardner Dozois and Jack Dann _ *Killing the Morrow* by Robert Reed _ *The We Frustrate Charlemagne* by R A Lafferty _ *The Game of Blood and Dust* by Roger Zelazny _ *Calling Your Name* by Howard Waldrop _ *What Rough Beast* by Damon Knight _ *O Brave Old World* by Avram Davidson _ *Radiant Doors* by Michael Swanwick _ *The Hotel at Harlan's Landing* by Kage Baker _ *Mozart in Mirorshades* by Bruce Sterling and Lewis Shiner _ *Under Siege* by George R R Martin At the publisher's request this title is sold without DRM Digital Rights Management **Exploring Oklahoma Highways** Michael Heim, 2007
