The book looks at the history of art for kids from prehistoric paintings Impressionism abstract art through to the art of today It includes biographies of major artists from Fra Angelico to David Hockney Art And How it Works cuts through the jargon that surrounds the art world and offers a fresh new and accessible approach for kids *Uncovering the History of Children's Drawing and Art* Donna Kelly,2004-01-30 Reactions to children s artwork have varied throughout different times and places Donna Darling Kelly is calling for a more joyful appreciation of our youngest artists She presents the dichotomy of the Mirror and Window paradigms First she explains the Mirror paradigm which art educators psychologists and art historians use it is a psychological focus on children s art It can be defined as the ability of the child to represent images of something other than the object itself Psychologists who believe in this theory are interested in the self reflective qualities of children s drawing as they relate to language intelligence and cognitive development The opposing Window paradigm is an aesthetic perspective followed by people working in the arts The subscribers to this theory see children s art as an objective reproduction of reality that carries all of the meaning with the image The act of representation is the ultimate goal in this model not the truth behind the goal Darling Kelly would like to see the interested parties in the field of children s art placing less emphasis on the prevailing Mirror paradigm and embrace the Window paradigm Art educators often feel sidelined because subjects such as science and mathematics are requisites while art remains at best an elective Art is often classified as a sub discipline concerned primarily with therapeutic areas An unwanted effect of the Mirror paradigm is the stereotypical psychological model of the artist as a hopelessly neurotic or troubled soul This volume is a call to arms for the aesthetic Window paradigm so that art as an autonomous discipline can gain stature in the curriculum of all children s schools
