Art And Freedom

William W. Van Alstyne

Art And Freedom:

Freedom of Artistic Expression Paul Kearns, 2014-07-18 This book presents a unique and comprehensive examination of the human and moral rights of artists In what is arguably the first exhaustive book length account of artists rights Paul Kearns explores the problems associated with censorship both from philosophical and legal perspectives and focuses on the various ways in which the morality of art is legally regulated in different jurisdictions In relation to human rights English French and American law the law of the European Convention on Human Rights European Union law and public international law are all closely scrutinised to discover the extent to which they offer protection for artistic freedom The author also examines domestic and international law in respect of artists moral rights the law of copyright and related laws In short the book provides an original and sometimes controversial analysis of persistent concerns regarding the legal regulation of the arts universally doctrinally and theoretically and seeks to offer an holistic treatment which will appeal to art lawyers artists and those interested in the future of the arts

Art and Freedom Horace Meyer Kallen, 1942

Women, Art, Freedom Pamela Karimi, 2024-09-11 Women Art Freedom offers an insightful look at the 2022 Woman Life Freedom uprising in Iran sparked by the tragic murder of Jina Mahsa Amini at the hands of the morality police for violating hijab rules Beyond its feminist undertones and the remarkable courage of the young protesters what sets this uprising apart from previous ones is the abundant and diverse art it has inspired This book rather than merely analyzing the artworks that garnered attention on social media platforms brings to light lesser known grassroots artistic movements that played a crucial role within their immediate local communities Engaging with primarily Iran based artists it uncovers their role in shaping guerrilla interventions and street occupations and in articulating distinct forms of peaceful civil disobedience By drawing on a broad spectrum of historical and theoretical sources this book further reveals the origins and inspirations of Iran s protest art Focusing mainly on the interconnections between the public sphere women s bodies and feminist viewpoints Women Art Freedom underscores the vital role of artists in championing global justice and equality

Art and Freedom Edgar Evalt Sleinis, 2003

Library of Congress Subject Headings Library of Congress, 2013

The Art of Freedom Bob Raczka, 2008-01-01 SINGLE HARDCOVER PART OF ART SET

Artistic Freedom in International Law Eleni Polymenopoulou, 2023-04-13 The book explores artistic freedom as a human right and the contemporary challenges for its protection under international law

Sacred Spring Robert Weldon Whalen, 2007-03-19 Students of modernism the arts and European cultural history will find that Sacred Spring offers an intriguing perspective on their subjects The book will also appeal to readers interested in the intersection of culture and faith in the connection between the arts and the sacred

BOOK JACKET

Art and Freedom Horace M. Kallen, 1949

Art Rethought Nicholas Wolterstorff, 2015 We engage with works of art in many ways yet almost all modern philosophers of art have focused entirely on one mode of engagement disinterested attention Nicholas Wolterstorff explores why this is and offers an alternative framework according to which arts are a part of

social practice and have different meaning in different practices **Music, Film, and Art** Haig A.

Khatchadourian, 2010-07-01 Music Film Art presents 13 lively essays on current issues in aesthetics and philosophy of the arts from classifying a work as good or poor to the difficulties contemporary audiences face in attempting to understand and appreciate the avant garde Offering fresh insights on music painting and film as well as literature dance theater and sculpture this thought provoking volume will be of considerable interest to the serious general reader and to students critics and aestheticians **Art's Way Out** John Baldacchino, 2012-03-26 In taking the critique of inclusion and entry as a first step Art's Way Out's discussion of art politics and learning aims to delineate what an exit pedagogy would look like where culture is neither seen as a benign form of inclusion nor as a hegemonic veil by which we are all subscribed to the system via popularized forms of artistic and cultural immediacy An exit pedagogy as prefigured in what could be called art's way out through the implements of negative recognition qua impasse would not only avoid the all too facile symmetrical dualism between conservative and progressive liberal and critical pedagogies but also seek the continuous referral of such symmetries by setting them aside and look for a way out of the confined edifices of education and culture per se An exit pedagogy seeks its way out by reasserting representation in the comedic the jocular and more effectively in the arts power of pausing as that most effective way by which aesthetics comes to effect in its autonomist and radical essence In this fluent limpid and scholarly work Baldacchino examines inter alia the problem of empathy in relation to art as an event or series of events drawing upon a wide and rich range of sources to inform what in effect is his manifesto With a profound understanding of its philosophical basis Baldacchino unfolds his argument in an internally consistent and elegantly structured way This is not a book to be dipped into to do so would miss the development of Baldacchino's philosophical position like an art work itself Art's Way Out has coherent structure and a complex interrelation between form and content reflecting an artist's concern for getting things right Richard Hickman Cambridge University Although art has a limitless capacity to take on myriad responsibilities according to Baldacchino we also need to consider a way out because only then will we understand how art goes beyond the boundaries of possibility As he explains our way into reason also comes from an ability to move outside the limits that reasons sets This is the exit pedagogy that he advocates And here exit does not mean to leave but rather to reach beyond to extend and explore outside the borders we impose on learning teaching schooling and most forms of cultural agency The need to embrace the capacity of art to cycle beyond the contingencies we impose on it also helps to clarify the limits of inclusive arguments for deploying art education for various individual institutional and socio political ends art as self expression art as interdisciplinary method art as culture industry art as political culture art as social justice and so on This image invokes for me part of the legacy of Maxine Greene that Baldacchino revealed in his earlier text Education Beyond Education 2009 when he explored her thesis of the social imagination which is best achieved when teaching becomes reaching What Art's Way Out gives us is an exit strategy from the deadening tendency to ignore the

enduring capacity of art to give life to learning teaching and the very culture of our being Graeme Sullivan Penn State University This is the sixth book authored by John Baldacchino the other most recent books being Education Beyond Education Self and the Imaginary in Maxine Greene s Philosophy 2009 and Makings of the Sea Journey Doubt and Nostalgia 2010 Currently Associate Dean at the School of Art Design University College Falmouth in England he was full time member of faculty at Columbia University s Teachers College in New York Gray s School of Art in Scotland and Warwick University in England Front cover image Monument to Marx we should have spoken more 2009 by Mike Ting

Codification in International Perspective Wen-Yeu Wang,2014-02-12 No aspect of legal formalism has interested comparative jurists as much as the extent of legislative codification across legal systems This book looks at codification from a broad international perspective discussing general themes as well as various legal fields The first of two volumes on this subject begins with a general theoretical and historical view of codification followed by a series of other horizontal inquiries It encompasses papers focusing on several significant contemporary issues in codification including codification of private law in post soviet times criminal law codification beyond the nation state and soft codification of private law In addition this volume consists of general reports and national reports on administrative procedure and human rights providing a comparative analysis of codification of law This book is developed from papers presented at the 2012 Thematic Congress of the International Academy of Comparative Law

Freedom and Tenure in the Academy William W. Van Alstyne,1993 Van Alstyne presents an unhurried historical review of the extent to which academic freedom has been accepted into domestic constitutional law Two essays deal with the issue of tenure and academic freedom Ralph S Brown and Jordan E Kurland agree that tenure reinforces academic freedom but wonder if there is not a large price to be paid for such a system In a highly instructive review Matthew Finkin looks at academic tenure and freedom in the light of labor law Focusing on freedom of artistic expression Robert O Neil raises difficult questions about what kinds of art displays taxpayers can be expected to tolerate in the colleges and universities they support Rodney A Smolla looks at the ways in which hate speech and offensive expression on campuses engage wide First Amendment jurisprudence Judith Jarvis Thomson examines the vexed issue of selecting and valuing individual faculty members or disciplines with regard to ideology Michael W

Religion and Art Davor Džalto,2019-06-18 How can we think of the aura of sacred contexts and sacred works How to think of individual and collective esthetic religious experiences What to make of the manipulative dimension of religious and esthetic auratic experiences Is the work of art still capable of mediating the experience of the sacred and under what conditions What is the significance of the eschatological dimension of both art and religion the sense of ending Can theology offer a way to reaffirm the creative capacities of the human being as something that characterizes the very condition of being human This Special Issue aspires to contribute to the growing literature on contemporary art and religion and to explore the new ways of thinking of art and the sacred in their esthetic ideological and institutional dimensions in the context of contemporary culture

Exploring Freedom Through

Fiction Pasquale De Marco, In a world where boundaries are constantly tested and redefined *Exploring Freedom Through Fiction* embarks on an enlightening journey to explore the multifaceted nature of freedom Through a captivating exploration of history culture and society this book delves into the essence of freedom its boundaries and its intricate relationship with various aspects of human existence With profound insights the book examines the historical perspectives on freedom tracing its evolution from ancient philosophical musings to contemporary debates It delves into the cultural and social contexts that shape and limit individual liberties highlighting the complex interplay between personal autonomy and societal expectations Furthermore the book explores the boundaries of freedom acknowledging the delicate balance between individual rights and societal well being It investigates the limits of personal freedom imposed by moral ethical and legal constraints emphasizing the importance of striking a harmonious equilibrium between individual liberties and collective responsibilities With a keen eye for detail the book delves into the relationship between freedom and social justice emphasizing the imperative to address historical and contemporary injustices It examines the inextricable link between freedom and equality advocating for a just and equitable society where all individuals have the opportunity to thrive Moreover the book explores the interplay between freedom and the environment recognizing the interdependence between human liberties and the health of our planet It highlights the ways in which environmental degradation and resource depletion threaten human autonomy and advocates for sustainable development practices that balance economic progress with environmental protection Throughout its pages the book engages with the captivating expressions of freedom in literature art music and film It analyzes how these artistic mediums have captured the essence of liberty challenged societal norms and inspired individuals to reflexionar on the true meaning of freedom *Exploring Freedom Through Fiction* is a thought provoking exploration of freedom inviting readers to contemplate its profound significance in our lives It is a clarion call for individuals to actively engage in shaping a world where freedom flourishes empowering them to break down barriers foster inclusivity and create a society where all individuals can experience the transformative power of liberty If you like this book write a review

Handbook of Research and Policy in Art Education Elliot W. Eisner, Michael D. Day, 2004-04-12 This work provides an overview of the progress that has characterized the field of research and policy in art education It profiles and integrates history policy learning curriculum and instruction assessment and competing perspectives *Shakespeare's Freedom* Stephen

Greenblatt, 2010 With the elegance and verve for which he is well known Greenblatt author of the bestselling *Will in the World* shows that Shakespeare was strikingly averse to such absolutes as scripture monarch and God and constantly probed the possibility of freedom from them **Art and Entertainment** Andy Hamilton, 2024-02-29 Philosophers have discussed art or artistic practices such as poetry since ancient times But systems of art and entertainment appeared only in the modern era in the West during the 18th and 19th centuries And philosophers have largely neglected the concept of entertainment In this book Andy Hamilton explores art and entertainment from a philosophical standpoint He argues against modernist theory

that art and entertainment are not opposites but form a loosely connected conceptual system Against postmodernism however he insists on their vital differences Hamilton begins by questioning the received modernist view examining artist entertainers including Jane Austen Charles Dickens Louis Armstrong and Billie Holiday Entertainment he argues is by nature audience centred but so is art in a different way Thus while art should pass the test of time entertainment must pass the test of its own time it has to entertain at the time it is produced Art and entertainment are inter dependent concepts and must be understood together with other aesthetic concepts including criticism genius canons and design These concepts form the subject of later chapters of this book where Hamilton develops a meritocratic position that is neither elitist nor populist He also addresses the contemporary charge of cultural appropriation and qualifies it An innovative feature of the book is the inclusion of dialogues with artists critics and academics that help to recast or reformulate the debate Art and Entertainment A Philosophical Exploration is essential reading for those working in art and aesthetics and will also be of interest to those in related disciplines such as cultural studies music and film studies with an interest in entertainment *Library of Congress Subject Headings: P-Z* Library of Congress. Subject Cataloging Division,1988
